Dana says

Babies Love books are perfect for little hands which love to move the flaps. My wee ones go back to these books repeatedly for several sustained minutes. As an educator, I applaud the simplicity of the concepts and few words on each page. Perfect for the toddler/baby set.

Christine says

"Rocket" might still be a bit advanced for this beginner word book, but the rest is great. My son loves cars, buses, trains, planes, etc. so I'm sure we will get a lot of use out of this one.
