Zombie Ocean Box Set: Books 1-3 Michael John Grist

7 billion zombies. No hope left. Would you survive?

This box set includes the first three books in the *Zombie Ocean* series, with over 750 pages (250,000 words) of uniquely original post-apocalyptic survival adventure.

The Last

When the zombie apocalypse hits America, not a soul is left alive.

Except Amo. He's a comic book artist. He's a video game world builder. He's just a regular guy living in New York city, with only his wits, creativity and basic decency to guide him.

He's alone against 7 billion zombies.

Will he survive?

'Robinson Crusoe' meets the zombie apocalypse like you've never seen it before, bringing a mind-blowing twist to all the adventure, blood and gore.

The Lost

When the zombie apocalypse claims America, only 1 in 10 million survive.

Anna is one of them. She's a sweet 5-year-old girl who hasn't left her sickbed for a year. She likes banana milkshakes and *Alice in Wonderland*.

She's alone in a world of 7 billion zombies.

Will she survive?

'Alice in Wonderland' meets the zombie apocalypse like you've never seen it before, bringing a haunting emotional weight to all the adventure, twists and gore.

The Least

When the zombie ocean crushes humanity, ex-Olympic athlete Robert 'Cerulean' doesn't stand a chance.

His spine is broken. His mind is broken. He's a decent, kind man who has suffered far worse than he deserved.

He's stuck in a wheelchair among 7 billion zombies.

Will he survive?

'Born on the 4th of July' meets the zombie apocalypse like you've never seen it before, bringing heart-rending heroism to all the adventure, twists and gore.

Would you survive?

Measure yourself against Amo, Anna and Robert. Scroll up and get all three books now.

If you like 'I Am Legend', 'The Martian' or 'The Walking Dead' you will love the *Zombie Ocean* series.

Diverse zombie tale

I really loved the diversity in these books and the storyline was so fascinating but I just found it to be long, drawn out, and boring. There weren't many spelling or grammar errors so for those who need every single little thing detailed thoroughly in your novels, these books will be great for you. For me, I started to lose interest and skip through pages and somehow still managed to figure out what was going on. I wish much success to the author!

Three Books in a Series

Usually means a continuing story. This, however takes three individuals and tells those stories with the same background. Utterly fantastic. You come to care about each, and how their stories mesh with the underlying truth. I literally couldn't put it down. (A broken ankle and no sleep helped!) I cannot wait until I read the next one. What a Zombie Ocean is makes perfect sense in these books. I said recently I hate zombie stories. These are three more I've read since then, and I loved all three. I will actually highly recommend these for anyone who loves thrillers. Really.

Awesome story

This isn't your average zombie series. Amo was a graphic artist until a year ago when he went into a coma for two weeks and died several times. Now he has migraines and lots of other brain problems. Due to this he is told by his doctor to avoid any stimulation to give his brain time to heal.

Cerulean was a diver heading for the Olympics when his coma struck. He was about to do a high level dive, fell off the side and landed half in the pool and half on the concrete severing his spine and almost drowning. His coma lasted about as long as Amo's and he died several times but he came out of the coma a paraplegic. Lara is a barista at St. Cowleys, the coffee shop Amo visits daily and where he has been chosen as mayor of the coffee shop.

When Amo asks Lara out, they don't know what they're bringing into the world.

5 year old Anna was in a coma too, now her dad is a zombie and she is all alone. What will happen to her? Now there's 10 million zombies and very few survivors. Lara is missing and Amo is heading to LA leaving little cairns guiding the survivors to where he's heading. Is Lara alive? What about Cerulean? All these questions and more will be answered through the series. The ending of book 3 OMG!! I had to grab book 4 up right away. I have to know what's going to happen to the survivors and who are the people in the bunker in Maine? What are they doing down in the bunker and why are they not infected too?

This series rocks and when you find out what's going on you won't believe it!!! A totally different twist on the old zombie stories.

Independent reviewer for Romance Authors That Rock. 5 pulse pounding hearts.

I read these books usually as ARC from the author. I fell behind on my reviews but you can find in this blog reviews for these three books separately.

If you like zombies (and who doesn't?) you really need to read the *Zombie Ocean* series by Michael John Grist. His characters are well developed and the plot is not your typical zombie eating brains. In fact his books are more a commentary on human nature than zombie killing. I was hooked from Book 1: *The Last* and I am still hooked after Book 7: *The Lash*. The evolution of the characters as they grow is amazingly constructed. I know I have even questioned liking some of the characters as I got to know them more. I highly recommend these books and suggest you go to Mr' Grist's web page now! h

I love this series! Not your average zombie story. Each book is in another character's point of view, so you get to see different perspectives throughout the apocalypse, yet they all merge together, so you still get to see your favorite characters again. Nothing is what you expect. Great series.

Karen says

This was my first zombie experience. I'm not sure what drew me in, I just know that after the first few chapters I was hooked.

The characters you meet in the story become family, friends. You race to read the story to see what happens next. When you think you know what's going on and how the first book will end, the author shows his genius and sets you up for books 2 and 3.

By now you must continue with the entire series. This is an amazing story that keeps you up nights trying to find out what will happen. The characters have depth and are average everyday people left in the world at the end.

Where do they go from here? Will be reading book 4 to find out.

Katy says

A must read for all sci fi fans. The zombie apocalypse has happened but all is not as it seems. Spanning from the very beginning to nearly ten years later you'll be gripped throughout. There are plenty of twists to keep you guessing. Also book four *The Loss* is out. Get all four and settle in for a marathon. You want to stop until the end. I was lucky enough to receive advance review copies of all four books and can't wait for the next. Also if you like fantasy check out the *Ignifer* cycle also by Michael John Grist another excellent series.

Nicole Burns says

I was really able to get into this book. it had everything I could hope for in a book series. could hardly put it down.

Addicting

While this book needs some improvement, I'm giving it 5 stars. I could NOT put this down! I found myself sneaking off to read a chapter to find out what was going to happen next - three books in and I need more!

Steven Kenny says

i have always liked zombie series where over the course of the books you get to know each charecter a little better some of which you like some not so much in this instance most of the charecters seem to grow on you through the course of the books and the action scenes with amo seem as if they could be strait out of a rambo film he definately knows his way around a gun or 2 anyway this is the first three books which is great value wherever you get them

Susan Strauss says

In the first book ... The Last we meet Amo, a comic book writer/lover who has survived the Zombie Apocalypse. He calls himself, humorously, the LMA or Last Mayor of America. He feels that he is alone with 7 billion zombies. Will he survive??? He travels across the U.S. to California never expecting his travels to take on such an immensely chaotic ride. From killing zombies to becoming their friends - YES, FRIENDS! - and meeting other survivors who will become part of his 'family'. He is charming, witty, and ready to take on leading everyone into building a New L.A.

In the 2nd book ... The Lost we meet Anna ... a little girl 5 years old. Anna's father is lost to the zombie world. She still travels with him and thousands of zombies who are walking towards California. After her father joins the rest of the 'dead' walking into the ocean, Anna is left alone. ... with 7 billion zombies ... will she survive? Join this little girl as she crosses back and forth across the U.S ... alone. How does this little girl survive in this new world? Could you?

In the 3rd book ... The Least ... we meet Robert 'Cerulean', an ex-Olympic diver. He has huge problems even before the Apocalypse happens. A horrific accident puts 'Cerulean' into a coma and he wakes up to find he is paralyzed and thinks his life is basically over. He meets Amo online in a virtual Amazon-like store where he aimlessly walks around getting products. Hmmm. Ok. But, this is really an important part of the book so don't despair! Join Cerulean as he makes his way up the coast to New York where his travels take on an apocalyptic turn!!!! He wants to 'dive' off the Empire State Bldg. Cerulean is paralyzed, in a wheelchair, despondent, and alone with 7 billion zombies will HE survive? Could you?

These 3 stories, individually, are a fantastic read. Together, they make up the core of this series. This is NOT

your typical zombie apocalypse series/story. The reference to 'zombie ocean' will take on a meaning you will NOT have expected. When I read this twist, my mouth hung open and I was 'what?!?!?!'. After that, I was a dedicated fan! I can't wait to get into the other books!

A zombie apocalypse story with an amazing, inspired and unexpected twist! Nothing like you've ever read before! The story, the characters, are so REAL you can easily imagine you are right there in the story with them. A page-turner you won't want to put down.

DO NOT PASS THIS UP!

Nancy Schober says

for the first book:

Can a zombie book be uplifting? Positive? Non-violent? Yes! Yes! It most certainly can. After reading so many dystopian tales that are in love with describing the power and minute details of it's weapons armory it was so refreshing to finally find one that wasn't like that.

While the second two books were well written they were faaaaar too dark for my taste. the violence gore and horror more than made up for the rosy bits in the first book.

Kimberly C. Winslow says

Unique Series!

Well thought out, creative, action packed, good characters! Great for readers that enjoy apocalyptic, zombie, alien, government conspiracy, end of the world genres! Satisfying read and I binge read books 1-3 and look forward to plowing through book 4!

Talena Colley says

Great Read

This series will be like no other that you have read thus far in this genre. Grist has imagination and originality that is uncommon when writing a Zombie Apocalypse book. There is only so much a writer can do in this genre, yet Grist has gone well beyond the boundaries in this tale. I have read so many of this kind that its a rare and wondrous treat when I find myself saying aloud, "What the heck just happened?" I had many of those moments as I read each book. I'm not going to give any details of the story line because I will not ruin the opportunity for you to say the same. Grist is an author I will definitely keep my eye on in the future. My hope is that he will continue blessing us with great books for years to come.

ROB! says

book 1: Quite an easy read except for the queasy parts which I almost had to put down! The story leaves some unanswered questions, and lends itself to more books, which I hope he writes soon! I was surprised by the plot twists; it seemed so simple at first! Interesting to wonder what I would do if I found myself in the main character's situation: the last man alive in a city full of zombies!!

book 2: The Lost expands on the first Zombie Ocean book, The Last, offering us a broader perspective, and actually answering several questions brought up by the first book!

We get to understand some characters' motives, and learn more about the zombies! True to Grist's style, some of the scenes were graphic, including some that required I take a break from reading..

This book is from the point of view of Anna, who was 5 when the zombie apocalypse occurred. We follow the story through her eyes most of the time. The characters are believable and likable, although some of the minor characters don't get full exposure in this book. Perhaps they will in the third Zombie Ocean!

book 3: Grist has again built a world out of a unique idea in this series of three books: The Last, The Lost, and The Least. It's a zombie apocalypse, but with an interesting twist! Taking place in the real world, in the not so distant future, readers may identify with famous landmarks in the United States in this book. (and with famous landmarks in Japan and Europe in The Lost)

The lead characters are well-developed, and well-loveable or well-hateable, depending on one's point of view. Given that this book fleshes out some plot points alluded to in the previous two books, I found myself wincing at times when I knew what would happen to my beloved characters. I don't want them to get hurt! But the painful moments give the characters reason to change, reason to fight to make things right.

This book lends itself to more stories, as not all the threads are complete by the end; I look forward to reading the next in this series!
