Jonathan Derr says

How could you give this book anything LESS than 5 stars? Have you ever read a book so jammed full with stories, characters, plot twists etc.? I think of this book as one of my desert island books. If I had to pick only 5 books to read for the rest of my life stuck on a desert island, this would definitely be one of them. It is absolutely packed with interesting things. It can get tedious, don't get me wrong, the slow parts are definitely a little painful to trudge though. But if you can get through them, you will be very well rewarded. Anyway, now I know why they call it the 'good book'. It's worth a read!

john says

BEST book in the history of man

Brad says

Finally finished it! It only took 6 years. :)

Jim says

Once again, I read various editions of the Book in search of meaning for me...It may not be somebody's way but it's mine and I rarely invoke the creator but I believe my faith is guiding me in this..

Paul says

NIV Life Application Study Bible (Anglicised) – A Beautiful Bible

The NIV Life Application Study Bible is one of the most beautiful, easy to use Bibles that is perfect for personal study or if it were to be used in group resource. The NIV Life Application as well as being in my opinion the best study Bible available, and for me one of the easiest to read as we are not forced to read passages squeezed in to columns on a page. For those that tend to complain about the use of American English this has been Anglicised, so no z where it should be s!

As someone who studied Theology and used to using a Bible but still gets brain freeze sometimes I find that this study Bible is a welcome help. As there are a number of study features that are included throughout the Bible, which helps to make the Scriptures more available for all rather keeping many of the books a mystery except for scholars.

Why a Life Application Bible? If you are attempting to read the Bible by yourself and have no access to a

Priest or Pastor to advise you on how to take the Word and apply it your life there are close to 10,000 study tools to help and advice. The great thing about this Bible it has been worked on by scholars of various denominations so there is 'political' slant that way. This is a Bible where the Scriptures are easy to read, explained in plain English and how to apply them to your life.

There is so much to praise here with the excellent introductions to each book, with advice notes on them. There are some wonderful charts and maps, excellent cross-referencing, plus an extensive index. The integrity of this translation is intact as the NIV is regarded as the best combination of accuracy and more importantly readability.

If you are an old hand at reading the Bible, or coming to the Bible for the first time to read, study and learn I cannot recommend NIV Life Application Study Bible (Anglicised) highly enough. I have the hard back copy and find it excellent, but there are leather and other cover options available. Buy this Bible and you will have access to the Scriptures in a modern way without the scholars waffle!

Kelley says

I read the entire thing... including footnotes. Took me almost an entire year.

I'm not going to comment on the book itself. It's "The Book" and to most people those capital letters are justified, to the majority of the world they are not.

I also will not expound on my religious beliefs since they are immaterial to this commentary.

I will only comment on this particular version of this book. I was gifted this book by a very religious friend about 15 years ago. It has sat on my shelf since then. But I am an avid reader and this was a book I had never read. So after previously abandoning a reading attempt I started anew with a new approach.

My cover-to-cover reading didn't cut it. This time I did a "read in a year" the chronological method. This was somewhat cover-to-cover but you did jump between books and sections of books which was interesting to see how different books covered the same events. (Found this reading schedule by google search).

The commentary in this book is really why one would buy this version... to "study" the bible. I realize that putting together a publication like this must be an extremely large effort involving many individuals. Which shows in the footnotes... some books had excellent, helpful footnotes that were more matter of fact and interpretive. Other books had footnotes that were less interpretive but instead more "preachy" with a feeling of instilling guilt as a motivator. Clearly I favored one technique over the other... so much so that during the "preachy" footnote books I almost dreaded reading them. I will note here that I read this with more of an educational view instead of a religious view, so perhaps those reading with a different motivation will find the opposite and wish the informative footnotes were more guilt ridden...

Overall I did think this was well put together resulting in the version of this book that the multitudes of people working on it initially intended.

Jackie says

The chronological order adds a fresh through-line to the biblical narrative that is different than the canonical order. The explanations are clear, simple and easy to understand (though sometimes simply redundant in explaining verbatim what you are about to read, which loses half a star for me).

The explanation of the historical accounts between the old and new testaments really help to increase one's understanding of the AD/BC split and what exactly was happening in society during the early days. It also

gave me a deeper appreciation for the truth that binds the stories.

I was specifically appreciative of the intricacy of the psalms and David's adventures, the categorization of Levitical laws and the integration of the epistles into the Acts account.

[image error]

This is a book that will keep you reading and keep your mind on the scriptures daily, even if it takes you 14 months to finish your 'bible in a year' you will gain so much. I would recommend it to anyone.

Ron says

I was given this version for Christmas 2009 by my Mother-in-Law, Barbara Parson, two months before she died. (I am departing from my normal practice of only listing books as "read" which I've read all the way through, because despite reading from this book regularly, I use another volume for my regular reading and study.)

The large text was a concession to my age, and my need for a Bible I could read comfortably in public.

A very good read.

Joellen says

I learned that God loves us very much that he sent Jesus as our Savior and that he wants all (everybody) to go to heaven for eternity.

God has been taking care of his people ever since they have been on this earth. he protects us and gets us through problems through prayer.

It makes God very sad to see when people don't worship him and don't obey his commandments including love one another. It makes God very sad when he sees how humans destroy their lives and the lives of others with drug wars and other wars of greed and injustice to fellow mankind.

I learned that God is very patient with all the wickedness of people and still waiting for people to come to him as their one and only God.

Dana says

The bible is truly the greatest story ever told. It was inspired by God- 2 Timothy 3:16 and it gives us personal instruction on Godly living, righteousness, even correction. Every word of God is flawless- Proverbs 30:5

God is our refuge our shield, our strong tower in times of trouble. We are not to be anxious but in everything glorifying God the Father through the work of Jesus Christ on the cross. HE did what we could not do. Made himself to be sin, to be victorious over sin, and death; whereby we can experience eternal freedom with Him. Reign with him, and it is so awesome that we are children of God and he loved us so much that he gave his only begotten Son, that we could be victorious as well!

Most amazing book I've ever read. For me this year it helped when I stopped trying to focus on the me aspects and focus on His character. Draw close to God and he will draw close to you!- James 4:8
Faith comes by hearing and hearing by the word of God!- Romans 10:17

Mikey says

My first study bible, when I was new in my faith this study bible really assisted me in learning more about applying my faith to everyday life.

Nadine A. says

I own several bibles and bible study books but every time I decided to read the entire bible I would eventually just go back to daily devotionals or re-read my favorite books. That is until I found this bible. The explanatory notes, short history lessons and character profiles are just a few things included in this bible that not only helps with understanding how the scriptures can be applied to our world today but It helped me stay connected through the parts I found difficult or boring and I was able to systematically complete the entire book, after trying many times in the past 20 years. The only reason I give it four stars is because some of the explanations are obviously contradictory to the text. Not enough to lessen its total value but enough to note.

Rf8283 says

God's Word is the best & single most important book. Out of all the books in the world, this is the one I hope that everyone will take time to read. If we are as diligent in reading this as we are in all the other books of the world, our understanding, personal peace, & spiritual life will change not to mention our relationship with Jesus Christ. My prayer is that everyone who reads it will allow Him to touch them as only He can & change your life. Permanently.

John 3:16 & 17 For God so loved the world that He gave His only begotten Son that whosoever believes in Him shall not perish but have everlasting life. For He (Jesus) came into the world not to condemn the world, but so the world through Him might be saved.

John 20:31 For these are written that you will believe that Jesus is the Christ, the Son of God, & that by believing in Him you will have eternal Life!

Dueteronomy 30:19 For this day, I call the Heavens & earth as witnesses against you that I have set before you life & death, blessings & curses. Now choose Life so that you & your children may live!

Dea says

It is unlikely that I will ever truly "read" this, but will instead refer to it from time to time and read passages both greater and lesser in size as the mood strikes me. I do enjoy having a bible for reference, and this was a gift to me when I graduated high school. I am intrigued by the difference in format from the King James bible (and mildly amused that the Catholic church was not listed in the Preface among the denominations of those distinguished scholars who worked on this translation).

Any suggestions with where I should begin reading first? I have heard that Genesis is not always the best

beginning. :)

Marianne says

My rating of 4 stars is, of course, for the NIV Life Application notes which appear at the bottom of each page, not for the text of the Bible itself which will always get the full 5! :) I'm going to assume everyone knew that but wanted to clarify juuuust in case.

The notes range from being academic or historic commentary to applications for contemporary life, at times stretching the point a little to make it fit into a modern application. There were several places where I disagreed, even disagreed strongly, with the life application notes but for the most part they were insightful and useful. On those where I did not agree, I viewed them as an example of another person's opinion and something I could use to hone my own views.
