## **The 9/11 Dogs: The Heroes Who Searched for Survivors at Ground Zero** Isabel George

Meet the dogs who searched for life amongst the ruins of the Twin Towers.

Many heroes were made on 9/11 and in the weeks that followed. Not all of them showed human courage. Some of them could only show that they were truly man's best friend. German Shepherds, Labradors and Spaniels accounted for the majority of the four-legged heroes.

Over three hundred search and rescue dogs worked the pile at Ground Zero and the crash site at the Pentagon. For hours they searched, fighting off exhaustion with sheer determination and they continued every day long after the hope of finding survivors had passed.

There were faithful Guide dogs who helped their sightless owners out of the Twin Towers and led them to safety showed unstinting devotion in the face of adversity. And later, therapy dogs arrived to bring comfort to the bereaved and confused. At every stage of the operation, dogs were there helping humankind in various roles. And invaluable, they provided comfort and reassurance and lifted spirits by their pure presence.

Sadly many of the dogs are no longer with us but their achievements will never be forgotten. Isabel George was fortunate that the people close to the dogs were pleased to be asked to share their stories. This book is to honour the dogs and their people.

## **From Reader Review The 9/11 Dogs: The Heroes Who Searched for Survivors at Ground Zero for online ebook**

### **Steve Parcell says**

Short yet fascinating account about the canine heroes of 9/11.

The two guide dogs who got their owners down from the 71st floor and who also acted as a comfort to people injured or distraught all the way down the stairwell was amazing. The dogs also led their owners to safety when the dogs themselves couldn't see through the dust as the towers collapsed which was truly awe inspiring.

The were also rescue dogs who unfortunately couldn't find people alive but found bodies of comrades for the firemen. They also provided a lick or a cuddle for all when it was required.

They truly are man's best friend.

---

### **Inferno Nightfire says**

A really good short read. The story of the guide dogs was heart warming .

---

### **Nicola richards says**

#### **Emotional**

Amazing story about the dogs and their handlers.I cried all the way through it.These heroes deserved their medals.It's a must read for all.

---

### **Heather says**

The dogs get six stars out of five. I wanted a little bit more from the book though. It was okay, certainly not terrible, and the dogs featured are truly heroic. I just wanted to know a little more in how they operated.

But alas. It's a Harper True book, not an in-depth investigative piece.

---

### **Sandy says**

#### **Needed to be longer**

This was s short book about the rescue dogs that worked the nine eleven ground zero disaster. Some new information but not much. Better book for an older child.

---

**Janie R. says**

Amazing story, love all the dogs of 911, they are truly an inspiration for me!
