### **LiquidLucidity says**

Who the hell is the blond wolf dude? I hope Adam didn't send him to scare Mercy away. Adam is a bit of a douche after his divorce, so he probably did.

---

### **Wendi Stanton says**

Awesome on audio book!!

---

### **Sasha says**

Great addition to Mercy's background story, but not my favourite - mainly due to the variation in the illustration. The 3 different illustrators all have different styles and some of the characters appear very different (Adam especially)

---

### **Carolyn Young says**

Love this entire series!

---

### **Kelly Burnley says**

#### **Still too short**

I mean I'm not a comic book person but you would think these would be a little bit longer than they are.

---

### **Janet L. Hage says**

#### **Graphic novel number two in series**

Further adventures of Mercedes Thompson the Volkswagen mechanic before she bought the shop. Well-developed storyline and characterization. Violence but for those 14 and older

---

### **Paula Hamand says**

### **Disappointing**

it was too short and I'm not ready for mercy to be in a comic book, I gave it a try though, but buying two to get this short of a story just feels like I got screwed.

---

### **Amanda King says**

Really good, might not make much sense without previous knowledge of Mercy Thompson series, was really good at filling in some blanks of various back-stories, too. Beautiful illustrations, the nudity was very tastefully done yet maintained the realism of the story.

---

### **Kieraanne says**

Fun view into Mercy's world pre-Adam. I wish these were longer though.

---

### **Dale Raby says**

#### **Worth the price of admission...**

These are quite well done! Some frames grayed out on my device, but all in all a good read. Some near nudity, but nothing too graphic (pun intended).
