What can I say about this collection, it's great, it gets especially good in the 1942 collection Jose. This is a very underrated poet in the US, and I can't wait to track down more of his work. If you can find this, read it!

Stacy McCullough. says

I loved the earlier work, when he had shorter to medium length lines and didn't seem to be focusing as much on the lyrical quality. The repetition and unique voice work well together and make me love him.

a nice collection, portuguese not included. a few standout poems.

I've read a bunch of his poems for a class, not specifically this collection. Amazing. Check out the poem on Charlie Chaplin.

I found this book about 20 yrs ago at Changing Hands Bookstore in Tempe, AZ, and have been carrying it around ever since. That's about best review I could give any book... :)

pretty good, but honestly something hit a little off the mark. a straightforward delivery of weird ideas and poems that sometimes works and sometimes feels disingenuous. one i'll probably come back to (years) later to see what i'm missing, cuz at the moment i really don't quite get it.
