My review contains SPOILERS!

I'm so confused. I did not like this final book at all. It was rushed. It was OTT sappy. Anna's character was completely ridiculous. It was never explained why the numbers disappeared or why they changed when they reappeared. And if the accident was the catalyst then why did they think they were home free? Does that mean other accidents could change the numbers again? It felt like a lazy solution. I wasn't a fan.

"I've got a story to live. A man to love."

Eternity is the second book in the **Exp1re** Duet. This duet must be read in order. As soon as I turned the last page of **Exp1re**, I couldn't wait to start **Eternity** in order to find out what could possibly happen next. With a perfect blend of romance, passion, and mystery, Tavian and Lyra's story continues.

"Call it fate, call it destiny, call it whatever you want. You're mine and I'm yours for as long as we have left."

Tavian West and Lyra Jennings met in the most unusual circumstances. After surviving catastrophe only to experience joy together, Tavian and Lyra return home to their former lives. Unable to quench the desire they have to be together, both decide to move forward together. Although it may seem they are on the cusp of their happy ever after, Tavian and Lyra have many obstacles to overcome before they can be together. The mystery that was revealed at the end of **Exp1re** continues to haunt them both. As Tavian comforts and heals Lyra, they both find joy, passion, and unbelievable love in the arms of each other.

"I want to celebrate my last day of work by wearing your ass as a party hat and drinking your Kool-Aid straight from that sweet pussy."

Told in dual POV, **Eternity** is a perfect conclusion to this duet. With the many struggles both of these individuals have been forced to endure, the happiness they find in each other will leave you utterly breathless. The plot is laced with mystery as the truth is slowly revealed. This duet ushers in an onslaught of thoughts about life and love and the moments we are meant to cherish. I couldn't help but think about how we should live every moment as it might be our last. I found the connection between Lyra and Tavian to be one of beauty. The way in which they cared for one another was undeniably epic. The tempo of the read flows naturally as the text is colored with beautiful dialogue and moment after moment of perfection. The passion is off the charts as Lyra and Tavian commit to one another and commit to living every second like it

is their first.

Overall, I highly recommend this read to any contemporary romance fans. Although there is a slight Sci-Fi overtone, it only enhances the love story between the two main characters. The plot is unique, the characters are complex, and their love story is one that I will never forget. Erin Noelle has created a truly remarkable masterpiece and I am now officially hooked. I look forward to reading more from this author very soon!

"Your love is my anchor. Your trust is my strength. And I will give you all of me from now until the end of eternity."

Erin Noelle delivered an exciting and interesting read in book one of this duet. I was so anxious to jump into this conclusion to see how things work out for our couple who met by chance or fate. You see they both see dates when they look into another's eyes. Tavian and Lyra made for two truly likable characters who have a great connection and chemistry. How things play out once their vacations had ended kept me glued to my reader.

The story does hold some drama but unfortunately one of the main reasons I was so anxious to find out the whys or more about the numbers which wasn't explored as I would have liked. This is a solid conclusion just for lacking the how comes and whys that I crave as a reader.

Why did this book feel really incomplete to me ??

Genre: Contemporary Romance

Type: Book 2 of 2 from Expire Duet

POV: First Person – Dual

Rating:

After an impromptu whirlwind European tour Tavian West and Lyra Jennings came back to their respective lives. Trying to keep the burden of their secrets behind, they tried to make it work and savor every precious moment they had together regardless of what fate might have in store for them.

I don't want to die alone, and I don't want to live lonely.

After the ending of book 1, I was dying to find out how it all going to end. I can say I was happy with how it all turned out.

No matter what, just when everything was beginning to feel nearly perfect, it's all about to change. With her. With me. With us... if there still is an us after tonight.

For half of the book I was anxious waiting for a certain thing to happen. And when it did I was anxious to see how another part unfolds. Basically the whole book mildly stressed me out - in a good way lol!

I really like both Tavian and Lyra, and was rooting for them from the beginning. I enjoyed seeing how they handled the situations thrown at them.

When everything else becomes a blurry mess, he stays in focus. And as long as I have that— as long as I have him— I don't need anything else.

Eternlty is the conclusion to this intriguing duet. The series would appeal to readers looking for sexy romance with a hint of fantasy/sci-fi.

What a wonderful and eventful ride we experience through this duet! I couldn't be happier with the ending. What a whirlwind! I couldn't put book one or two down, much to the dismay of my family, as this tale had me on the edge of my seat!

What a beautiful love this couple has for each other. Tavian and Lyra love so unabashedly and openly that you can feel their connection so strongly. My hopes for them had me holding my breath throughout! I highly recommend this duet!

“How can I stay away, when everything about her draws me in? But how can I fall in love, when she won't promise me eternity?”

WOW! What a book! What a series! What an epic conclusion! For this being only my second read from Erin Noelle, she has definitely left her mark on me with her EXPIRE Duet! I don't remember the last time when I was so damn enamored with a book! Ms. Noelle just shifted to drive and floored it with this INCREDIBLE READ! I was on pins and needles when I started this and then it was like NOTHING else mattered except for these two beautiful characters and the uphill journey that they had in front of them. ETERNITY was an absolute PAGE-TURNER of a romance read! It was exhilarating, emotional, and EPIC! I never wanted it to end, and at the same time I couldn't get to their happily ever after fast enough. I wanted to DEVOUR it, yet SAVOR it.

This duet was so incredibly unique and addicting! It was put together seamlessly and executed perfectly. It was all about love, acceptance, and making the most of the time that you have. It's about the games fate can play and the joys and rough patches it can bring. Lyra and Tavian's special love story was unforgettable! I will cherish their unique, sweet, and sexy story for years to come. These stories brought this author on my radar and I will forever be grateful for that because all I want...IS MORE! If you are looking for a breathtaking and unique romance that will keep you on the edge of your seat in more ways than one, look no further than this exquisite and fascinating duet. It will definitely be one of the most entertaining duets of the year!

What a ride !!!! I've been anxiously awaiting this book since finishing the first book. Especially after that ending.

And this book picks us right where it left off and my initial reaction to what takes place is oh hell no !!! But talk about getting me engrossed immediately again.

This book fascinated me for so many reasons. It was story telling in a way that had my attention from beginning to end. And I won't get into the details but if you've read book 1 then I imagine you know what I'm talking about.

The circumstances which seem to fate these two together so interesting and compelling that you instantly feel the connection that Lyra and Tavian have.

How everything unfolds is sweet and seems destined to be. I loved their interactions with one another throughout this book. I found myself smiling so many times. Lyra finally embracing life and Tavian who melted my heart and had me seriously swooning.

However there are a few obstacles namely one that shall not be named that get in the way. And dammit if it didn't have me cursing up a storm and wanting to possibly throttle someone.

At one point my heart dropped while at the same time feeling a murderous rage build. I wasn't sure how this would end at certain points in the book as we are hit with some twists and turns and for me that made me love this even more cause I was on edge wanting to see how it all played out.

This was without a doubt a great conclusion to this duet. Gripping, endearing, suspenseful and completely engaging.

If you are looking for a unique read that will have you hooked from the first page of book 1 to the last page of this book then I definitely recommend this. I would even suggest to go in blind to both, don't read the blurbs just enjoy the ride.

Great ending to an amazing duet. Why not 5 stars - because again, like the first book, I was hoping to have some sort of scientific element explored in this book, but alas, there was none. BUT, that is ok as the overall storyline was amazing.

Eternity is the conclusion to Explore and brings you write back into the thrill of things. We were left going "HOLY SHIT" and started off at "OH SHIT" as Lyra and Tavian are back home in their respective hometowns and needing to move forward in their lives.

There is a lot that these two go through. I was on the edge of my seat a lot during this book. I enjoyed how Erin allowed things to play out and how natural everything felt. Lyra and Tavian were truly meant for one another.

Again, my only gripe is the lack of sci-fi in this book. It's hard ignore that part when it's a big part of who they are. And yet neither felt compelled enough to find out the why or how behind. And that just baffles me.

But again, I loved the overall story. Just know that going into this duet, that there is no sci-fi part in this book except for the numbers. None, nada, nilch. It is straight romance with added suspense. But a great read none-the-less.

Eternity is the conclusion to the Expire duet. It's a sweet, fun, dirty read that packs an emotional punch. I quite enjoyed it and highly recommend this duet. Lyra and Tavian's story is not to be missed especially if you love romance.

I was really disappointed with how this book left too many questions unanswered.

With the opening of Eternity, the timeline continues without interruption as Lyra Jennings and Tavian West return to their respective homes after their European journey. With each needing to reconcile their past, just in different ways, they are both ready to move forward in their relationship. For Lyra, she has a renewed outlook and Tavian makes the most of every moment. For both, numbers define their lives.

“All I know is she’s it – my One.”

Knowing time is limited, Lyra and Tavian are committed to the journey and start to live as they choose together. Each day brings them closer and to places where Lyra never dreamed about before meeting Tavian. As the numbers blur, the hope for a different meaning remains.

“Those aren’t ... That can’t be.... No one else’s did that.”

Told in dual POV, the character development for Lyra and Tavian is rich as they grow as a couple and certain realizations come to light. Despite Lyra’s fears, she progresses tremendously and in a realistic way where Tavian may be the impetus but Lyra is ultimately making her own choices. As for Tavian, he is a character of honor and completely irresistible. The chemistry between these characters is palpable and they really balance each other.

In starting this book, I wasn’t sure what direction the plot was going to take but the mystery of the numbers retains its allure until the end. The overall concept remains an intriguing one and it underscores the question of how. Heavy on romance but also with looming tension of the unknown and some conflict, this storyline is engaging and intriguing.

EternIty offers a unique storyline with memorable characters that focuses on living life to the fullest despite experiencing setbacks. I recommend!

Amber- Leave Me Alone I'm Reading says

The Expire Duet is so unique and well-written. I absolutely loved it. It’s thought-provoking, and full of adventure and feels. Lots of feels. It’s truly unlike anything I’ve ever read.

SPOILER-ISH AFTER THIS POINT.

So, the ending. Without giving it all away, I’ll just say that I didn’t LOVE the end. Honestly, I like an epically done non-traditional ending every now and then. Erin set that up beautifully and could’ve pulled it off. I felt the end was a little inconsistent with the rest of the Duet.

HOWEVER, that being said, this is still a fantastic read and I highly recommend the Expire Duet!

Shannon says

I know I’ve said this about other books before, and I know I’ll say it again, but this book was

EVERYTHING I wanted and needed for the conclusion of Tavian and Lyra's story. Honestly, it was even more than I expected.

This duet was so incredible and unique, and just plain wonderful. If you thought Tavian was awesome in EXP1RE, be prepared to be overwhelmed by his awesomeness in ETERNITY. If ever there was a perfect bbf, Tavian West from Philadelphia would be it. And Lyra- what a remarkable character she is as well. I loved her journey throughout these 2 books. The way she really came into her own over the course of this story was inspiring. And the love she and Tavian shared??? Oh if only I could find someone to share that kind of love with! So real and true, it wraps itself around you.

I am so utterly charmed by these characters and this storyline. It's emotional and engaging and completely unexpected. It's sweet and sexy and surprising. I could just go on and on about it. I honestly cannot recommend this duet enough. I've read a lot of great books this year and EXP1RE and ETERNITY are now added to my favorites!

Becky Rendon says

You may not have noticed but I am the type of reader that holds a grudge. I am judgey, whiny, and needy. I have hopes and dreams. I form attachments. I fall in love, hate, and hopeless despair often. I make new friends, revisit old ones, and mourn loss. I re-read. I audio book. I do anything I can to keep "friends" I've made from leaving me.

With that said, I was afraid to start Eternlty. Terrified of losing hope, losing Tavian and Lyra, and afraid that Erin Noelle was going to make me hate her. I was over the moon in love with these two in Exp1re. I couldn't read it fast enough. I devoured it and begged for Eternlty. But when this book popped up on my kindle...I choked. I froze and I honestly avoided it. You see, I knew when they die. I knew what was bound to happen and that needy, whiny part of me plugged it's fingers in its ears, sat on the floor, and began to sing obnoxious songs at the top of its toddler tantrum lungs. So yeah, I hid from it staring at me on my kindle.

But this morning, I could no longer fight the rest of me that was begging and hoping. I put my big girl underpants on, grabbed water and the tissues, and started my journey.

I will never tell you what happened in these pages. I don't believe in spoilers. I WILL tell you that I wavered back and forth between my emotions. I loved, laughed, and I hurt. I plotted murder, long-term goals, and hoped against all odds. I smiled, smirked, squirmed, and wished Tavian was mine in real life. (No need to tell my hubs.)

I wished for unparalleled joy. I wished for the means to do Tavian's trips. But most of all I wished for peace...peace of mind. You see, I understand the crazy stress of knowing a loved one only has days. Knowing the actual date would drive me insane. But knowing they were happy, together, or doing something they loved would give me peace of mind...

So if you are a weirdo like me, read it for that peace. If you are a non-weirdo, read it because it's the perfect way to finish this duet. Read it because you can't help but know what happens to Tavian and Lyra. Read it because this duet has a special place in your heart and on my 5 star list for 2017. Read it and know that Erin Noelle will always retain her spot on my authors to have grudges with spot...just not with this duet!
