## Tomorrow Will Be Too Late Ellen Wolf

Kate Fletcher has spent the past two years trying to forget the biggest mistake of her life. Naïve and trusting, she had bought into her boss' plea to help her fight back against her greedy and scrupulous soon to be ex husband. She had agreed to play a vital part in portraying him as a womanizer and saving Victoria from a divorce she claimed would have stripped her of everything that was rightfully hers.

Unfortunately, things aren't always what they seem. Justin McBryndon turned out to be nothing like the cold-blooded monster Victoria described. The mutual attraction between Justin and Kate was apparent from the moment they met. However it was too late for second thoughts and she had to go through with her boss's charade.

Two years later, Justin has unexpectedly come back into her life, and he has not forgotten the anguish she caused him. It's his turn to play the winning hand, getting Kate to where he wants her to be.

Yet, being with him is exactly what she craves most, and desperate and bold, she is about to make a counter offer he can't refuse. For once in her life she will do exactly what she wants and grab the tiny piece of heaven before it is wrenched away from her forever. Their relationship will be absolutely temporary and with no strings attached.

Justin wants more than a temporary flare of passion, however convenient it might be. And this time he isn't willing to let her slip away...

## From Reader Review Tomorrow Will Be Too Late for online ebook

### Tracy says

A good read. This story certainly makes you think about what you would do if you did not have long to live..... What would you do? Who would you love? Plenty of misunderstandings in this book which makes a good romance.

### Diana's says

It was free on Amazon..  
I thought it was pretty good.  
not 100% sure Justin felt so strongly for Kate  
But none the less it was a nice quick read!!

### Dee says

Silly girl!!! Didn't realise a selfish bitch right in front of her. Thankfully it brings me to another HEA

### Iluvbooks44 says

I love Ellen's book and this one doesn't disappoint.

I loved this book from start to finish.

I love the characters and the story.

### Shelley says

A nice girl does a not so nice thing. So should she pay for or be forgiven. Kate thinks she is helping out her boss/friend Vic by helping her prove her soon to be ex husband is cheating on her. Within the first few minutes of the set up Kate knows something isn't right but can't seem to come clean. Fast forward two years later and due to her sisters meeting Justin and Kate meet again. They make an arrangement to appear to be a couple, can they really get past their past or are they doomed from the start?

I didn't have any real problems with this book except that I felt Kate's character really needed to learn how to speak what is on her mind and communicate her feelings to Justin. I feel like Justin's character is upfront from the very beginning. I do believe Kate is a "good girl" which is why I have a hard time believing she would ever do anything to help out Vic. I did enjoy this book but I once Kate's "scare" is over I just felt like I expected more than what I got. It still was a good light read however.

### **MM Tan says**

It was okay, an easy read. A typical love story "Love at first sight thing". I'm not really into that kind of love story because for me "Love at sight" is so fairy tales, it's unrealistic.

The story for me is a bit fast, I feel that it should have been more.

### **Janett The Pleasure of Reading Today says**

This was an ok read. The premise of the book was good, but in my opinion the main characters lacked chemistry or perhaps it was the way the story was told.

---

### **Vivien says**

Kate was trapped in a position where she was expected to be the fall of an honest man but when she realizes her mistake there was no turning back now she has to face what she had done to man, Justin, who seem to see the forever in her but then turns bitter when he was sabotaged.

Fun to read, the exchanges and tension was all im looking for that time and i found it here, love it XD

### **Sheri says**

cute love story .... quick read best part is that it was free on Amazon

---

### **Mandy says**

This was just an ok read for me. I found the h to be a bit naive at the beginning. Who would agree to do that?? Overall, this was a quick, cute read, although a bit cheesy at times.

BTW, the city of Sydney is spelt SYDNEY (not Sidney)! (As an Australian, that was a bit annoying)

### **Saj Uvais says**

was awesome!!!! but the ending was a bit rushed.. i wouldn't have minded more details and the way he changed his mind was not in the story so was abit abrupt!!! other than that LOVE THE HERO AND THE BOOK AND WRITING STYLE ROCKED!!!!

### **Kara says**

I had the idea of the movie November when I read this, then it turned out no. Then suddenly the thought of having wrong diagnosis, gave me the idea of the fanfic I've read "Teach Me." I actually read this long time ago, I forgot the tiny details I should be posting up.

### **Jo Notary says**

186pgs, she helped her boss to prove her soon to be ex was a womanizer, as she got to know him, they were attracted to one another, and he was nothing like his soon to be ex had described. They meet again 2 yrs later, and they want something more than a short fling.

---

### **Hrtnsoul28 says**

I loved the whole Bar scene and then to see each other because of Kate's sisters wedding. The whole death scare was crazy. The only problem was it ended to soon.

---

### **Jen\_C says**

Ok. Found the h a little too naive at times & some of the dialogue to be cheesy.
