## From Reader Review Texas Heir for online ebook

### Desiree says

This book was one of the best Harlequins that I have read in a long time. It is about a woman named Cari Michaels who works and is secretly in love with her boss Reed Preston. When they get in an airplane crash and have to fend for themselves the story is riveting. I couldn't put this story down. I cried. I laughed. Most of the time, I donate the books that I have read but this is one I will be keeping.
