## From Reader Review Coming Home (Home Trilogy, #3) for online ebook

### Mary says

This was a sweet, romantic LDS novel. It's okay if you're looking for a fun "escape" little book.

---

### Christina says

I didn't realize that this was a continuation of previous books until I read it. Fortunately, I accidentally read them in order!

I enjoy the characters. Brad is someone I liked in previous books, although I didn't feel that his character had a lot of depth in this one. The conflict was interesting and the book was an easy read.

---

### Jamee says

This was a good book it read it quickly too it kept my attention. Not too intense but it kept my attention. I would recommend it to someone for an easy read.

---

### Caranna says

Although this story was filled with typical elements of an LDS romance novel (preaching and lovey-dovey, feel-good moments) it had unique elements all of it's own.

Dr. Susan MacKendrick is a 30something trauma surgeon who, after making some mistakes in her young life has thrown herself into her work; hoping to atone for her sins by saving the lives of others.

Brady Williams is an OB/GYN who is a widower with 5 young daughters. Dr. Williams, and "Dr. Attitude" as she is often called behind her back by her colleagues, rarely see each other, though they work in the same hospital. Until one night when an injured teen, about to deliver a baby, is brought into the ER and both of their services are required.

This event brings them together and sends them on an unexpected path to friendship as they work together to heal past hurts and finally find forgiveness (for themselves and others.)

This was a quick read, and an intriguing story. I love clean romance with an up-lifting vibe.

Good comfort reading.

---

### Betty Ann Baer says

There are two doctors that work in the same hospital. The man loses his wife a few years back to an automobile accident. The woman gives up a child at birth when she was 16 years old. Through some

experiences together they end up getting to know each other.

---

**Malina says**

Lovely little read. I enjoyed it lots. Sweet little romance.

---

**Susan says**

Third of a series of three books but a stand alone book too. Dealing with adoption.

---

**Liesl says**

This book comes after run away home. I enjoyed this one a lot. It has things about breast cancer in it also.

---

**Macey says**

so far so good!

---

**Dorry Lou says**

I am almost finished with this book. Its been interesting. A lot about forgiveness and acceptance of one another. Jennie Hansen writes a good book.

---

**Melissa says**

It was like reading a Mormon Nicholas Sparks book. It was a good, happy read. I like her writing style. It flowed really well.

---

**Shelby says**

I listened to this book on tape, and didn't realize it was book three of a trilogy. It stood alone quite well, however, and I really enjoyed it. The characters were believable and the plot was compelling. A great read (or listen)!

---

### **Katie W says**

Brad is a widower doctor raising 5 young girls. He suddenly takes notice of the head trauma ER doctor and they form a friendship that later develops into more. Susan is dealing with a difficult upbringing and the consequence of a poor choice made way back then.

Tender story about forgiving oneself and moving on. I especially loved Ashley, one of the daughters.

---

### **Cami McHan says**

It was really good. I was annoyed a few times by writing mistakes, including multiple times when Jennie Hansen had put Doug instead of Brad. While it is the third in a series, it is good as a stand-alone title. It had a good story about forgiveness and adoption. Would read again.

---

### **Darla says**

(Genre:LDS fiction/romance) This was my valentine's day read and it was pretty good. The main characters are a widower doctor who is struggling to raise his 5 daughters and his interest in another doctor at the hospital. This doctor is struggling with a decision she made many years ago as a young woman. Evidently this is a 3rd book in a series, but it wasn't distracting (not having read the others) and the story and characters stood on their own.
