**The Magnate's Tempestuous Marriage** Miranda Lee

## *The perfect marriage?*

Mining magnate Scott McAllister thinks that inexperienced, biddable Sarah is the perfect wife. Until he's led to believe she's committed the ultimate betrayal! When he confronts her, Sarah's defiant response astounds Scott, sparking a desire to uncover these unseen passionate depths...

Sarah is furious Scott believed such lies, but even more furious that her body can't forget the seductive magic of his! The sheer power of their attraction and Scott's pull over her is overwhelming...

In this fight to save their marriage, their bed is the ultimate battleground! Unless Scott can persuade Sarah that surrender is more fun with *two* winners...

## **From Reader Review The Magnate's Tempestuous Marriage for online ebook**

### **Sofia says**

Frustrating book. The type where you think, had they talked any of this out, it wouldn't even had had as much content to cover an entire chapter.

---

### **Xai Xai says**

More angst.....ok read.

---

### **Deborah says**

I loved the storyline. Yes, both Scott and Sarah have trust issues. Yes, they need to communicate better. It was an enjoyable read.

---

### **Rgreader says**

The storytelling was underwhelming and the heroine was annoying. Two negatives which overwhelmingly impacted my reading so I dnf'd on page 38. Also, the gay best friend, a trope that's so boring to me. Why not a best friend who's Black, Asian, Muslim or Christian? Or just leave out the obvious activism of LGBTQ and focus on the heroine and hero's journey to hea. I don't read romance for reality anyway. I read it to escape reality.

---

### **Debra says**

#### **The Magnate's Tempestuous Marriage**

This story has started out with him accusing her of infidelity. She refused to argue and left. This was a sweet story for the most part. When he got his mind cleared out he was able to figure out that they needed to talk. But she had been hurt. So it seems that two hard headed people would have headed to divorce but for people who cared about them. Will they get together? Or will she leave him?

---

### **Martha says**

I enjoyed the book, but for some reason it took me awhile before I finished it.

---

### **Annie Burrows says**

A skilfully written tale of a marriage in trouble.

---

### **Fabiola Chenet says**

Rectification: elle n'embrassait pas du tout un inconnu sur les photos. Elle ne faisait rien de plus qu'être en sa présence mais là où le héros a eu un doute, c'est ce qui s'est passé pendant qu'elle était avec cet inconnu

J'ai beaucoup aimé le livre et les héros. Ils ont clairement un problème de confiance car leur relation a été trop rapide. Ils doivent tous les deux faire des efforts même si le héros doit vraiment se faire pardonner.

Les Azur ont vraiment évolué et je m'en suis rendu compte avec ce livre. Miranda Lee est publiée depuis 1990 et voir l'échange en-dessous dans l'histoire m'a fait un "choc"

"Ne soyez pas choquée par ma question, madame McAllister, dit ensuite la généraliste en fronçant les sourcils. Mais votre séparation est-elle due à des violences conjugales?"

- Oh non! Pas du tout!"

Les violences contre les femmes sont actuellement l'affaire de tous a priori. Livre VO sorti en 2017.

### **Biggalletta Day says**

Great writing, great hero but annoying heroine. I'm giving it five stars because despite of the irritating heroine, it's an excellent read and I enjoyed it. Miranda Lee is a great story teller! Please read other reviews for balance.

Regarding the heroine, I couldn't stand her demanding & jealous ways and sense of self entitlement. It was like she was manipulating the hero all the time - messing with his mind. This is one of the few books where I thought the hero could do better. Even when Sarah the heroine gives her BIG REVEAL like BACKSTORY or History why she mean and distrustful of Scott, I still didn't buy it. Scott the hero could do much better in my book. So much better.

Still an excellent read, just couldn't stand the heroine. Again, please read other reviews for balance.

---

### **StMargarets says**

Bland marriage-in-peril story that is in peril because of the heroine's co-worker was making trouble. The heroine was sent messages to be wary of the hero's PA and the hero got pictures of the heroine eating lunch with a co-worker. Guess who bit?

The hero accuses the heroine of cheating. She leaves. He has second thoughts. They talk it out after a lonely week apart. The co-worker does not get a real comeuppance - in fact the heroine quits her job - so no justice here.

It was that predictable of a story. What I had a hard time believing is that the H/h didn't know basic facts

about each other (like the heroine's father cheated on her mother or the hero's mother abandoned him for a hippie commune).

The author tried to drum up some interest in the hero's widowed PA, hinting darkly at a domestic violence backstory, but I'm not feeling compelled to read her story in the sequel to this one.

---

### **A says**

3.5 stars rated down. The characters grow into their relationship together and have a great HEA. Their chemistry is believable as is the plot. Why rated down?? I am not looking for literary perfection when I read a book but, its sentences like these that put my back up - 'She was twenty five years old. Twenty six this year. Hardly a girl!' page 18 in the Prologue. I love a good romance but I wish authors will give me not just the romance but also some decent literature to give me a great reading experience. Is it too much to expect??

---

### **Tonya Warner says**

Sarah fell for Scott McAllister at first sight. And he fell for her. A whirlwind romance and the married quickly. Maybe too quickly as their first anniversary rolls around, Scott is convinced Sarah has cheated on him. And Sarah is questioning if Scott and his PA might have something going on.

Sarah can not deal with Scott not trusting in her, even though the evidence could be construed as damning. But with her family history, it's more than she can deal with and decides a few weeks away might help her work thru where to go next.

Scott knows once he sits back and takes everything in to account that Sarah would not cheat on him. But she is still working with the man responsible for trying to damage their marriage.

Both Scott and Sarah have secrets that they never shared with the other. And maybe, if they learn to talk to each other, and do more than just the physical, they can find their footing again.

---

### **Marianne says**

The Magnate's Tempestuous Marriage is the first book in the Marrying A Tycoon series by Australian author, Miranda Lee. After a whirlwind courtship, young lawyer Sarah is married to mining magnate Scott McAllister. But a year later, someone sends Scott an email showing his wife in a hotel with another man. He confronts her with it, but not before he takes her to bed. She's furious about his lack of trust and walks out. This is a story with way too much breathless, lustful falling into bed when some actual communication would have been a better idea. Neither book in this series is a good example of Lee's better romance writing. Mediocre.

---

### **Jenny says**

Super angsty and intense read about a marriage in trouble. But it had some problems. The author never told

us what the cheating pics showed and the lack of an epilogue! Instead of an epilogue we got an author note telling us the heroine had twins. Awful ending! 3 stars for me!

---

### **Izzie d says**

A quick marriage and busy lives leads to a lack of communication so when problems arise they have no foundation to fall back on to keep them together. I did find it refreshing that the hero was not afraid to admit he loved the heroine.
