Kyra Nay says

Not as strong as the previous book, but fine.

Heidi says

In this adorable follow-up to Leonardo, the Terrible Monster, Sam is the main character. His friendship with Leonardo is intact, but his fears live on. When Sam and Leonardo run into Kerry, the second most scaredy-cat kid in the world and her monster Frankenthaler, terror is the natural result. But Leonardo and Frankenthaler don't have the patience to deal with the problem and leave, requiring Sam and Kerry to face each other alone. In this rather unusual story of friendship, Willems, once again shows it's possible to face our fears and make the best of things. A winning story that many young listeners/readers can relate to, especially the fear of making friends.

Mandyhello says

Mo Willems kills the Gerald and Piggie series and could do literally anything he wants.. so he resurrects Leonardo the Terrible Monster.. his least awesome book.. also for some reason he can't draw monsters very well.. and Sam is super annoying.. and there's a lot of screaming. Like way too much. Dude.. just bring back Gerald and Piggie.. seriously..

Michelle says

It was going good until the end where I felt it made no sense saying " they had been replaced by two new friends". I thought it was going somewhere else and that sentence seemed out of the blue.

June says

Willems take on fear and friendship with Leonardo leading the way.

Have to see how it works for a class visit or Halloween.

Amy! says

It's not Leonardo, the Terrible Monster, but it's sweet enough.

Nikki Glassley says

I liked it, but I was a little disappointed. Something about it just didn't feel like it was up to Mo Willem's usual standards.

Aaron says

A nice little tale of making new friends. Honest and very Mo Willems.

Michele Knott says

Will still make a fun read aloud, but didn't quite equal up to Leonardo.

Matt says

Mo Willems has found an interesting character to appeal to his young reader. Sam is surely one of the most scaredy-cat kids in the entire world, afraid of everything you can imagine. He is sure that he's the only kid like this, until he meets Kerry. While Sam has a docile monster in Leonardo, he is completely petrified of Kerry's monster, Frankenthaler. After Leonardo and Frankenthaler sneak away for a while, Sam and Kerry realise just how alike they are. Rather than both being afraid, they invest their time in becoming friends, which seems the better option. Neo liked this new series and hopes to find more. He could not help but laugh at these two scaredy-cat kids and vows never to be as spooked as they are about simple things.

Kristine Hansen says

Sam is scared of everything - unless his monster is nearby. Then he meets something that even a friendly monster can't keep away - another scaredy-cat kid with a monster of their own.

Told in a humorous style that's just fun to read, this book about friendship and facing one's fears is highly entertaining and worth a read if your child likes books that are silly but have a positive message.

Darinda says

Sam is scared of everything, except for his monster friend Leonardo. When Sam meets Kerry and her monster friend Frankenthaler, Sam is afraid of Kerry, and Kerry is afraid of Sam.

Cute, humorous book about overcoming fear.

Considering the prequel to this book, "Leonardo the Terrible Monster," is one of my favorite books EVER, I knew I would enjoy this book. And I did. Its a short and simple story that has great illustrations and will appeal to kids of all ages. That being said, the story is not as strong as "Leonardo" but still fun. You cannot go wrong with Mo Willems and my preschooler is still asking for this book almost every day.

Amy says

Not nearly as good as the original and also harder to share as a group read aloud.

Ash says

I felt this book was pretty silly but my son seems to love it a lot. He finds it quite funny.
