### **Johannah H says**

I'm glad the author talked more about Kyo's past. I do wish we would learn more about the Sohma curse. We only get little snippets here and there. It's like trying to put a puzzle together while still missing over half the pieces. And I'm not sure why the author keeps introducing new characters that don't really add much to the story!! Just focus on Kyo!!!

### **Nicole says**

Hands down one of my favourite manga series... and this groups them together. Although I own them individually, this would be useful for someone wanting to conserve space on the shelves or your bookbag.
