The House of Grey - Volume 3 Collin Earl

Volume 3 in The House of Grey Series

Fantasy, friendship, and fate await you in Collin Earl's The House of Grey, based on the popular audio fiction by the same name.

14-year-old Monson Grey faces the same challenges that any freshman high school kid would: difficult classes, weird teachers, food fights...girls. Except, Monson Grey is not Monson Grey. At least, when he looks at himself in the mirror, the scarred face staring back is not someone he recognizes.

Now he finds himself attending an extraordinary school, the recipient of an incredible scholarship, among ridiculously rich classmates, all with no memory of how he got there or what to expect.

All he has from his former life are the flashes of haunting images that plague his dreams and the echoing voices that he hears, but cannot see.

Luckily, Monson finds fast friendship in two of his classmates, Casey and Artorius. Little does Monson know, they too carry their own skeletons. Yet, as bizarre events start to unfold around them, Monson wonders what secrets lay buried in his mind or if he will ever be able to share his true fears with his newfound friends.

Join our three heroes as they roam the halls of the most prestigious high school in the country, finding love, mystery, and answers to their algebra homework- all while peeling away the layers of Monson's shadowy past.

Author's Note: The House of Grey was originally a serialized audio fiction. The Volume system begins the written adaptation of that story. Individual volumes do not contain the complete story. The Volumes contain 50,000 to 70,000 word chunks and are divided into ARCS. (ARC ONE, the Coren University Arc, consists of Volumes 1 through 6 and corresponds to the original podcast fiction) Each ARC will be available for a reduced price in an omnibus format. Original material for the continuation of the story starts in Volume 7

The above synopsis is a wonderful overview of the whole serialized series. In this volume we touch on the man in the mirror, looking back at Monson. We see of what happened at the Bridge accident and how relates to his haunting images. Monson starts to wonder if what's buried in his mind could be something someone doesn't want out. But what is it?

The homecoming football game is a hit! They won and Monson found himself, unexpectedly, with a catch and touchdown that wins the game. Monson doesn't play football, yet magically he played like he had for years. When leaving the stadium Monson is saved by one of his best friends, Arturios, who takes his place. Monson has lived through another 'near-death' moment, making him wonder if someone is after him. However, there is another who doesn't make it. Monson then takes on title of cursed... Monson remembers nothing of his past, let alone that dreadful day that he solely survived and left him scarred, but pieces about and videos are starting to surface, showing parts of what did happen.

This volume felt as the story was slower at the beginning as Monson is learning things with action packed happenings, making him wonder about himself. Along with making you curious too. In the end, it picks up steam and brings all you've learned together.

Monson is seriously starting to wonder what he knows of that sad day that stole his memories and so much more. Could there be something there that some one would kill him for, to keep him quiet? However, he remembers nothing. But can there be someone out there not willing to take a chance of his memory returning?

These are questions posed and make me wonder as well. Poor Monson feels he's going crazy with these thoughts and those of a mirror Monson that appears to be evil. Monson's inner self seems ready to surface and have Monson question who he was before the bridge accident.

We start to learn pieces of what happened on the bridge and in the world around what the bridge meant.

There is one thing with this volume that I want to warn you about. There are editing errors present with words and punctuation. They might be fixed now, maybe some of it is from formatting, I don't know. But in all I still loved the story told and the boys. They make me relax with their humor.

I have to say I continue to enjoy Monson, Cassius, and Arturios. They are a great crew and make me smile. I do enjoyed their good humor and jokes with each other. We've even added a few girls visiting more. Who add to the banter splendidly. We start to see the deeper connections all these kids have in the adult world as well. However, Monson still seems to be a blank, like his memory.

So many new hints dropped here. More mystery and questions. Yet as the end comes Collin feeds us a few answers. I'm looking forward to learning about Monson as things unfold in the last three books. And I'm glad

they are all out and available now.

Great book

Shannon Benjamin-Boote says

The House of Grey Volumes 1-6 by Collin Earl – Let me start by saying this series volumes 1-4 would have gotten all 4 stars from me and the last two books volumes 5-6 would have gotten 5 stars if it hadn't been for the dreadful editing job, one of the worst I have seen. It was because of that poor editing that I had to give it 3 stars for volumes 1-4 and 4 stars for volumes 5-6. Normally that would have been enough to keep me from going forward with the other books, but there is a reason I consumed Volumes 1-6 in a week's time. This was adapted from the podcast, if I am not mistaken, and I am sad that I have to go to the podcast for the series wrap-up because...yeah no volume 7, which in looking back was supposed to be out over a year ago, according to author blogs I found.

I will say that the characters made this series, you could have written them into any story and they would have been fun to read about. The comedic, witty, and delicious sarcasm was fun, but aside from that the true, simple, and heartwarming take on true friendship was shown in all its glory.

The story: We join the Monson Grey story, as the 14- year old scarred to a point of scary is on the last leg of his journey to his new school. The catch? Monson does not remember his life, how he won the scholarship that gain him entry into this extraordinary school for the rich, or the accident that took his memory and his looks. Monson makes quick friends with Casey and Artorius his accomplices in the amazingly sarcastic and funny banter that cements the three together. Sadly, just as quickly as he made friends, he also made enemies. Monson despite his visually unappealing looks soon has some of the most popular girls in school spending time with him, which adds fire to those who already hate him. Monson, sadly, has other more pressing problems than the simple teenage day-to-day, as he is haunted by horrible images and voices from what he can only believe to be the life and accident he can't remember. As the sole survivor of the accident, that not even the FBI can explain, he wonders if he was to blame for all those who died. He believes, to some degree, that he is to blame and to make the situation worse he believes he is slowly losing his mind. Monson will have to learn how to trust his friends and himself in order to get to the bottom of the mystery of "Who is Monson Grey?" and when he finally does find out will he like who he is and more importantly will it be enough to stop any one else from getting hurt.

Again, great characters and great plot, but very poor editing that took a little away from the story, especially when you had to reread something because it did not make sense. All that aside, I truly enjoyed this series and got invested in the characters maybe a little too much. I have read so much girl power type YA fiction lately this was a nice change of pace with strong male and female characters all working together. I am not much for podcasts, but after reading this I have started the podcast to see how it ends and I am enjoying that as much as I did the books. I do and have recommended this to all the teens I know as well as their parents...because every parent should share reading with their kids!
