## **Keeping Kennedy** Debra Webb

Kennedy Malone is DC's top spin doctor. She keeps the political brass looking clean and shiny. Her personal life is not so well organized, and she needs a spin to wiggle her way out of a little fix. A piece of cake. All she needs is a fiance for one week. Is that too much to ask?

Douglas Drake is a freelance photographer. He travels the world and brings home award-winning work. He has no time for commitment to anything else. When his neighbor and friend asks him for a favor, he hesitantly obliges. He could use a break, and Kennedy has helped him out too many times to count. Last minute trips to the airport, feeding his pet Iguana while he is away on assignment for weeks on end. Kennedy has always come through. But going to her hometown and pretending to be her fiance for a whole week is a pretty big favor.

Kennedy is a strait-laced businesswoman; Drake a laid back, go-with-the-flow kind of guy. They are total opposites in all things except career focus. Pretending to be engaged for seven days and nights shouldn't be a problem...until passion and desire explodes between them!

Though Debra Webb has distinguished herself as an author of romantic suspense, she began her career writing sassy and spicy romances for Kensington's Precious Gems. For the first time these heartfelt stories, which were sold only in Wal-Mart for one short month, are available as ebooks.

## **Keeping Kennedy Details**

Date : Published September 19th 2011 by Pink House Press (first published January 1st 2000)

## From Reader Review Keeping Kennedy for online ebook

### Tiffany says

Drake is such a sweetheart! You can't help but fall in love with him. I'm so glad things worked out the way they did for Drake and Kennedy. There was a few type-o's, but that definitely didn't effect the story line or flow of the writing. This book is absolutely worth your time.

---

### Maral says

#### Good story...

I loved the story. But toooo many grammatical and spelling mistakes that took away from the story. Hate when that happens.

---

### Stephanie says

This book was definitely not like anything I expected. Honestly, I never really know what to expect when it comes to books, but I always have some sort of idea in my mind of what books could possibly contain. I guess I just really didn't expect any of the erotica-type scenes that were in the book, because I've never read a book that went into detail about anything to do with sex that wasn't an erotica-novel. But, I've also never read a book by Debra Webb before so that might be it too.

I think this book was a fun read. It doesn't take long to finish, so it's great for someone who wants or needs to get through a book quickly.

For the story itself, I would've rated it 4 stars because it was fun and enjoyable. The characters (for the most part) are believable, which is nice because people want to be able to relate to the book somehow. It's a cute love story about two neighbors who have known each other for years, and through certain events, fall in love. Now, the only thing about this story that I didn't like and made me want to rate it lower is that at the end, the two love birds get engaged after only a week of realizing they were attracted to each other. I hate stories like that, because I am not a believer in love-at-first-sight, which this story pretty much seems to be like. If you're one of those people who is a "hopeless-romantic" or always wants the main female and main male characters to be together in the end, this book is for you.

For the mechanics of the book, I rate it a 2. It was really disappointing to me when I would have to pause while reading, to look back and re-read the sentence a few times to understand it because the spelling or grammar was wrong. I don't know if it has anything to do with the fact that I read it on my kindle app instead of the actual book, but there were just way too many spelling and grammar mistakes. I feel like the author and editor should've caught on to something I could spot so easily. Yes, when you're so engrossed in the story you're writing, sometimes you miss a few of your errors. I've done that before while writing essays. But that's what editors are for. That's why you leave it alone for a few days and check it again later. It just didn't seem very professional to me.

## Ollie says

I have to say I really like this book! It was so cute and the banter between Kennedy and Drake was so fun that I found myself smiling from ear to ear. This was a sweet romance where two friends end up seeing other in a completely different light.

Ok so Kennedy loves her career and relationships never interested her and she never really paid attention to guys in her life including her super, sexy neighbor Drake. Now they are friends and as such she is forced to ask him to pretend to be her fiance on her trip back home for week-long reunion celebrations. Soon these two start having feelings for each other as they engage with the antics with her parents and townspeople. They try to resist their urges for fears that it will change their friendship, but the sexual tension becomes too much.

Before you know it these two hook up and the emotional impact that occurs next is so sweet and tender that it will brighten your day and make you feel warm inside knowing something beautiful happened.

4 Stars

## Clary ?. says

Ok bueno no se, primero me encanto la portada pero el libro no es lo que esperaba se me torno aburrido tenia sus partes buenas y espere que mejorara pero eso no paso. A ver Kennedy me pareció un personaje muy confuso, por un lado era estricta por decirlo así y por otro lado me pareció muy infantil y vamos que tiene como 30 años y la quería matar en serio y me sacaba de quicio que siempre quisiera negarse a si misma la atracción que sentía por Drake, por el contrario Drake no se de donde sacaba tanta paciencia y él si me pareció maduro es decir sabia lo que quería hacia lo que quería al menos era mas estable que Kennedy así que el libro no me emociono y mas bien estaba ansiosa por terminarlo, no siento pena por despedirme de los personajes, no sentí ninguna coneccion pero bueno listo lo acabe!

## Jennifer says

Esta historia se parece un poco a la pelicula de "wedding Date" solo que es una reunion de ex alumnos y no de una boda. No me convece el argumento de la todo poderosa y timida a la vez, como lector pudimos haber obtenido un poco mas de esta historia.

---

## ★ Belle The Bibliophile ★ says

This book was exactly what I needed to release my stress: short and sweet. I felt like the relationship development between Drake and Kennedy was way too fast but it didn't bother me at all.

Overall I really enjoyed it.

---

## Jody says

Kennedy is a beautiful high paid PR consultant for the big wigs of politics in Washington DC. She is happy with her life and has everything she wants but to get her friends and family to stop trying to fix her up and marry her off, she invented a fiance. But not just any fiance, Drake her extremely HOT neighbor and friend. Therefore, when her High School reunion rolls around she has to convince Drake to come home with her for the week to pose as her fiance.

Drake being the nice guy that he is agrees to her plan. But things immediately get complicated as the friend lines get blurred. The end result is a laugh out loud sweet romance that has just the right amount of heat. The quirky townspeople will have you laughing and enjoying the read.

---

## Jackie says

As I enjoyed "Here to Stay" so much by the same author I decided to try this book and so glad I did. it is a typical man and woman neighbours for three years but good friends.

Kennedy is a workaholic and Drake is a photographer who is always going off on assignments and always seems to have a steady stream of women at his door.

She needs a big favour from him and wants him to pretend to be her fiance for a week when she goes back to her parents as they are constantly on her back about settling down.

You know where it is going to end but Debra takes us along at a good pace and you just know that you want them to get together.

Loved all the supporting characters and as it was quite a short book I read it in one morning, although I am quite a quick reader.

I have now brought another couple of Debra's books and will look forward to reading them.

---

## Nicola says

A quick and entertaining read. Kennedy is a likeable character who finds herself in a sticky situation of her own making. She forces her good-looking neighbour to help her out, only to find herself falling for him.

However, what would a good looking, well sought after bachelor see in her?

Drake finds himself drawn into helping out his friend and neighbor, who has lied to family and friends and told them that the two are engaged. Visiting a small town, and being welcomed into a warm and living, if somewhat quirky family, has him reassessing his personal goals for life. Is Kennedy what he has been looking for all along?

Silly situations and crazy family members make a week in Friendly Corners an adventure neither Kennedy nor Drake were expecting. It will make you smile, and give you a fun escape.

---

## Sara says

Una historia que me sorprendió gratamente al no ser como pensé debido a su sinopsis, siendo más romántica, pero no al punto de ser melosa.

Es entretenida, con toques de humor y algo de tensión por la atracción entre los protagonistas que evitan pensar en sus sentimientos. Aunque la trama o tema central pueda considerarse un cliché, el modo en que la autora desarrolló todo fue lo que me gustó e hizo que no pudiera dejar de leer.

El único punto en contra de todo, fue la personalidad de Kennedy; siendo una mujer de unos 30 años, a veces sus actitudes y/o terquedad me hicieron pensar que tenía unos 20. Con respecto a Drake, fue uno de mis personajes favoritos, siendo romántico y a la vez pícaro, dando su apoyo y siendo maduro al aceptar sus sentimientos mucho antes de lo esperado. Mi otro favorito fue Martin, el que más me sorprendió y del cual me hubiera gustado saber más.

Me hubiera gustado un epílogo para saber un poco más, pero quedé conforme con el final que se me hizo perfecto para cerrar esta historia.

---

### **Kat says**

Bueeno, aquí vengo con otra reseña de un libro mas bien cortito.  
Fue muy lindo, a mi me encantan las tramas estas de: "Necesito un novio falso."

Me gusta el desarrollo de las cosas entre los dos, y como una de las partes (la chica) siempre esta intentando auto-convencerse de que no esta enamorándose.. \*sighs\*

Me gusto mucho mucho mucho Drake, Dios, ese chico es un amor.  
Es un santo por la paciencia que le tenía a la exasperante de Kennedy.. agh.

Aunque después Kennedy comenzó a gustarme.. en el final, ah.

De todas maneras, me gusto TODO del libro. Aunque el final como que fue demasiado rápido, ah.  
Sus merecidas 4/5 estrellitas.

---

### **Kati says**

Me encantó Drake!  
¿Existen los hombres como él?

---

### **Lesley says**

I liked the characters and the story, but the ending was too rushed and an epilogue would have been nice. My biggest issue was the absurd amount of grammatical errors in the book. The book needs a good proof reading!

---

## **Kara Parks says**

I enjoyed this book. It was a freebie from Amazon. I only problem was I felt like the end was hurried.
