A Forbidden Love

Alexandra Benedict

A Forbidden Love Alexandra Benedict
THE MOST SCANDALOUS MAN IN ENGLAND ...

Sinfully decadent Anthony Kennington, Viscount Hastings, lives for pleasure --- and he rues the day when he must wed and produce an heir. But he is not a man who runs from danger, and when he chances upon an enchanting gypsy maiden in the woods hounded by bandits, he leaps to her defense. Now, surely, there is but one place for the injured and unconscious lovely to properly recuperate: in his bed.

Sabrina is shocked when she awakens in an opulent bedchamber, nursed in every way by a dashing gentleman. She knows she must leave the haven of Anthony's home at once, even though her life is still in grave danger --- though a different kind of peril awaits her in the viscount's arms. If Sabrina surrenders to this handsome rogue, she will be an outcast. Yet does she dare ignore the future that's written on his palm --- the promise of a shared lifetime of love and ecstasy?

Pamela says

Rated 3.5

Brianna Warfield says

I loved being kept on my toes for the book

Sylvia says

Regency

Plethora says

Full marks for trying to be realistic about the 19th c. 'gypsy' and still writing a passionate romance! I loved the fact that the heroine cannot read and write (as most poor women, let alone 'gypsies', would not have been able to, for they were not given an education) and the family of the hero does not open to her. Alexandra Benedict should be given a medal for writing in the fluffy genre and rising above it. To those readers who cannot allow the challenge to play out, you should question your own readerly abilities. This is still a wonderful, sexy romance that somehow manages to show the difficulties the hero and the heroine would have met with. Their love shines even brighter because of it.

Ana says

The ending was rushed and I only enjoyed the first part of the book. Too bad as initially I really enjoyed reading it.

Melissa says

Notorious Rake Viscount Anthony Kennington comes upon a nymph bathing in a river but when she sees him she flees leaving her possessions behind. Anthony pursues in order to return her items and when he catches up with her she is attacked by men who claim she stole a locket she wears. Anthony defends her and chases them off but in the fray she is injured so naturally he takes her home and hides her in his bedroom. Gypsy Healer Sabrina Kallos doesn't know why these men are relentlessly pursuing her for her locket but now she has more pressing things to worry about like what to do when you wake up in a Viscounts bed with a head wound. She wants to go back to her families camp but the world is spinning so she must stay and

recover.

Unfortunately this is the family home with everyone in residence for Anthony's little sisters debut into society so not only is Sabrina being hidden from the family and staff, she will also need to be kept hidden from about 300 party guests. And this is only to beginning for them. Their journey takes them from the county to the gypsy camp to London and more. Also don't forget about the locket that will put all their lives in jeopardy and their forbidden love that will tear their worlds apart.

Tori says

I rolled my eyes so often while I was reading this book it gave me a headache. I was able to finish it, but I ended up skimming through nearly half of the book.

The mystery plot was okay, but I thought the rest of the story was terrible. The heroine who I think was supposed to be considered a strong person, was just TSTL, and I had a hard time suspending disbelief about pretty much the rest of the story. I see it has gotten decent reviews though so I'm obviously in the minority, but I would not recommend it to anyone else.

Laine says

it was ok, but not that good. it would have been better if both families of sabrina and anthony have at least compromised or at least be civil with each other. the plot was ok from star to middle, but the ending was not that justifiable.

Evelyn Rivera says

The author left me wanting more out of the story line. I would of wanted for both her father and his family to come to some type of recociliation with them but everything was left hanging. Sabrina, new that Anthony's father and her father knew each other, Anthony told sabrina about the story behind there wedding but did not tell his father about it. i feel there where too many holes in the story.

Sarah Mac says

Decent start & ending, but the middle was a mash of repetitive feels + uneven pace. Not awful, I guess, so far as New Breed Avon regencies are concerned... just not to my taste. I did like the families' brutal response to their romance; not many Avons explore the permanent social repercussions of such a union (not without Disney'ing the end with last-minute acceptance & rainbows), so props for that much.

2.5 stars.
