Trading Places Fern Michaels

Bestselling author Fern Michaels creates breathtaking excitement with this page-turning novel of twin sisters who pull off a daring identity switch that lands them in the middle of love and danger.

Atlanta police detective Aggie Jade is still recovering from the raid that took the life of her partner and former boyfriend -- and nearly killed her and her beloved K-9. She's not ready to hit the streets again, but she's desperate to hunt down the cop killers who shattered her world. That's when she asks her identical twin sister to trade places with her....

Lizzie Jade is as flashy and fiery as Aggie is quiet and conservative -- and the high-rolling Vegas gambler loves a challenge: turning in her stiletto heels for a badge is the perfect role for Aggie's "wild card" sister. But the gutsy charade gets complicated when sexy investigative reporter Nathan Hawke senses something bold and new about "Aggie," who no longer shies away from his flirtations. As Lizzie and Nathan join forces to uncover a web of lies and corruption, Lizzie finds herself giving in to his charms. But how can she confess that she's not who he thinks she is? And how can she let herself fall in love when she and her twin might have to run for their lives?

Great Read..

I read this book originally back in 2005. I remember that I was really sick with the flu, and I loved Trading Places so much that I wrote the author and told her how amazing it was. 13 years later, in the cold light of perfect health (particularly not having a head muzzy with fever), a re-read has me cringing at my previous glowing praise. The plot, while implausible, was certainly intriguing and had potential...but the execution (and writing), ouch! I'm going to be generous and give it 2 stars though, because 13 years ago, it made a really unbearable flu, barely noticeable for a little while.

I didn't quite read it. I moaned through 200 pages as a friend had adored it and loaned it to me like it was her family jewels as she wanted to read it again, it was soooo good.

I persisted, until whimpering, I laid, well threw, it down. I couldn't suffer anymore. I'd had it. I still don't know what to tell friend.

(1) The characters speak in well structured paragraphs or entire pages, without hesitation or breath.

(2) The marine biology degrees of main character dragged out time and time again without reason

(3) Main character's "heart flutters" when romantic interest speaks to her even though she's boinked him already.

(4) Main character informs romantic interest that "Las Vegas is a desert". As if he's one brick shy of a load.

(5) "Her hot sauce was now cold". ????

(6) After full pages of dialogue exchange (without breath) between them she informs her romantic interest "we need to talk, Nathan".

(7) They "quip" at each other. Puh-leese. Stop it now.

(8) "Read my lips" Aggie/Lizzie says over and over again.

If that was all I had to read, Aggie/Lizzie, my hell would have been over much, much sooner.

Appalling drek. Avoid.

The title and cover kept me from reading this book. It just didn't seem very interesting. I finally picked it up since I didn't have any other book to read at the time and I couldn't put it down. Basically it's about dirty cops who are exposed after one of the good cops survives their hit. The good cop happens to be female who has a twin sister. The twin sister steps in to help her uncover the truth. The editor overlooked a few things and there were times when Nathan was referred to as Daniel or Zach and a few times where Lizzie was referred to as Aggie which bothered me a bit. Overall, though, it was a good read. I judged a book by it's cover and my judgement was off. I recommend this book.

Aggie and Lizzy Jade are twins. Aggie, who is quiet and reserved, works for the Atlanta PD. She is seriously injured in a stakeout that kills her partner and almost kills her K-9, Gus. Aggie feels it was a set-up and since the cops after her 6 months of rehabilitation are no closer to finding the perpetrators decides to ask her twin to change places with her and investigate the murder.

Lizzy Jade is a wealthy professional gambler living in Vegas. She is more than willing to help. Lizzy involves the local newspaper journalist in her efforts.

This is a fast-paced book with more romance than mystery. It is very hard to put aside the questions about the switch. How on earth can Lizzy learn all there is to know about policing procedures. How can Alice (a female dog) possibly replace Gus, the K-9 and someone not notice. Why would Lizzy invite a boatload of friends to visit under the circumstances? Too many questions to make up for the quick read.

Loved the corruption in this story. Was entertaining to read.

Aggie Jade is a police detective in Atlanta. When she is almost killed in a raid that goes bad and kills her boyfriend and almost kills her K-9 she is not ready to track down the killers but she thinks it might be an inside job. Her twin, Lizzie, a Las Vegas gambler agrees to trade places with her. Lizzy teams up with Nathan Hawk, an investigative reporter, while Aggie goes to the county with Alex to grow organic carrots. Lizzie keeps getting threatening phone calls and people even try killing her and Nathan while they are trying to find out who is setting Lizzie up.

How do you describe perfection?

Fern Michaels is one of only a handful of authors that, when I pick up on of her books, I can't put it down! This one is no exception. I love how she takes impossible situations and makes them work. Her Sisterhood series was the same way. She somehow has the heroines breaking the law and you are compelled to cheer them on until the end. Thank you, Ms Michaels, for another wonderfully fun read.

Anne says

Loved it. Awesome twists and was a page turner.

Susan says

Although readable there were unrealistic scenarios in the plot and errors with mixing up characters names.

Hermien says

A bit American chic-lit trashy but nevertheless enjoyable. All the good guys are stunningly good looking and rich and the baddies ugly. The dogs were good.

Christine says

The story in itself is a quick read. The synopsis on the back cover will give you the gist of the story. Sometimes, seemed a bit far fetched. Lizzie taking the place of her sister and NONE of her co-workers the wiser?

If you can get past ALL the errors. It makes me wonder who proofread this. Several name errors. in various parts of the book.

Trading Places (fern Michaels)

Aggie and Lizzie Jade are "mirror twins". They look the same but have opposite personalities. Aggie, quiet and reserved is a police officer living in Atlanta. Lizzie is an outgoing, strong willed professional gambler, Living in Las Vegas.

After a near death shooting, leaving Aggie's partner dead and K-9 shot, Aggie is seriously wounded. She decides it is time for some rest, relaxation, and grow some organic vegetables. She calls upon her sister Lizzie for help. After all they are twins, and used to pull this off all the time. They decide to trade places, and soon Lizzie becomes Aggie.

Both sisters are convinced this is an inside job, and every police officer is suspect. What they uncover leaves the sisters with little choice. Fast paced, with a bit of romance, I found trading places to be a fun read.
