A Kiss Like This Mary Murphy

What better gift for a new baby? The creator of *I Kissed the Baby!* celebrates animal moms and babies in an irresistible novelty book.

A giraffe kiss is very tall — just turn the page and see! Elephant kisses are long, of course, while tiny mice and bubbly fish have kisses all their own. Using a clever split-page format that makes for charming surprises, author-illustrator Mary Murphy shares a series of animal kisses that are sure to have babies and toddlers gurgling, giggling, smiling, and leaning over for their kisses, too.

Cute kissing between parent and child. B

Ms. Jeane says

This is a sweet book, and my daughter, even though she's already four loves any lift the flap books. I personally like the Goodnight Book Murphy has but this one is a great Valentine's Day book.

Elizabeth Moreau Nicolai says

How can you not want to just kiss your baby during baby storytime? Bright cheerful colors, fun half pages, nice rhymes. Great baby storytime book!

Christine Turner says

The creator of I Kissed the Baby! celebrates animal moms and babies in a cute novelty book.

The concept or the story is swwet, the illustrations are adorable, and children will enjoy the flaps in this book. Sadly, this book is a huge disappointment due to one single oversight; the author missed the chance to include onomatopoeia as a part of the storyline. If she would have done so, this book would have been marvelous!

Adrienne Pettinelli says

This would be a great one for baby or toddler storytime. I especially like, "An elephant kis is long and toot-tooty." Also, this is a book where the sparkles on the cover don't irritate me and the page flaps are used in a way that isn't gimmicky. Go, Mary Murphy!

Casandria says

Such an adorable way to see moms and babies interact! Very sweet book!

Kathryn says

So cute!!! Very simple but utterly engaging little book showing how different animal parents and babies kiss. The lift-the-flap idea to show how they kiss ("Like This") is one that will surely be a winner with little ones and the illustrations are adorable and feature a fun variety of animals.

Little says

Pretty good, but not as good as I Kissed the Baby!

Roben says

A perfect Valentine's Day read for little ones.

Becky Carleton says

Toddlers love to flip the pages and watch the animals kiss. Kiddos who like Eric Carle's The Very Hungry Caterpillar will like this pager turner, too.

Heidi-Marie says

Oi cheesy. But I believe that says Baby Storytime all over it. I'm so used to getting my kids to be interactive with the book. Now I have to think how to get the parents to interact with their kids. In this, it should seem simple. Should. Do I focus more on the animal sounds and descriptions, or just have them kiss their baby? Hmm. Thinking on this.

Madison says

Simple illustrations of animals kissing with fun page turning transitions. My baby loved turning the pages and making animal noises with me.

Natasha says

This has been a favourite ever since Kai was 6 weeks old. I would lie down next to him, holding the book above both our faces and read aloud. He would stare at the pages and gurgle and generally be an adorable little munchkin. He's brought it back out of his bookshelf and it's a favourite afternoon read and reread. Best

of all - free kisses for mummy!

Ina says

My story time audience loved this one. With brightly colored illustrations and rhyming text we see all sorts of animals exchange kisses, "A giraffe kiss is gentle and tall...a mouse kiss is quick and small." There are half pages to turn to display the actual kiss which my audience loved.

Miss Sarah says

A simple and cute book about animals and their children kissing babies and up.
