**Fusion** Tessa Teevan

*Where do babies come from?* The question every parent dreads hearing has finally fallen from the lips of six year old Ava Banks, the curious, precocious little girl that you fell in love with in Ignite. Jeremy and Sierra, normally blunt as can be, struggle to find the right words to answer her. So instead, they rewind sixteen years to that one fateful day where a game of Seven Minutes in Heaven inevitably led to life-long romance filled with laughter, love, and many, many mishaps along the way.

Falling in love with your best friend? It's the most incredible thing in the world. Let's just hope it lasts. When the world comes crashing down around you, can even the strongest relationship withstand great tragedy?

Stay tuned for lots of laughs, teenage awkwardness, a few tears, and most of all, mullets. Because what good love story doesn't do business in the front, and party in the back?

### Paige says

5 "Literally Perfect" Stars

Having read several of Tessa Teevan's novels and having just reread Ignite, I was super excited to read Sierra and Jeremy's story. From meeting them in Ignite, I knew (mostly) how their story was going to play out and I expected to really enjoy it. In reality I more than enjoyed this story and absolutely fell in love with Jeremy, Sierra, Ava and their slightly crazy but completely beautiful story. It was hilarious, heart-meltingly sweet, surprisingly emotional, and, in the end, literally perfect. It is now my favorite Tessa Teevan book to date and one of my favorite books period.

While this could be read as a standalone, I would suggest at least reading Ignite first so that you can get a better background on Sierra and Jeremy as well as Alexa and Jace who play a pretty prominent role in their story.

Jeremy and Sierra's story starts in the present. Sierra's sister, Alexa is in the hospital having her first child when their precocious 6 year old daughter Ava asks one of her ill time and many times inappropriate questions after over hearing her crazy parents talking. That discussion leads to Sierra and Jeremy, in alternating point of views, telling their story starting from when Sierra moved in next door to Jeremy when they were 8 years old. Sierra and Jeremy tell their love story that starts with a spit shake to declare themselves best friends, to growing up and starting to look at each other as more than best friends but not having the guts to declare themselves, to watching them fall in love and build a life and family together.

While they'll tell you that their story lacks angst since they've always been together, in reality it actually lacks for nothing. These two are hilariously crazy. Both open and honest with each other. I laughed out loud all the way through the story. Both Jeremy and Sierra's antics had me in stitches. I also sighed and swooned every time these two were together. Their love and devotion to each other from the very beginning was nothing short of inspiring. Watching them come to terms with their evolving relationship made my heart happy.

Jeremy is a to die for book boyfriend and was perfectly imperfect. He was silly but completely and utterly devoted to Sierra from the very beginning. This story didn't need added drama of them finding themselves because they found each other when they were 8.

While most of their story was very happy, go lucky. Any relationship hits snags along the way and they were no different. But watching them work together and continue to fall deeper in love with each other even during the hard times, made me believe in true love and soul mates. I was also pulled into their story as I was able to relive my childhood through theirs. Being as in 1992, I was 7 (while Sierra and Jeremy were 8), I was able to relive some of my favorite childhood memories through their eyes. Tessa did a phenomenal job of evoking memories based on music and timely events to help tell their story and pull me along for the ride.

Getting to see a young Alexa and Jace as well as Alexa and Ty (to understand you really need to read Ignite), was a highlight. Watching Sierra and Jeremy and their influence on that story made me smile and giggle. Then as Sierra and Jeremy's own story started to unfold beyond the present, we got a glimpse of their future that left my heart completely full. Watching them live out their happily ever after cemented them as one of my favorite book couples and Jeremy as one of my absolute favorite book boyfriends. Plus with that little epilogue from Ava's point of view, I'm eagerly anticipating the next installment.

If you're looking for a true love story with undying devotion, giggle inducing banter, a swoony hero, and a sassy heroine with a dash down 90's and early 00's memory lane, this story is absolutely for you.

## **MELISSA \*Mel Reader\* says**

4.5 Stars!

(ARC provided by author)

We first meet Jeremy & Sierra Banks in Ignite & I've wanted more of their love story ever since. They were the funny sister & brother-in-law to Lexi who have an adorable daughter named Ava. In Fusion they go back in time and tell their story from the time they met through to present day.

-We were just kids. But, even at such a young age, one look at the pretty, little blonde next door and I knew she was something special. Don't ask me how. I just did.

-She's just a girl. Just a girl. A girl I was going to marry one day.

-Sierra Sullivan. My best friend. My first kiss. If I had my way, my first and last everything.

Jeremy Banks first meets Sierra Sullivan the summer when he is 8 yrs. old. She is his new neighbor & they quickly become the best of friends. Through the years they grow even closer & are inseparable. Over time they both start to develop feelings that are more than friendship but are afraid to voice them. They are both concerned their feelings are one sided, so neither one makes a move. Their friendship is everything to them & they are both scared to lose that. They both get frustrated being in the friend zone & eventually confess their feelings. This is such a beautiful love story. This man is absolutely stunning in the way he loves this woman. He is what mother's hope their daughter's will one day find & what fathers wish for their little girls. He is major swoon worthy & such a genuine man with a heart of gold! Jeremy is my favorite of all of Tessa's men! Hands down stole my heart! Can't wait for Ava's story! :D

-How could I ever want anything more than this man?

-Every day I wake up, I'm thankful you're mine. Every night when I go to sleep, I pray that you always will be.

-Sierra was mine. She always had been. Always would be.

---

## Jen says

### 4.25 First Love Stars

*The day Sierra Sullivan came running down the sand in her cartoon T-shirt and high ponytail was the day my whole life changed.*

*Fusion* is the story of a couple I never thought would get their time to shine. Sierra and Jeremy were a big part of Lexi and Jase's story but I always viewed them as the fun but solid couple who added to little sis Lexi's book. Sometimes being wrong is a good thing, though and I'm psyched as hell they got their own book.

**Hooray for young love at first sight!** In the most adorable meet-cute in the history of ever, Sierra Sullivan and Jeremy Banks, fellow eight year olds and next door neighbors, form an unbreakable bond over their mutual love of TMNT's Michelangelo and a fear of sharks. When you're eight that's the stuff that really makes a difference, right?

As the teen years hit and boobs are grown and inside jokes about *strokin' it* become a reality, both Jeremy and Sierra start to notice what's been right in front of them all along.

*"I don't want to dance around this anymore . Kiss and then have everything be awkward while we try to make each other jealous when all we want is each other. I'll pine for you if you make me. I'll fight dirty if I have to. But, God ...please don't make me. You're my best friend, Sierra. But my feelings for you run so much deeper than that. Tell me... tell me you feel this, too."*

Sierra and Jeremy: The Teen Years hit close to home for me in a way that brings back some pretty sweet memories now but managed to gut me a little as a teen. **Damn the angst!** Even though I'm long past that time now, I whole heartedly related to both Jeremy and Sierra. **Putting yourself out there when a friendship's on the line takes a serious set.** Hats off to both characters for pulling up their big girl panties and going for it. Eventually.

*Sierra Sullivan. My best friend. My first kiss. If I had my way, my first and last everything. And all that came between.*

Jeremy and Sierra were just awesome and the biggest compliment I can give is to say I'd love to grab a drink with their real life counterparts. You know, if book characters came to life and stuff. The dialogue, which has been making or breaking books for me lately, did not disappoint and for that I'm giving a big shout out. The characters remained true to their original selves and no dick maneuvers were thrown in just for the hell of it.

The book's separated into two parts and while I enjoyed both the teen and the adult sections, the story began to drag a little for me towards the middle and again towards the end. Don't get me wrong, it's all good but I wouldn't have minded a little *something* else to help move it along.

Though *Fusion* spends a whole lot of time delving into the teenaged Sierra and Jeremy, I can't imagine anyone who had that special person in their lives and was faced with a fork in the road decision not relating to this. The "should I tell them how I feel" question has come up for most of us and for me it brought back some truly beautiful memories. Kudos to that! As an added bonus little Ava's getting her own book. Given her righteousness as a sassy little girl, a grown up Ava story should be pretty sweet.

**Chantal ♥? says**

### **5 LIFETIME STARS**

*"Who'd have thought that a little girl in a high ponytail and a dirty boy in a Michelangelo T-shirt would've fallen in love and ended up spending a lifetime together?"*

This really does sum up this book in a nutshell.

I absolutely adored this book.

It was so well written and engaging that I could not find time in my day to read it because my life was too hectic. This is not a light read that you can just pick up and say "ahhh that's so sweet" like I first thought.

That's why it has taken me so long to read it.

It was way way more than that.

**This book had it all!**

All my emotions were at play, I laughed, I cried, and I feel in love with this couple who although are childhood sweethearts, they did not live a charmed life.

Corny lines like this won me over:

*"The new Harry Potter movie just came out and it's in my back pocket. What's it gonna be, pretty lady? Will you take me inside or do I have to Slytherin?"*

Emotional lines like this pulled me in:

*"WHEN I WAS EIGHT years old, I met the girl I knew I was going to marry."*

*"...The moment our lips touched, fireworks would explode, little doves would fly, and violins would play. That wasn't what our first kiss was like. It was so much better."*

And I will never forget this moment:

*"Sierra Banks, my wife, was holding Ava Banks, my daughter, for the very first time.*

*My wife.*

*My daughter.*

*And that was all it took.*

*It hit me so hard that I could've passed out again.*

*But I did something else.*

*I cried."*

Or this heartbreaking moment when Jeremy was

*"I WAS ON TOP of the world. On top of the fucking world. I'd just sold my first million-dollar home and gotten a killer bonus, and Sierra was ten weeks pregnant."*

*And Sierra then*

*"She was suffering from a miscarriage, and her body couldn't handle it. Due to the amount of blood and the situation she was in, we felt it best to go ahead and perform an emergency dilation and curettage procedure."*

I cried and cried.

Honestly, I can really go on and on about this book but I think you should really try this one out for yourself.

**WORTH A READ AND MAYBE EVEN A REREAD!**

The beginning may be a little slow but it really does get better!

**They are just about the most amazing couple.**

**What can I say, but I FREAKING LOVED THIS BOOK.**

**Thanks Erika for this amazing book Recommendation. You really know how to pick a winner for me.**

**FUSION IS LIVE ON AMAZON!! <http://amzn.to/1HcCZgy>**

**Official Release: October 30**

Excerpt #1

*The day Sierra Sullivan came running down the sand in her cartoon t-shirt and high ponytail was the day my whole life changed.*

*Sure, it'd only been eight years long, but hey, those were some good eight years. Little did I know, that the next eight, and the next eight, and the next eight would be even better. Don't mind my math.*

*Anyways, it happened on a Thursday. That little tidbit may seem insignificant, but that's the point. I remember every single little detail with vivid clarity as if it were yesterday. The summer when I was eight years old, I met the girl I was going to spend my life with. Did I know it at the time? Of course not. I was eight. I had no idea my life was about to change. It's not like there was an explosion of fireworks or sparks the first time our fingers touched. We were just kids, but even at such a young age, one look at the pretty little blonde next door, and I knew she was something special.*

*Don't ask me how. I just did. If I'd have known what was going to come our way, I'd have kissed her right then and there. But like most young boys kisses were gross—until they weren't. So I declared us the best of friends—until that was no longer enough. Until the thought of another day going by without her knowing how much I loved her was no longer an option.*

*You may think you know our story. And in truth, you probably do. Boy meets girl. Boy chases girl. Boy and girl both like Michaelangelo—the turtle, not the painter--, Michael Jordan, and have a fear of sharks. Boy declares girl is his best friend. For years, boy and girl stay friends until girl grows boobs and boy grows...well, you know.*

*Boy loves girl. Boy nearly loses girl. Boy goes to the ends of the earth—or in our case, Ohio—to keep the girl. Boy marries girl, and they live happily ever after.*

*The end.*

*Sounds like a completely ordinary story, right? Well, that's because it is.*

*But those little snippets are only the tip of the iceberg.*

*Sierra and I have had our share of laughs—more than the average couple, I presume. We've also had our share of tears. Surprising, right? To me, too. But the truth is, for all the light that's shone on our relationship, there's been dark. It hasn't been plentiful—thank God—but just enough to where we weren't sure we'd come out on the other side of the tunnel intact.*

*How did we?*

*Stick around and find out. I'm about to give you every gory, hysterical, down and dirty detail. Okay, so maybe not the dirty stuff.*

*Then again...*

---

**S.M. West says**

#### **4.25 "Where you go, I go" STARS**

Sierra and Jeremy's story - finally!! This was oh so sweet. If you've read this series, you'll know that they get their HEA but it was just awesome to live their history, their childhood together and how they came to be the great couple that they are today.

From the instant Jeremy and Sierra met at the young age of 8, there was a connection. They became best friends...

As they grow from children into adolescents, it was so much fun to see how they changed and realized their feelings had grown from more than friends. Some of this was frustrating, filled with teen angst and oh so funny...

And I loved Jeremy and his devotion for Sierra. While Jeremy and Sierra are meant to be, they did have their challenges and it was great to go on the journey with them!

**"Sierra Sullivan. My best friend. My first kiss. If I had my way, my first and last everything. And all that came between."**

*ARC provided by author in exchange for an honest review*

As readers we often read books to escape the daily grind of our busy lives. And when we read romance novels, we are taken to place where we can escape and read a modern sexy version of fairytales whether it be prince charming, hot billionaire, bad boys, dominant alpha males, military heroes, bikers, and the list goes on... but if you really think about it, the realistic book boyfriends can be found in the simple sweet boy next door. And that book boyfriend is none other than Tessa Teevan's Jeremy Banks of **Fusion**.

I am a big big fan of Tessa and her alpha military heroes especially Knox Wellington. I thought there could be no one who can top him but I was wrong. JEREMY BANKS beats Knox hands down. Jeremy may not have the sexy smoldering appeal that we fell in love with Knox but he has the charisma, charm, humor, and heart of gold to steal your hearts. He is a man who can steal your heart and have you swooning with an "I love you." Jeremy Banks in not book boyfriend material...HE IS BOOK HUSBAND MATERIAL.

Jeremy Banks and his beautiful wife, Sierra were first introduced in Tessa Teevan's debut book, *Ignite*. In those few snippets of Jeremy and Sierra, I loved this couple. I remember messaging Tessa saying "OMG this couple is the cutest thing ever." And when she informed that she was finally going to write Jeremy and Sierra a book, I was over the moon ecstatic. Luckily, I was fortunate to beta read this couple and **\*\*ahem\*\*** bug Tessa for new updates on Fusion. And as I was reading weekly updates, this couple stole my heart. I was officially smitten with this couple. And I think Tessa can attest to that fact with our chat messages.

What made Fusion stood out for me, was how Tessa written and told their story. She made this book light, funny, raw, honest, playful and most importantly kept it true to Jeremy and Sierra's personality. I loved how Tessa didn't detract and kept the focused on them. This was indeed a story of growing up, falling in love, and staying in love. I'm not going to say this book is all hearts and flowers, but I will just say that Tessa Teevan was able to tug those emotional heartstrings that every relationship goes through from the good and bad. Tessa Teevan captured her readers hearts through her gorgeous prose and raw characters. If she wanted us to remember the Banks family, she did that and more.

The story of Jeremy and Sierra Banks was your feel good kind of book. The book that makes you believe what TRUE LOVE is all about. I loved getting swept away in their fairytale romance. Jeremy and Sierra were what you called your fated lovers and soul mates. From childhood best friends to lovers. I don't think I can do this book justice by rehashing and telling you what Fusion is about. But what I can tell you is that Tessa Teevan DELIVERED. She delivered a story that was sweet, raw, emotional, touching, playful, fun and sexy. She made readers fall in love with the boy who could have your hearts fluttering with his charming personality. This book made me laugh out loud, swooned, fall in love, and most importantly, it captured my heart. The reason why I fell in love with the story was how real, fun, and raw this book was. Jeremy Banks may not be a super elite broody alpha male soldier, but instead he showed readers what it takes to fight for love through his words and actions. So if you are looking for a book that will hold your heart hostage, then be prepared to get spellbound in Tessa Teevan's phenomenal book, **Fusion**.

**P.S.** Tessa~hurry up with Ava's book because you are so cruel to leave your devoted readers with that ending.

**\*\*\*\*\*4.5 Where You Go, I Go Stars\*\*\*\*\***

{ARC Generously Provided by Author in Exchange for an Honest Review}

**Every day I wake up, I'm thankful you're mine. Every night when I go to sleep, I pray that you always will be.**

Ever since reading *IGNITE*, I've always wanted to get Jeremy and Sierra's complete story. Although they were secondary characters, they along with their daughter, Ava, always touched my heart. I can say after having read this book, that it is well worth the wait. And I dare say that Jeremy is my new favorite book boyfriend in this series. He may not be an alpha male but, Jeremy is definitely a man most women dream of spending the rest of their lives with.

Sierra and Jeremy met when they were just eight years old, when her family moved into the house next door to him. From the moment they meet there was an instant connection. They became best friends who were inseparable.

This was such a sweet and steamy friends to lovers story. Although it is clear from the get go that these two fell in love at first sight, it was more of a puppy love that grew into something so beautiful and that was sure to stand the test of time.

There is very little angst because Jeremy and Sierra are two normal people who don't really play head games. Usually I crave the angst but the fact that there was only a minimal amount just seemed appropriate for their story. They were just one of the lucky ones who got to meet their soul mate at such an early age.

We do get a lot of Lexi and Jace towards the end but I had already read their book and knew what happens for them. It was nice to have them in the story but mainly I loved getting to spend time with the sweet couple who prove that being comfortable with your partner doesn't mean that the relationship lacks steam. They had that in spades!!

I loved how Jeremy would do anything to protect their love. He is definitely the best hero Tessa has created

by far!! It was wonderful to get to see their love blossom and their family grow. I love little Ava, and hope that some day she gets her own book. The ending was absolutely perfect. It left me very satisfied with how it all ends up for Jeremy and Sierra.

If you haven't read the *Explosive* series, it is definitely one that you should add to your TBRs.

### Lyndy Ann ? says

\*\*\*\*\* "Where you go, I go." \*\*\*\*\*

Fusion is a beautiful love story giving us the complete story between Sierra Sullivan and Jeremy Banks told from both POV. We met these two in Ignite.

We discover how these two met when they were just eight years old and how they became instant best friends. We go through their teenage years where hormones develop which is hilarious and feelings begin to change and the anticipation of that first kiss had me gripped. We share in all their firsts. We move into their twenties then married life and the story of how little Ava came along. We go to the reunion where Lexi and Jace met up again and find out what these two got up to during that week. **The epilogue made me smile and I cannot wait to read Ava's story.**

**I loved everything about this story, their relationship has to be one of the most romantic I have ever read. I love Jeremy and Sierra and little Ava is so cute. Fusion made me laugh, made me sad just generally made me happy to be part of their journey. Being a movie lover I loved all the movie references especially Jaws and Scream Go Ghostface.**

**I would recommend Fusion to anyone who loved Ignite. I forgot how much I love Tessa Teevan and I cannot wait for her new books that continue with this series.**

---

### Kelli C ~ Jack Sawyer's Heart says

#### 5 PARTY LIKE IT'S 1999 STARS!

Sometimes it is ok to read a love story that exists because two people who truly belonged together fell in love. Sometimes it is ok to read a story full of all the good feels that come with finding a forever love. Sometimes, angst and drama are not needed. Tessa Teevan delivered plenty of the aforementioned with her *Explosive Series*. Finally, she gives the sweet and the fabulous love story that dreams are made up...Now she gives us **FUSION!**

Jeremy and Sierra (Sullivan) Banks have been solid. If you have read Ignite, then you are no stranger to their love and the ease of their relationship. The joy of Fusion, is finally going back and getting the journey to their life together and realizing that it was them who set the precedent for the series to follow!

With a bouncing blonde pony-tale and TMNT lingo, Sierra Sullivan stole Jeremy Banks's heart in the sand at the ripe old age of 8! Every day of their lives were inseparable, every moment of growing up was experienced together. It was a true love at first sight that endured the tests of time through adolescence. They watched their bodies change, they felt their hormones rage and they endured the attention of all others...hell, they survived High School!

LORD! I loved this. So many feels were brought back as Sierra and Jeremy held onto their friendship like the Holy Grail. I felt each forehead kiss and broke a little with each wish that it was more. I held my breath each time Jeremy looked deep into Sierra's eyes and I fist pumped the air when she delivered some sexy innuendo that stole his voice! There would be no true competition, and once Jeremy found his moment to grasp onto Sierra, fate was sealed!

**Sierra Sullivan. My best friend. My first kiss. If I had my way, my first and last everything. And all that came between.**

HOORAY! Happy dancing as two amazing characters did it! They fell in love and they stayed in love. There were no forks in the road. While life may have presented a "bump" per se, it was just a moment for them to proceed with caution, but always together. No person, place or event would break them apart!

This read is nothing but absolute true love and devotion. It is amazingly fun with LOL moments that will throw you back to your own adolescence. Jeremy will beguile you with his cocky/confident love-fests, and Sierra will make you proud to be a woman! Long live the Bank's and may every one of us be so lucky as to have just a bit of their forever type of love!

---

## **Beverly says**

This series by Tessa Teevan is one of my favorites and as one of my favorite authors I am up for whatever she wants to deliver, but I wasn't sure how this story would go. We all know Jeremy and Sierra, we know they have been together since before forever and that they are the perfect couple. I assumed there was only two ways this story could go, it could be boring and repetitive or have unnecessary drama that made me crazy. Well, I was absolutely WRONG, because this story is original, complete and beautifully written.

"You already know the destination. Don't you want to come along for the ride?"

Jeremy and Sierra met when they were eight years old. It wasn't love at first sight, but it was definitely friendship at first sight. Sierra was unlike any girl Jeremy had ever met and he was immediately drawn to the

girl who loved Michelangelo and wasn't afraid to get dirty. Sierra was new and just happy to have a best friend who was so much like her.

Throughout the story we get to see how things changed as Jeremy and Sierra grew up. This is honestly the part that I thought I would lose my mind. I am not a huge fan of angst and I just knew my heart would be broken. My worry was for not, because Jeremy and Sierra always stayed true to their character. Yes, they were more immature, but they were still them, just younger.

I have read all of the Tessa's books and her writing keeps getting better and better. This story was beautifully written and had me feeling everything. Jeremy and Sierra's bond feels real to me, their unconditional love and friendship feels real, honestly after all these books they feel real to me.

I couldn't be happier with Jeremy and Sierra's story. I loved seeing how their friendship turned to love, but really loved seeing how they grew and handled adversity. I dare say Jeremy and Sierra are one of my favorite of her couples, which says a lot because I love them all. It also had me dying to read *Ignite* again after seeing Jace and Lexi's bond in high school.

Our love, without a shadow of a doubt, was the best thing that ever happened to me.

*ARC kindly provided in exchange for an honest review.*

---

## Christy says

### 5 stars!

If you've read *Ignite* by Tessa Teevan, you already know and love Jeremy and Sierra. They were two of my favorite characters in that book. Going into *Fusion*, you know that Jeremy and Sierra have been together a long time, they're happy and in love, and that they've been best friends since they've been kids. Let me tell you, there isn't much I love more in a book than a good friends to lovers story and this is one of the best! Getting to see two characters you already know and love grow up together and fall in love- it was wonderful!

You already know the destination. Don't you want to come along for the ride?

A young Jeremy Banks meets little 8 year old Sierra Sullivan and it's best friends at first sight. They have TMNT to thank for that. From children, to teenagers, this couple is the very best of friends and always have

each others backs. As they become teens, both start to develop feelings for the other. I can imagine it's not easy becoming attracted and falling in love with your best friend. What if it's not mutual? What if you tell them, they don't feel the same and everything changes? It's scary for both Jeremy and Sierra. The lines have blurred between friends and more than friends and neither know how to bring it up...

I had no idea when the lines between friendship and love had blurred.

It's hard to say what my favorite thing was about this book- I loved it all. The beginning when they were kids, I especially loved the middle when they were trying to figure it out and the love was fresh and new. The last part was also great when you got to see them happy and in love. Don't get me wrong, their relationship isn't perfect. They go through their fair share of issues and heartbreak. But they have each other through it all.

Jeremy Banks is a favorite of Tessa's Explosive men. He is by far the most hilarious, and he is so devoted to his girl. I loved how funny this story was, the friendship to love and the romance. I laughed, I cried and I swooned. I've read about all of Tessa's books and this was her strongest writing to date. For fans of the *Explosive* series, this is one you won't want to miss out on!

---
