Helios

Marian Tee

Helios Marian Tee

This is a full-length dark romance between a hotheaded Greek biker and the innocent girl who's hopelessly in love with him.

Past betrayals have taught Helios Andreadis, the President of the Afxisi, to be aloof and distrustful. But when the young, tomboyish, camera-wielding MJ Cartwright skids into his life, the mercurial Greek billionaire biker finds himself strangely possessive and obsessed.

Although Helios is determined not to let MJ's "secret crush" take his woman away, he isn't ready to put a name to his feelings either. To do so would make him vulnerable, and that he would never allow to happen...even if it means having to hurt MJ instead.

Note: This novel was previously released as a three-part serial (Swish, Burn, Click).

From Reader Review Helios for online ebook

C. Erani Kole says

This book, previously having been three novellas, ruined me after I read this. It brought on so much drama and emotion that half the time I was crying if not laughing at the ridiculously embarrassing moments MJ had with Helios. Their story was intense because of the dark things both love interests experienced, but the near ending of this broke my heart to pieces. I think I also hated them for a bit before their Happily Ever After finally came.

This is a recommended read for the hardcore romantics, but I warn you that it is one of Marian Tee's darkest stories. The writing is amazing at pulling you in and forgetting that you're reading a book rather than watching a mini show in your mind. The characters are humorous, the villains are beyond dastardly, and the heroine is a breath of fresh air, even in her darker moments.

Ainee Siglos says

This is definitely my most favorite book from Marian Tee!

MJ is a typical girl almost everyone can relate to- who doesn't dream of getting their dream guy right? And doing everything to get him? I know I would! Lol

Most of MT's leading heroes are described as gods-to-die-for, ethereal yet someone you can still hope to get to. Although each book was too short again for my liking, the story build-up was easy to follow and catch on.

The use of drama and comedy- which is the author's forte, is once again amazing here. You can perfectly picture the the difference and likeness of MJ and Helios and still cheer for them all the way through. You can always rely on MT's skillful play with words and timing.

Melissa Sagastume says

When I first came across this book, it was a recommendation from a book site. Helios was the first book I'd read from Marian Tee and I instantly fell in love with not only the book but her writing style. The author drew me in with her unique writing styles, she made you forget you were reading a book. The entire time I was reading this book I was on edge waiting and hoping something would happen. My emotions were all over the place while I read this book, I was either crying for the heroine, laughing at the awkward moments that all girls seem to go through or disbelief for what was occurring. Let me clarify by saying this book isn't for the faint of heart. Helios is filled with drama, raw emotions, darkness, loyalty and love. MJ is the typical girl we can all relate to. Most of us have all done embarrassing if not ridiculous things regarding a crush, MJ is no different. We all have our version of a dream guy and MJ decided to take the steps in pursuing her dream guy. She had a few embarrassing moment with Helios that made me laugh. I could visually picture the scenes as I was reading it. As the story develops, it becomes intense and dark (which is my fav). The characters have to overcome so many obstacles from villains that bring a whole new definition to word cruel to heartbreaking moments. This book shattered my heart repeatedly. When I thought these two characters were done and couldn't go through anything else, some worse would happen and my heart would shatter all over. These two went through so much to finally be together. They lost pieces of themselves and did

WHATEVER was necessary to get the other back. I know this may sound messed up but I would love to have a guy fight for me the way Helios did for MJ. Helios is absolutely swoon worthy. He's a god like, freaking gorgeous yet totally attainable guy. He remind me of a turtle caramel chocolate; he hard on the outside buy all goeey once you crack him. I'm happy these two got their Happily Ever After. There's no couple that deserved it more than these two.

Nareh says

I have to premise this review by saying I will be spoiling this book. I will hide it due to the spoilers but I will reiterate again: Don't read this review if you don't want to know what happens.

Okay, so just to give you a little insight into my reaction to this story I had to create a brand new shelf and name it never to be read again. This book has so much going on that the reader is unable to keep the storyline straight.

It begins with the heroine being in love with the "hero" and wanting to volunteer in his clubhouse (read frat house for "bikers"). She has no idea what she's going to do but the "hero" and his two best friends make an exception in her case and let her stay in the house while she plays housekeeper. The hero, of course, can't be attracted to her but doesn't want her to be attracted to anyone else. He keeps her at a distance as he believes she is in love with another biker. Then he falls for her, they get down and dirty, and he ruins it all by being a jerk. She tries to demonstrate her love by doing the one thing that absolutely terrifies her and all it gets her is a trip to the hospital.

Then, as if the emotionally trauma these two characters carry around like beloved blankets, there is the human trafficking aspect that comes into play. Our heroine is abducted by some hideously disfigured bad guy (I mean human trafficking, drugs, etc.) because her step-daddy (who she thinks is her actual father) is so angry at his deceased wife for cheating on him. She is now held captive and tortured (in so many horrific ways that I don't even want to think about them all) and the only possible way for the hero to save her is to go to an underground kink club and become a dom to the bad guy's daughter. No idea how that is supposed to work or why that is the only way to find her but okay. Then there are several scenes of him getting down and dirty with the daughter because, ya know, the heroine and all. He eventually finds her but not before she is raped.

This was not at all the story I thought it would be when I read the blurb and the excerpt.

Blzd says

Swish Burn Click

Except for the gruesome parts, everything in this book was beautiful. The author was good in bringing out all my emotions with her words. Epic love story♥?

Marie says

WTF?

Ok, I have read Marian tee before, but none of her books have ever been this intense. I liked her style. This book makes me reconsider. I should have stopped reading after swish. After that thugs get weird, like the author just threw in plot points to keep the story moving and tied it all together later. I don't understand what the hell happened. This book is not for the faint of heart, and I don't mean in a fun carnal way, this book goes beyond the bounds of normal. What the characters do to "save" each other is horrible. It was awful to even contemplate some of the things that happen in burn and click. And if those events actually occurred I highly doubt MJ would ever leave the sanctity of a mental ward. I believe in the power of true love, but this is far beyond anything I would remotely call true love.
