**Drawn into Love** Aurora Rose Reynolds

**From *New York Times* bestselling author Aurora Rose Reynolds comes a flirty romantic comedy of big love and second chances.**

Courtney Williams wanted forever. She got six years of empty promises, a divorce, and a well-deserved settlement that's paid her way to Manhattan. She has a new home under renovation, a new job, and a do-over as a happy "single in the city"—until she meets an architect with designs on more than her beams. He's also a devoted single dad, a great cook, and has dark lashes to die for. Too good to be true. Now all Courtney can do is whisper, *Oh no, not again.*

Divorced Lucas Fremont isn't looking to get swept away. But how can he *not* with a woman this sweet and sexy? She's making his broken heart beat fast. His sister-in-law, Fawn, says go for it. But as cautious as Courtney is, Lucas has to do more than that. He has to fight for it. Now all he can do is think, *Don't let this one get away.*

But Courtney comes with a secret. And Lucas comes with a bitter ex. If love is to stand a chance, they're going to have to *take* a chance.

### Emily says

Courtney Williams is starting over, she was burned by her ex and has moved to Manhattan to start her new beginning. She didn't expect to meet Lucas Fremont, the architect who is remodeling her house, and he throws her for a loop. Courtney was not looking for love but might of just found it with Lucas

Wonderful read. I loved every aspect of this book and wanted more. I had been curious about Lucas since he was introduced in Running Into Love. Loved Courtney, she is adorable and every moment you spend reading about this couple brought a smile to my face. Excellent.

[I received an arc for an honest review]

*Drawn into Love* by Aurora Rose Reynolds is the fourth book in her Fluke My Life series, but can be read as a standalone. It's a wonderful story about family and love.

Courtney and Lucas have both been let down by the person in their lives that they thought would make all their dreams come true. All they want is a family, love and the feelings of home. Courtney's ex-husband cheated on her and started that with someone else. Lucas' ex-wife gave him his daughter but not a mother or a wife. Lucas feels an instant connection to beautiful and caring Courtney. She feels it also but is afraid that it's all too good to be true and is hesitant to trust after what her husband did. It isn't long before she falls in love with his little girl, Lucas himself, and the life they could have together. Both Courtney and Lucas have some heavy baggage and encounter a few bumps on the road to their happy.

*"Everything becomes glaringly clear. I want her, and there is something between us— something huge. I haven't felt this kind of attraction to a woman ever."*

Courtney is the sweetest and I admired her immediately. She is caring, kind and stands her ground when it comes to her ex-husband. Down to earth and with real insecurities, she made a perfect heroine. Lucas is everything I expected from Aurora Rose Reynolds, he's caring, sexy and an alpha. Once he decides to pursue Courtney he is ALL in and considers her part of his family. The sexual chemistry between them is off the charts and make you blush ? The third star of the book is Lucas' daughter Maddi, she is absolutely adorable and adds extra love and joy to the story line.

*"I miss you. Even here, with you in my arms, I miss you because I know I have to go and I can't take you with me."*

*Drawn into love* was everything I love about Aurora Rose Reynolds' writing and I can't wait to read what she dreams of next.

*"Exquisite is the word that comes to mind as I take in Mr. Lucas Fremont."*

*“I want my mouth on you, Courtney. For the next few days, you’ll be my breakfast and my dessert.”*

I thought *Drawn Into Love* was a great addition to the Fluke My Life series. Lucas was the epitome of an ARR hero with his instant possessiveness and attraction to Courtney. I loved how invested into their relationship he became in such a short time, which is what I always look forward to from these heroes. Was it a little over the top? Yes. But in the best way possible that had me swooning all over the place.

Courtney was also a super likable character and I admired how she was able to move on from the life she was living and make a better one for herself. I really felt for her sometimes when she was struggling with losing people close to her but then I was cheering her on for finding more people and letting them love her just as much.

I did get a little iffy about some things from Lucas' past that were brought up. I would have been okay with it for the most part, and honestly I was expecting it, but in the end it just didn't seem to add anything to the story so then I was wondering why it was in there to begin with. But the ending of the book gave me all the closure I needed and I chose to just put these issues out of my head.

Overall, I highly recommend reading this book. It's part of a series and you do see some of the past characters but can be read as a standalone with no problem.

### **4.25 Finding Family Stars**

Lucas and Courtney’s story is probably my new favorite in the series. I love so much about it, but especially the characters and the storyline.

Courtney meets Lucas following her divorce and moving to to NYC. He’s designing her remodel and when these two first meet, it’s clear that sparks will fly. Things progress at a great pace. The two of them considering all the factors at play before diving headfirst into another relationship.

What I loved most:

Lucas is caring, sweet, and takes such a great care of Maddi and Courtney. He's the perfect guy!

Courtney, similarly to Lucas, is super sweet and caring. She a great girl who was dealt a pretty shitty hand, but doesn't let it affect her caring nature. I loved seeing her with Maddi.

The family dynamic with Lucas' brothers and parents.

The story is well plotted and paced. I loved the additional scenes from alternate POVs near the end. It was a very well rounded story.

I received this book for free from Publisher in exchange for an honest review. This does not affect my opinion of the book or the content of my review.

Courtney is making a new life for herself in New York. Away from her ex-husband and all his lies and betrayals. She wants to start afresh and now has a new job and a new home. When she gets an architect to design the renovations for her new homes she gets much more than she expected. Lucas isn't looking for a relationship, he has a young daughter he adores and a job he loves. Then he sees Courtney. Beautiful, warm and sweet, he knows he needs to take a chance on love again. He just has to persuade her to do the same.

Aurora Rose Reynolds never lets you down. When you need a sweet contemporary romance with a scrumptious hero you need to grab one of her books. You will finish it with a delighted smile feeling all warm and fuzzy. Which is exactly how I felt when I reached the last page of Drawn Into Love.

How could it be otherwise? It contains not only a delicious hero and a lovely heroine, but there's an adorable little girl and a cute dog. I was a helpless reader held hostage by the sheer adorable-ness. But, it wasn't just puppy dog eyes that kept me reading. The love story was really cute, Courtney and Lucas had great chemistry creating a modern day fairy tale romance.

If you have been reading this series you will recognise Lucas from previous books in the series. A few characters from the previous books pop up in this as well. However, this can easily be read as a standalone. Another great book by Reynolds, I am now eagerly awaiting whatever she publishes next.

## **Carmen Rae says**

This book was so much sweetness and love. I couldn't put it down. From the first page I was drawn into it. And other than a few small moments I read the whole book with a huge smile on my face filled with warm fuzzies and so damn grateful to be given this ARC to review.

It's no surprise that I loved it, I am such a massive fan of Aurora's writing and I especially love her over the top alphas in her until series but these ones are the perfect counterbalance to those. We still get the awesome characters and a growly, possessive alpha, I just find there's a little less OTTness, if you know what I mean.

Courtney was such a sweetheart and despite everything that her ex-husband had put her through she wasn't the least bit bitter or guarded. Lucas was the perfect partner for her and of course I immediately fell for the sexy single dad. But the star of the show for me was Madeline.

This is the type of book you keep on your bedside table to read over and over. Loved It

What a sweet single dad story. I love me some single dads and Lucas is a pretty freaking amazing one. He and Courtney had some crazy chemistry together. It was really adorable how much Courtney loved his daughter Maddi. This one was a quick read. There wasn't a lot of drama and low angst. Just a nice and sweet love story.

3.5 Stars

I'm sad to see this series end because it was such a fun series. After meeting Lucas in previous books and how bad his wife treated him, I was so glad to see he got his own book. Courtney was such a sweet heroine. I loved her for Lucas and his daughter.

This is a pretty low angst book. There is drama with both of their exes but this couple stood strong together. Barely any pushing away. We really got to see this couple as a couple through out most of the book.

I listened to this on audible and both narrators were great. The male narrators voice was a bit too manly to pull off the daughter and women's voices but other than that, they were very good.

Another fantastic story from Reynolds!

This was so much more than just the build of a romantic relationship, it was about the creation of a family. About finding everything you ever dreamed of.

After suffering a heartbreaking betrayal, Courtney leaves the life she knew and is on the journey to find her new self. Lucas has also recently gone through a major change and is building a better life for him and his young daughter. When circumstances bring them together, it's clear that they have a connection.

Throughout so much of the story, I couldn't stop grinning. I loved Courtney and Lucas together. The excitement of the fall had me so wrapped up in this story. In addition, the relationship with Maddie was so

sweet and gave the story a whole new dimension.

It was impossible not to be drawn into this story. The romance, the drama, the love, the emotion; I couldn't get enough of it.

### **Book Snob Sue says**

Honestly, I would have given this more stars, I fell in love with these two. This is the book of Lucas, Levi's brother from *Runing Into Love*. You know, the brother that tugged at your heart, because his wife was awful, to him, their little girl and really everyone she came into contact with, the wife that every time she spoke, you were thinking "oh no she didn't". Well this is his beautiful story with an equally beautiful woman. These two were both married to spouses that cheated, so in Sue's world, the exes don't count...at all.

Courtney is new to the city for her fresh start, after fleeing from the cheating ex, who continually still bothers her while he is living with the pregnant mistress. He is something else and Courtney is amazing, so deserving of Lucas who treats her like the princess she deserves to be. She had been through so much, growing up in foster homes and a cheating ex, she just wanted her hea. Lucas is a single doting father, I'm talking ovary overload adorable doting. He is such a great guy, who deserves a great woman after his ex wife, who is still causing problems. But he and Courtney stand together against their exes and it was refreshing to see. He is so wonderful and honestly I can't say enough good things about him...oh and he cooks, did I mention that? You know what that means, right? Dibs, double dibs, I called him, read him first.

This was a wonderful book about a couple getting a chance at a happily ever after that neither thought they would get. This was a safe read, om and ow drama, the exes, but both do not put up with it and they unite until they prevail. A little pushing away from her, but he is not having that because he is crazy about her and she about him. Sexy af chemistry, he can't get enough of her and she reciprocates. Loved the secondary/supporting characters, his daughter, her funny af outspoken BFF and his supportive family. We get a heart warming epilogue and an hea. Sorry for the long review, but absolutely floved this book, made my heart happy.

An ok, one time, light read during work breaks, a little bit of drama with the main characters ex-spouses but not a lot, overall this is low on angst. Writing flows pretty well and despite characters from previous books making a appearance this can be read as a standalone.

Courtney and Lucas work well together as a couple, although they didn't draw me in as I would have liked.

Acquired via kindle unlimited.

## Selma says

Drawn Into Love is a worthy conclusion to the very successful and popular Fluke My Life series. Aurora Rose Reynolds has delivered a beautifully written and touching second chance at love story filled to the brim with emotions and featuring two charming, endearing but also broken characters. This book is about finding a new path in your life after a hurtful divorce, admitting your mistakes and facing your fears and moving forward. It's about what truly makes a family and a parent. You don't have to share the same blood in order to love a child whole-heartedly like it's your own. That's what Aurora wanted to convey with Lucas and Courtney's story. I've devoured it with a smile on my face and tears running down my cheeks.

We've been introduced to Lucas Freemont and his sweet little daughter Madeline in the previous books. At that time he was married to evil Eva who everybody hated due to her coldness. I was hoping that he would find the strength to divorce her and find a good woman who deserved his and Maddi's love. This man had so much to give.

Now Lucas is a single dad and living in New York. He is finally free of Eva who is not very present in Madeline's life. It's killing him to see his daughter miss her mother but he is trying to compensate for her lack of love and attention. One day he is entrusted with a contract to design the interior of a woman's new house. Courtney Williams is sexy, gorgeous, sweet and also recently divorced. She makes his heart beat faster. When Lucas looks at her and Maddi together he dreams of a possible future for them. Courtney is very cautious due to everything she went through. The feeling Lucas and Madeline give her is too good to be true. But how can she guard her heart from a devoted dad and his adorable daughter? Courtney comes with a secret and Lucas with a bitter ex. Can their love stand a chance? Will they finally get their HEA?

I adore Lucas with every fiber of my heart. He is a great, swoon-worthy dad and caring, supportive partner. He treated Courtney with patience and respect. Lucas fought for Courtney and to earn her trust because he knew that she was worth it. This woman was everything he ever wished for - loyal, sincere and loving. She showered little Maddi with affection and genuinely cared about her. I enjoyed the sizzling hot chemistry between Lucas and Courtney as much as their romantic and tender moments. Together with Madeline they were the picture perfect, happy little family.

I'm sad that this amazing rom com series has come to an end. It's very hard to say goodbye to characters that have engraved themselves into your heart forever. Aurora did a fantastic job with this book. She gave Lucas and Courtney the story they deserved. Sometimes we need more than just one attempt to find our one true love and soul mate. I highly recommend this top read and give Drawn Into Love 5 well deserved stars.

“? ?????? ?? ?? ????? ?? ???.”

I just recently came across the ????? ?? ????? series by the amazing Aurora Rose Reynolds, and after I kicked myself thoroughly for missing these releases, I did some heavy binge-reading and absolutely DEVoured books 1-3 in two days. When I got the chance to dive into ????? ????? ??, Courtney and Lucas' story, a little early...I was in freaking HEAVEN!

A devoted, incredibly alpha, single dad meets the woman of his dreams...a woman who wants everything that Lucas has to offer, but she struggles with trusting it. There are obstacles. There are ups and downs. There is happiness, humor, and heartbreak, but our hero's devotion never wavers. Reynold's makes it so damn easy to fall in love with her characters! You don't want to miss out on this deliciously sexy, emotional, and

humorous romance!

This book wasn't one of my favorites by this author. Too much ex-drama and virtually NO sex. I found myself bored by this couple. Maddie was cute though...
