The Return of Nightfall

Mickey Zucker Reichert

The Return of Nightfall Mickey Zucker Reichert

He has been known by countless names and terrifying deeds, but chief among those names is that of Nightfall, a man-or perhaps the legendary demon himself-gifted with a unique power which any sorcerer would kill to possess.

Now, Nightfall is bound by magic and oath to guard and guide a newly-crowned king. But when his liege disappears, Nightfall must get help from Duke Varsah-the man who wants nothing more than to see Nightfall destroyed.

Ollivier says

I resisted many times reading, afraid the sequel would not be as good as the first. I was wrong, it is as good (but the first wins for novelty at that time). Enjoy it !

Johnathan Davis says

Now when i firsted looked at my book I thought u know it was gonna be really scary and a whole bunch of action but as i'm gettin close to the middle all hes doing is trying to win his honor/love back with the love of his life and as he lives in a hudge castle named "Alyndar Castle". His close friend Edward helps him on his journey and is also the king of the castle so Nightfall(the main character) is on a journey agin to take down anybody who gets in his way if he has to.

Cheri Edwards says

I love the 1st book...Amazing....waited 10 years to read the next book, not so amazing. Pretty disapointing. I like it only because it's Nightfall.....a prequal would have been nice instead.

Sorina says

I wish I could give 4 1/2 stars. This is the sequel to one of my favorite books, and you get to see the master of disguise go at it, but it's just not quite as good as the Legend of Nightfall. Still a good read, though!

Christina says

This book makes me remember why I loved the first one so much. I read it right after it came out, one of the few books I read for fun in college and it was good enough not to get lost in all the other stuff. The character is very engaging because he is normal in so many ways (and in so many ways not normal), so he's believable. The plot of this book moves right along and Nightfall goes all over the world on his search, one adventure after the other, all of which are rowdy. So yeah, I liked it.

bkwurm says

Entertaining fun (with a caveat).

Set in a fantasy world where some people, called the Talented, are born with innate abilities and others, called sorcerers, prey on them and steal their talents by torturing them to death.

The titular character, Nightfall, was a thief assassin who had made good use of his talent to create a fearsome reputation. This sequel carries on where the first book left off with Nightfall as advisor to the idealistic new king.

(spoiler alert)

I had some problems with the plot – no matter how trusted or liked, why would the king make Nightfall his chancellor? Especially when he has no experience in that role? Also, since the chancellor is the ruler in the king's absence, how can both chancellor and king go off to a foreign kingdom with no fanfare and practically no guards?

Also the thinking behind the plot to kidnap the king and thereby discredit Nightfall made no sense.

Cecilia Rodriguez says

After a long absence, Reighert brings back his well known antihero: Nightfall. Reighert's plot blends mystery with fantasy when King Edward Nargol is abducted.

Stephen Ardent says

Rollicking Good Fun!

That's what I would call the second book about Nightfall.

If you haven't read the first one yet, the legend of Nightfall, I truly suggest that you do so in short order.

Now if only someone would convince Mickey to write a third... surely someone who knows her could drop a mention in her ear.

Perhaps the storyline could follow Sudian during pending fatherhood, while Ned finally gets himself a wife.

Just sayin...

Cait says

A lighthearted romp with homoeroticism, violence, and hardcore identity-porn! Just what I needed right now. (It's better than the first one, although I greatly enjoyed that one too and this one probably wouldn't make sense without it.)

Crystal says

Have read it twice now. Love it.

Jp says

I loved Mickey Zucker Reichert's The Legend of Nightfall. It's a book that I love and I've read and reread it several times. I had hoped that she'd write a sequel so I could spend more time with the beloved characters again.

After almost a decade, she did. And to be sparse to the point of silliness - it was good.

The characters are back were as fun and interesting as they were in the first book. Due to obvious storytelling license, our hero couldn't stay in the same hopeful situation as he had achieved at the end of The Legend of Nightfall. The first rule of writing is to take your protagonist and squeeze him hard.

Mickey Zucker Reichert does that in spades. I felt that the trials and tribulations that our hero went through weren't up to the same caliber as the adventures in the first book, however, but still a worthy sequel and a joy to read.

Selina Harvey says

I first read this book a very long time ago, and to this day it (and, honestly, almost everything by this author!) ranks among my all time and forever favorites!

Finally, after YEARS of waiting, the sequel to the phenomenal "Nightfall" book! Yep, for years it looked like we'd only have one sad little stand-alone book, but no! She didn't leave us all sad like that! Just as good as the first, and very much worth thr wait!

Enjoy!

*** Please note that I am playing "catch up" with some old and favorite reads! Enjoy my Backlog! ***

Debbie says

It's been over ten years since Reichert published the first Nightfall novel, The Legend of Nightfall, which I read in nearly one sitting last year. I must say that the sequel, while not as good as the first, still lived up to my expectations. Nightfall was back and jumping in and out the disguises that were only hinted upon in the first story. This time, Nightfall must find his kidnapped king while having a price on his, Sudian's, head. And unlike the first book, you get a firsthand look at just why Nightfall is such a feared persona in all the nations on the continent. Engrossing, well-written, well-paced, exciting... Typical Reichert writing. She managed to recreate the universe and characters I fell in love with and expand them. I loved it.

Janice says

This is a sequel to The Legend of Nightfall, which I read years ago. I had been resisting picking it up because I was afraid that once I read it, I might like it so much I'd have to read all of Mickey Reichert's books. I was right. Still working on that... But while her other stuff is quite good, there's a special place in my heart for Nightfall. So, when this book came, I had to have it right away. Took me a while to get around to actual reading it, but that's true of anything. It didn't disappoint. Highly recommended. But read Legend of Nightfall first. :-)

Davey says

This was a fun follow up. It continued to explore the main character and took it a step further by removing several of the constraints he was operating under in the first book. It managed to pitch a moral without hammering me in the face with it, which was very much appreciated. I highly recommend it, especially if you were a fan of the original.
