Gwen Ayler says

It was cool to see if I could recognize what Dr. Seuss books the characters were from but other than that it was just a "meh" kind of book for me.

Christine Grant says

Dr. Seuss Story Time. Children enjoyed the colors and rhymes. A simple book with no real story.

James says

Capitalizes on it being a "Dr. Seuss book" when it really just takes a bunch of illustrations from other books and tells us what color they are.

As a side note, I am disappointed that the "Camel on the ceiling" from Dr. Seuss's ABCs is no longer on the ceiling...so its tail and the fur on its its head now stick up...

Jillian says

It just feels.....lazy. Take a bunch of illustrations by Dr. Seuss, and tell us what color they are. In rhyme. There are several recognizable characters, but they're all just tossed together with no context except for the colors used to draw them.
