Unspoken Jen Frederick

Whore. Slut. Typhoid Mary.

I've been called all these at Central College. One drunken night, one act of irresponsible behavior, and my reputation was ruined. Guys labeled me as easy and girls shied away. To cope, I stayed away from Central social life and away from Central men, so why is it that my new biology lab partner is so irresistible to me?

He's everything I shouldn't want. A former Marine involved in illegal fighting with a quick trigger temper and an easy smile for all the women. His fists aren't the danger to me, though, it's his charm. He's sliding his way into my heart and I'm afraid that he's going to be the one to break me.

Impulsive. Unthinking. Hot tempered.

I allow instinct to rule my behavior. If it feels good, do it, has been my motto because if I spend too much time thinking, I'll begin to remember exactly where I came from. At Central College, I've got fighting and I've got women and I thought I was satisfied until I met her.

She's everything I didn't realize I wanted and the more time I spend with her, the more I want her. But she's been hurt too much in the past and I don't want to be the one to break her. I know I should walk away, but I just can't.

Welp, now that I've read the second Woodlands series book, I think I can officially say that I am a fan of both this series and author Jen Frederick. My favorite type of series is the companions, with each story focusing on a different member of a group of friends or family. In this series, we get the guys of the Woodlands. The first book, Undeclared, was Noah Jackson's book. Unspoken is his best friend Bo Randolph's story.

If you've read Undeclared, then you've met Bo Randolph. And if you've met Bo Randolph, then you know why I wanted to read this as soon as possible. Bo is a blond-haired, sexy, charming former Marine. He's a good time guy who's always up for a fight or a f--- (you know what I'm saying). But the thing is, Bo is a good guy. A good friend. Best of all, he's more than good to the girl he cares about.

Not only does Unspoken have a worthy guy, but also a heroine who does my heart good. AnnMarie, AM, is a girl that I, like way too many women I'm afraid, could identify with. She's a girl who has been labeled, mistreated, harassed for one event during her first semester in college. She's become withdrawn from

university society in an effort to protect herself, the campus ghost. Some might say AM's reaction to the bullying is weak, but I say she's not. That however she handles her feelings and fears is okay and part of a process. Unspoken is not only a love story, or Bo's story, but also AM's journey past the people who've persecuted her, and reclaiming her life and voice.

I absolutely loved AM and Bo together. I like how they started out as friends and had a natural chemistry that was both fun, antagonistic, teasing, and suggestive. I love that their relationship didn't revolve around the physical, though they definitely did have that going for them. It was a layered and beautiful relationship that did revolve around trust and friendship and becoming stronger together. A team.

Undeclared deals with several heavy issues: bullying, society's unbalanced treatment between the genders in regards to sexuality, physical and emotional abuse and how it affects a victim's decisions throughout their lives. It also deals with trust and the safety you can find in someone that loves you in your entirety.

Author Jen Frederick has really hit on something special with the Woodlands series. Her stories are fun, funny, steamy, and thoughtful. Each story delivers enough of the other Woodlands guys to have you itching for more. And now, Frederick and this series have a permanent spot on my "Highly-Anticipated" list.

Beautiful Disaster fans will ABSOLUTELY love this!

Wow! Just....WOW!!!! This totally caught me by surprise. *Unspoken* is **knock your socks off AMAZING** ! I FREAKING loved the hell out of this book! Every single minute from start to finish was simply **fantastic**. I haven't enjoyed a book this much in quite a while.

Unspoken is a standout for me. The story is refreshingly new and doesn't feel like it's been done before. There's nothing more disappointing than picking up a book just to feel like I've read it before – just with a different title and character names.

belongs to Bo Randolph!!!!

Bo and AM are both strong characters you can't help but fall in love with. Their damaged pasts have helped paint the same reputation around campus but for very different reasons. Bo is the resident bad boy man-whore by choice. He sleeps around, stays unattached, has fun doing it, and makes no qualms about it. AM (Ann Marie) is branded the campus slut all because of vicious rumors and hearsay. She becomes the campus ghost and only steps foot on it when absolutely necessary. By chance (or not) they end up as partners in Biology. For the girl that has sworn off guys and the guy that has no interest in a relationship longer than one night, what they learn in Biology class becomes a very important lesson in life and love.

“Here was the secret to Bo’s success. The outward package drew you in and the layered complexities that seemed at odds with his flight persona kept you engaged. I wanted to pull back those layers to find out

what made him tick.” – AM

Let’s talk about Bo for a minute (or two)..... OMG is Bo a charmer or what?!?!?!? He will have you walking into walls, forgetting your name, and putting your lipstick on your eyes. I hate the term “swoonworthy” because it’s so overused lately, but honestly there is no better term that adequately describes what Bo Randolph is – Marine, underground fighter, and all around hottie. He seems to not have a care in the world, but that’s just what he wants the world to see. As much as she’d like to be, AM isn’t immune to his charms. Getting hurt by Bo could leave a permanent mark, but she also knows there’s much much more to him.

“I don’t think someone gets a crush on Bo Randolph and comes away unscathed.” – AM

And AM.... she’s a tough nut to crack, but Bo is determined to break through her shell. Something about AM is different, and she captures Bo’s attention in a different way than he’s used to. I loved AM's character. She’s not weak or wishy-washy. She’s strong, smart, and totally lovable.

“...I’ve had my share of hookups. All the girls I’ve been with have wanted the same thing that I was looking for – a temporary hit off the endorphin bong. I’m pretty sure that’s not going to be enough for me anymore. Not since I’ve met you.” – Bo

Simply..... I LOVED THIS BOOK. I honestly don’t think I would change a single thing. I laughed, cried, and got weak in the knees. The chemistry between Bo and AM is wonderful, and the secondary characters really add to the story. This is definitely in my Top 10 for 2013. *Unspoken* is a book I will definitely reread at some point.

A DEFINITE MUST READ!!!

Too new adult for my tastes, especially since the H had a tour in Afghanistan with the Marines and was an older college student. The only thing that kept me reading was waiting for the revenge. Meh originality and meh sex scenes.

Not sure about this one - it seemed a little muddled. He's a former marine with daddy issues, a violent temperament and mad skills in bare knuckle fighting, business and construction as well as being a manwhore. I couldn't keep up with him and all he is.

Meanwhile she's in a self imposed exile because she's been mauled through the rumour mill.

I enjoyed the way this built up and the banter was great, but it was a bit dragged out for me. And I didn't

enjoy the fighting at all, did nothing for me. So yeah, a complete story but I didn't like it as much as the first book.

EX-MILITARY ALERT!!!!!!!

BO RANDOLPH

The highlight of those days was staring at the interplay of muscles and skins and tendons of Bo wrote, stretched, or reached behind him to pull his backpack over his shoulder. he looked like the live model for a Rodin sculpture"

ANNMARIE WEST

AM became a victim of a miserable smear campaign. When AM becomes Bo lab partner..... and their journey begins. Both of them have to fight against their past and move forward together. Both of them are dealing with life issues, and both are strong but also have a vulnerability. Bo makes AM strong to face what she has been running from and vice versa.

" I'm a bad bet, Sunshine, but if you're willing to give me a whirl around the ring, I'm yours. Because you've got me so twisted up inside that I barely know if up is down. I'm so inside my head that I'm coming out of my asshole. Have mercy on me"

The romance builds gradually between them, it develops slowly and completely, and in love with them both. Bo is such a sweetheart and hero.

I enjoyed every page of this book!

"God, Bo, right now? Do we have to talk biology right now?"

"Why AM, is there something you want?"

"Yes, I want you. Inside me. Now"

"Stick that tongue in my mouth, why don't you?"

Pick it up!!!! No regrets! I am gonna dig back Noah, Undeclared next!

4.5 Bo-Lickin Stars

To be honest I was soo freaking excited to read this book! I fell in love with Noah in Jen Frederick's debut novel Undeclared but he didn't have anything on Bo! Bo is seriously Swoonworthy! He has it all

Charm

He's a fighter

He's sweet

He's dirty minded and mouthed

He's hott

He's broken

This story was definitely different and I LOVED THAT. Now a days if you read 1 you read em all. Don't get me wrong, it is a New Adult Romance so you still have some similarities but Jen Frederick really knows how to make her stories run so smooth you don't want to put the BOOK DOWN.

If you don't believe me just read the book's description!!!

I absolutely love this series.

I wasn't a fan of Bo in the last book but reading this book he is now my favorite (don't tell the others)

AM was awesome. It's always nice when the girl isn't a pain in the ass and watching her slowly develop a backbone through this story was great. But then I think if I had Bo at my back I would feel pretty fucking good too.

AM's friends were great and I can't wait for the next book in the series. I am really hoping it will be Finn's story but then I am thinking maybe we are going to meet Gray in more depth but then even if she decides to write the phone book I will have it on my must read list and will sell it to everyone who will listen that they must read it.

I have been eyeballing this flashing cursor for days trying to come up with adequate words for this review. Frankly, this book was awesome, but before I got into that, let me get all the technical babble out of the way. *Unspoken* is the second book in the *Woodlands* Series by Jen Frederick. It is told from dual third person point-of-views by the main two characters. It does have an HEA and it can be read as a standalone.

I want to start off by saying that I actually couldn't get into this book at first. That alone basically discouraged me because I sat on myself and waited for a good three months before I'd even let myself start reading this book. Trust me, it wasn't the book, it was me. Once I was able to settle down and fully focus on *Unspoken*, I flat out consumed it. It touches on so many topics that you would face in college, or even high school for that matter. Not to mention everything else that goes with it. Throw in a hero that I was already crushing on, and an amazing heroine who stole my heart and I was completely rooting for by the end and you have one heck of a book.

Bo, our hero in *Unspoken*, is a former Marine that followed his best friend to college after leaving the military. He feels like he's just floating with no purpose sometimes. His is seriously hot tempered, and has anger issues, which actually scares him. So he fights, and by this I mean MMA, just not professionally. Bo enters a lot of underground fights, because that is the only way he knows to get his "aggression" out. He's also afraid of hurting people he cares about and it's a big reason he doesn't get close to people. Enter A.M. or AnnMarie into his life.

A.M. has been at the same college for awhile, in fact, she used to stare at the back of Bo's head the year before. Problem is, she doesn't date, she doesn't talk to guys and she definitely doesn't attend any events on campus. Rumors have been flying about her for awhile now, ones she can't fight, or so she thinks. So she withdraws into herself and just attends classes but not much else. She won't even give Bo the time of day, but considering they get thrown together as lab partners for a class, she can't exactly ignore them. I loved AnnMarie, she's deals with and has dealt with so much BS due to what people perceive and because people think it's okay to spread rumors. Misery loves company, I suppose. She's got a backbone though, and is spunky. It's made her probably one of my favorite heroines this year.

These two have a ton of chemistry. Chemistry that A.M. pretty much tries to flip a finger at, but she can't seem to help herself with it comes to Bo. She tries to remain detached but he worms his way in. Problem is, he's got issues of his own. So while these two explode, they also have to come into themselves, sort their problems and take care of the outside issues that can keep them apart.

I would recommend this book probably until I'm blue in the face. I've rated it five stars, even though at first I couldn't get into it, as I said, that was me though. If you love new adult, college romances, and stories about coming of age more-or-less and into yourself, this is a great one for you.

RUMOR. HAS. IT.

One small college campus. One freshman girls year. One night. One bad, drunken, decision. One life ruined.

One man. Too many demons. Too many scars. Too many fights. Too many women. Too many bad memories. Many rumors. Yet, his reputation is not ruined.

These are the lives of AnnMarie "AM" West and Beauregard "Bo" Randolph.

AM is in to her second year of college wearing a scarlet letter and forced to self imposed-exile. Bo is in to his junior year, gliding through school, with a big reputation chasing after him that seems to call to both the women and men in different ways. These two will end up in the same class for the second time and Bo will finally get his chance to learn what AM is all about. And this time he's not about to let her get away from him.

When Bo first meets AM, his intent with her is not pure. As he learns more about her his thoughts and feelings toward her change. He becomes a protector and friend. He even starts to feel things for her he has never allowed himself to feel for anyone else.

AM is leery of Bo. He's a hunk of a man. She wants him. But she's scared and finds herself holding back. She becomes his lab partner and these two strike up an interesting friendship that has sexual tension so thick you can slice it with a knife.

AnnMarie and Bo don't exactly have the best role models for parents either. Bo and AnnMarie have ways of coping with the strain of a relationship, or non-relationship, they have with their own set of parents. Bo will do whatever it takes to NOT be like his father while AnnMarie seems to keep her head down and keep to herself.

Together these two must battle the rumor mill, figure out what they mean to each other, get passed their demons weighing them down and take a giant leap of faith.

What I liked about this book

1. The Humor
2. Finn
3. Advice from Finn and Lana
4. Bo and AM's cast of friends
5. I had a smile on my face a lot during this book
6. AM takes a stand
7. Bo. He's funny. Hot. A fighter. A protector. A good friend. A good boyfriend. Smart.
8. Parking lot serenade scene.
9. Lab experiments
10. Ryan and Ellie
11. Ryan's hot moment at The Garden
12. Steam factor

13. Sometimes I felt a "Beautiful Disaster" vibe with this book. (Which is a good thing).

15. The Lacrosse beat down

17. AnnMarie. I really enjoyed this heroine.

18. Bo's nickname of Sunshine for AnnMarie.

19. No cliffhanger

20. I LOVED that this was told in Dual POV.

21. I love the partial picture of the guy on the book cover.

I really loved Bo and the rawness of his character. I can't say that he's better than Noah, as I loved things about Noah that were not in Bo. Yet, I did love Bo's story a bit more than Noah's. Just as I seemed to enjoy AM's character more so than I did Grace's character. I look forward to knowing more about Finn. I also hope we see something about Gray as well.

I truly look forward to book 3: **Unmarked**, due out Jan 20, 2014.

-- *A Romantic Book Affairs Review*

First of all, I would like to say thank you to Jen Frederick. Little did she know she was saving me from that dreaded book funk we all get into now and again. I was in the middle of browsing Amazon and my kindle for my next great read when *Unspoken* was brought to my attention and soon became the quick fix I needed for my romance junkie heart.

AnnMarie West, or AM, has been labeled a slut, a whore, and ruthlessly nicknamed Typhoid Mary; all because she lost her virginity one drunken night to a Lacrosse player and refused another player's advances at the beginning of her freshmen year. Being ostracized and having vicious rumors spread about her has been hell. She's had no choice but to exile herself while she's in school. She never goes to anywhere on campus besides class or does anything campus related. And she certainly does not date anyone that goes to Central College. Which is why she feels all kinds of confusion and aggravation when AM is faced with another challenge... her biology partner Bo. With his adorable dimples, sexy physique, and witty remarks, he charms his way into her life and slowly starts to break down the invisible force field she's put up to protect herself. She was so screwed. AM soon learns that resisting Bo is impossible. His overpowering, irresistible sexy and charismatic appeal is a force to reckon with.

***"I don't think someone gets a crush on Bo Randolph and comes away unscathed."* – AM**

Two smoldering hot words: Bo Randolph. You must meet him. Bo is a former Marine who is impulsive, bad-tempered, unpredictable, and fights illegally in underground fighting matches. He has a bad reputation for being a man-whore. But underneath the layers that make up Bo, he's protective, smart, kind, and vulnerable. Growing up, his father abused his mother and mentally messed with Bo's head to the point that he did some

regrettable things to get his father's approval. Bo's way to cope with the anger, guilt, and shame is to beat the crap out of his opponent in underground fighting matches. Bo's attraction to AM started the year before when they had another class together. But she always shied away from him, and pretty much anyone, but her best girlfriend. Being her lab partner gives him the opportunity to get closer to her; to get to know the mysterious, quiet, beautiful girl. Once he gets to know her smart, witty, and independent side, he realizes she is everything he didn't even know he wanted. This is the one and only girl capable of bringing him to his knees with want.

Bo and AM really complimented each other. They are charming together. They understand each other. They made each other better. They accept each other with all their many flaws and quirks. AM may be the girl with the bad reputation, but Bo didn't see her that way. Bo really saw AM for who she is beyond the vicious rumors. Bo is the one who has the bad reputation and should be talked about. But women are the ones usually stamped a slut and the men are high fived for getting laid. It's cruel and unfair and unfortunately happens often. So, I was definitely cheering when AM finally took back her dignity and confidence in one courageous move. Bo has his own issues to work through and, with AM, he's able to find the strength to confront the past that hurt him so badly. With AM's love and understanding, he's able to be a better man.

"...I've had my share of hookups. All the girls I've been with have wanted the same thing that I was looking for – a temporary hit off the endorphin bong. I'm pretty sure that's not going to be enough for me anymore. Not since I've met you." – Bo

You know me well, if you know how much I love a slow burning romance that builds on friendship. The chemistry between them is full of heart and passion and meltingly hot. Bo and AM become friends first and then lovers. Neither was ready for each other, so they took their time. The passion and desire that built up between them explodes on the pages when they do finally get their freak on... again and again and again. This story is definitely not lacking in the sexy times department.

"When his cock bobbed up for attention, I looked up at Bo. "Let's hope you know how to use that monster."- AM

This book has some deep emotional moments, but it's also wonderfully funny. Between the mayonnaise experiment and Bo's most embarrassing story, I was laughing non-stop. The playful sparring between AM and Bo is laced with sharp, sarcastic humor and dipped in sexual tension – fantastic combination.

Unspoken has just the right balance of romance, humor, emotion, drama, and awesome main and secondary characters. I absolutely adored Jen Frederick's hip, funny, poignant, and charming writing style. If you liked *Easy* by Tammara Webber, you will most likely enjoy this book. It has a rich college setting with a strong and sweet heroine and tattooed, bad boy hero that is easy to love.

4 Funny and Sweet Stars

AnnMarie, or AM to her friends and Typhoid Mary to the rest of her college classmates, has had a rough couple of years. After losing her virginity to a Lacrosse player at the beginning of her freshmen year of college and then turning down another "offer" to hook up with another player, the team takes it upon themselves to make AM's life a living hell. Almost overnight AM goes from a normal college student to the girl who'll pretty much do anything with anyone. She's whispered about in class, openly called a slut and an assumed carrier of everything VD related. Is it any wonder she's started to fold into herself and stick close to her friends and her life off campus?

Bo Randolph is an ex-marine, underground fighter and hot as hell. He has his own demons to deal with but for the most part he's a down to earth, loving life kind of guy who doesn't do relationships. **I know what you're thinking, an NA manwhore not open to the possibility of a serious girlfriend. Color me surprised!** Bo's lacking the brooding moodiness of the other hot boys so often found in this genre and this is a good thing in this case. He's dealing with his own set of issues; he just isn't advertising them by being a jack ass. For a good portion of the book, Bo's wit and sarcasm balanced out an equally sarcastic but weary AM. This started off as a lab partners to friends to lovers story and I enjoyed the pace of the relationship and the fact the story was told from alternating POVs. Either of these two experiencing an insta-love would've been completely unbelievable.

I'm a bad bet, Sunshine, but if you're willing to give me a whirl around the ring, I'm yours. Because you've got me so twisted up inside that I barely know if up is down. I'm so inside my head that I'm coming out of my asshole. Have mercy on me."

"I want to live down here," Bo said, stroking me lightly. "When you're running your own business, I'm going to come into your office every noon and eat you."

The only complaint I have about the book is that it lagged a little after the halfway mark. A little more drama after AM and Bo got together would've helped. Overall I enjoyed *Unspoken* and will most definitely be continuing on with this series.

I really enjoyed this book, and do you want to know why? Because of Bo, I freaking loved Bo. I've decided to claim him for myself. Its actually funny because I started out not sure I'd even like him and by the end of the book I was completely in love with him. Let me give you some reasons to love Bo too,

"She really it for you?" "You know how it's all about God and country over there in Afghaniston." Gray nodded. "Well, when you find someone like AM, what you felt about the cause, about being a patriot, is like eating eggs from the MRE pack. Dry, tasteless, meaningless. It's nothing. I'd kill for her and," I paused, "I'll learn to walk away."

"Durning Basic, sometimes you're so tired you can't even get up to piss. You're pushed beyond whatever limits you had set for yourself. You realize that your body can do things that you never imagined. But there are times when you don't think you can go on, and that's when your brother is there to lift you up and push you forward. He yells encouragement when the drill sergeant's shouting

obscenities. You know that if you're ever caught by the enemy, your brothers will never stop looking for you. If you're hurt, they'll help heal you. The Corps is a unit of many, not one, but dozens, thousands even who have your back. You can smite one Marine, but a thousand will rise up to avenge him."

Ok admit it, you love him too now. You can't have him though! Bo just turned out to be such a beautiful person, on the inside. He is someone I would want at my back, supporting me.

AM had her moments for me. I would really like her and then she'd annoy me. I felt like the whole time she was pushing Bo away because she'd heard about all the man-whoring he had done, made her sound like a hypocrite. She was believing all the rumors about him, when she herself had false rumors spread about her. For the most part I liked her though. I thought she was pretty strong, and I loved her speech near the end of the book. I don't think I could have dealt with rumors like that as well as she did.

I would also like to say that I really love to cover for this one! Its awesome, I love the purple wording and the cover models. **Love it!**

I can't wait for the next Woodlands book, I would highly recommend this series to anyone looking for some hot Marines to read about ;)

I'm a sucker for college romances. But this story dragged from time to time and that kind of killed the buzz.
