A PRICE TO PAY: A Dark Bad Boy Romance Zoey Parker

We'll both pay the price for crossing the line.

There are some things in this world a man should never do.
But as far as I'm concerned, the rules can go f*ck themselves.
I'm Cain Vale.
I do whatever the hell I want.

Of course, that's part of the reason I ended up in this situation:
Bleeding from a cracked skull, as a lifetime of naked sluts and roaring bikes flashes before my eyes.
A life well lived, but I'm not ready for it to be over just yet.

Not when there's revenge to be dealt.

Once I'm back on my feet, the men who betrayed me will pay dearly for their crimes.
They will suffer.
Scream.
Beg for my mercy.

But my injuries are worse than I thought.
Until I can ride again, my president tasks his kid sister with helping me recover.
What she doesn't know is that, while she's in my household, she'll live on my terms.

She'll please me.
She'll taste me.

And by the time I'm finished, she'll know how it feels to be owned.

A PRICE TO PAY is a full-length, standalone romance novel with steamy hot sex, strong language, a happily ever after ending, and NO CLIFFHANGERS. Contains dark and disturbing themes, and over-the-top sexiness that may be uncomfortable for some readers.

When Cain the VP of the Blood Eagles MC is violently attacked, Hunter the MC President asks his sister Missy to stay with Cain and help him until he is back on his feet.

However, the cartel members that gave Cain the beat down have plans to end the MC, once and for all.

Can the MC survive when they are out manned and out gunned?

This story was a real page-turner. Cain and Missy's relationship changes throughout the story, they start out hating each other. The story line is violent and dark at times with cartel coming after the MC.

Tonja says

Good book for a quick bad boy biker fix. Although the guys weren't all that bad boy, it was the girl that rocked in this story.

Was very entertaining for me, although I did have trouble keeping up with whose point of view I was reading.. a couple of times it should have been the Hero, but ended up being the heroine...

Pretty violent, but that is to be expected in a Dark Bad Boy Romance. No cheating or anything like that. And it didn't really evoke much emotion from me, as it was such a quick read, I couldn't get that invested.

When Cain the VP of the Blood Eagles MC is violently attacked, Missy is given the task of nursing him back to health. These two detest each other on sight, but as the story unfolds, their feelings change. Missy is tough, strong, and does not take any nonsense from Cain who is acting like a total bully towards her. Will the MC survive when the cartel is determined to destroy them for good? You really need to give this story a go for yourself!

Zoey never disappoints with her books, and this one is certainly no different. This is a dark, gritty, violent, MC romance, and this author has done an awesome job. I recommend this authors work for all.

I voluntarily reviewed an ARC of this book for the author!

I voluntarily read and reviewed an advanced copy of this book

This is the first book by Zoey Parker I have read and OMG I loved it, Cain Vale is VP of the Blood Eagles and he has been beaten badly in a run. When the Pres of the MC has his sister Missy who works in the bar and mothers all the club is told to help Cain she jumps at the chance. Missy only wants to be a part of the MC but the rules are no women, Missy tries to prove that she is just as good as any of the MC. This book is so full of action, adventure and HOT sexy scenes, I LOVED the interactions between Missy and Cain, they are actually so perfect for each other. This is one amazing book and I highly recommend it.

This was a short quick dark violent read that I liked. Cain Vale is a hot sexy alpha male who is a member of Blood Eagle MC who was injured and left for dead. When the president of the club gets his daughter Missy to help him recover all bets are off. There was a lot of violence in this book. Looking at the cover of this book you wouldn't think it was a book about a motorcycle club or that it was violent. I really liked Missy she was a smart sexy and she was a biker chick. These characters had some hot sexy chemistry. This book was well written with no errors in grammar or spelling. I went to Amazon to get the next book in this series only to find that not only is no other books are on their but this wasn't even their.

I received a ARC in exchange for an honest review and am more than happy to do so as I really enjoyed this book.

This is quite graphic with lots of action and suspense to keep you reading. There is still the romantic element of the story to balance this out and Cain and Missy are a fiery pair and do not start off well!

I don't like to give the story away in a review as I think the reader should have some mystery, what I will say is that this is a dark, gritty, violent, MC romance, a stand alone, with no cliff hangers and you really need to give this story a go for yourself!!
Well written Zoey Parker!

Another great read

Enjoyed reading this and reading about the characters and their story. Looking forward to reading more from this author. Enjoyed this book

Brandi says

Not a fan of this one. It was all convoluted build-up & no reward. There was no sex, no romance... not even a budding relationship really. The blurb is VERY misleading. How it can be described as "a full-length, standalone romance novel with steamy hot sex, a happily ever after ending & no cliffhangers" is beyond me.

I will NOT be recommending this to my MC bookworm buddies.

"This is where she felt she belonged, strapped with weapons and riding hell bent for leather toward action with her brother at one side and her lover at the other."

I had so much fun reading this slow burn, love/hate romance filled with gritty happenings and enemies around every corner. Addictive and action packed MC romance between Missy, the sister of the President and Cain the VP. At first, I wasn't real sure on Cain, he wasn't written with a sweet side, or with endearing romantic qualities until later on, when I warmed up to him. They were hotter once that side of him came out. I thank the Author for allowing me to voluntarily review!!

Cain and Missy are caught up in a massive cartel war. Cain is attacked, and Missy is tasked with being his caregiver while he recuperates. Angry and bitter, Cain is an absolute bear to Missy. But Missy is made of strong stuff, and she won't take any crap from Cain. As he heals, he and Missy start to feel an odd chemistry of sorts, despite their animosity. The tension between them is thick, and the sex is hot even as it's harsh. This is a fairly dark, gruesome and gritty MC romance book, but I loved how Missy gave as good as she got. She was tough as nails, even in the face of adversity. Tough to read, but if you like dark and gritty books, this one is for you. I voluntarily reviewed an advance reader copy of this book.

Who says girls can't be bikers.

Missy has the smarts and talent to be a kick ass biker and she proved it.

Intense!

Hunter is best described as polar opposite? Maybe that's not the right word; he's both a scary no holds barred President of his MC but he's also a downright softie that many others don't see. One of my favorite descriptions of what Hunter does is: " scorched -earth retaliation tactics" (which paints a not so nice picture) but once you start reading and get further into the story you will see past his hard outer shell to find the gooey center.

This story contains descriptive violence, revenge scenes well thought out, it is edgy, gritty and raw & I loved it!

This book packs a punch and you I'll need an ice pack for your hand because in places it will tick you off so much(not because of the writing but because of the intense scenes in the story) that you will slam your fist on many a hard surface: hence, the ice pack!

Superbly written (but highly disturbing) characters; well done!

This is what I expect from a MC book. I've read a few now and they're all so different and some don't even seem to ride bikes!!

This one has it all. Tough but lovable bikers, BIKES, lots of action, blood and horror and even a tough heroine. The characters are great and their interactions realistic and believable. The chemistry between Cain and Missy even has a little back story. A really good read.

Wow! I've read my fair share of MC books but this one still managed to surprise me.

Missy has spent her whole life around the Eagles MC, first with her father running the MC and then after her parent's deaths her brother took over as President. After all that time, Missy wants more. Not that helping out at the club and looking after her brother aren't enough but she's ready to play a bigger role. So when her brother asks her to play nurse to the club's VP it's the last thing she wants to do.

When the cartel begins to move into the Eagles territory and starts taking out club members enough is enough. It's time to take a stand and Missy may finally get to play the part she's always wanted.
