## From Reader Review I Am a Princess (Star Wars) for online ebook

### Jocelin says

I love the fact that this Star Wars Little Golden Book featured Princess Leia. It shows the littlest fan the importance of being a woman in a position of power. It shows that being a princess is an honor and a title that commands respect. Great book for any Star Wars Fan.

---

### Rainey says

LOVE. A faithful adaptation reworked to express positivity and courage. <3

---

### whataslacker says

Gives us a strong princess with great values. I good book for any little princess.

---

### TypewriterBelle says

Absolutely perfect.

---

### Fiction State Of Mind says

This was a lovely little read spotlighting all of Princess Leia's accomplishments with a nice nod to the prequels. Such a fun read and not even a trace of the infamous metal bikini! I hope they continue with these storybooks.

---

### Miss Shelley says

Because being a princess means being a hero.

---

### Ella says

Ok so my kid is not even one and is more interested in eating books so this is more for me than her but oh man I love it so much. Leia and Carrie Fisher are two of my biggest idols and if my daughter wants to be a princess then she can be one like Leia and that is pretty amazing.

---

### **EMILY TACKITT says**

Super cute book. I just had to buy it, especially after Princess Leia's (Carrie Fisher) untimely death. This is a great book to add to any collection or for any little Princesses out there!!

---

### **Valleri says**

My children are, unfortunately, so used to the dainty damsel portrayal of a princess that they were uninterested in learning about Princess Leia: a different kind of princess. A better kind, in my opinion. Princess Leia teaches young children what a princess is, how she should behave with valor and selflessness, and how she is a strong example for her subjects to follow. I love how this story takes the reader from the birth of a princess all the way to the ranks of a general in *The Force Awakens*. This was a very inspirational princess story unlike any I'd ever read before.

---

### **María Eugenia says**

Libro ilustrado para niños sobre la vida de Leia. Los ejemplos de lo que debe hacer una princesa (proteger y ayudar, enfrentarse a sus enemigos, liderar, buscar la paz, ser valiente, etc.) están sacados de las películas. Seguro que no soy la única adulta que se lo compró para sí misma. ;)

---

### **Deby Fredericks says**

I got this as a gift for my sister, who teaches kindergarten, but then I couldn't give it up. Yes, it's a movie tie-in, but I loved the message that a princess is a leader and not just a beautiful doll. Then the actress passed away. I may get another copy for my sister, but this one stays with me.

---

### **Emily says**

Describes a princess, using active words like strong, brave, take charge, etc. Encourages readers to be a princess like described, active. I like it! Basically says Woman Up!

---

### **Dan P. says**

Picked this up initially out of horror that Disney had turned one of my favorite heroines 'dainty' only to be pleasantly surprised by the abundance of girl-power in this book. I just read it to my 6 and 7 year old nieces tonight who were utterly engrossed in the brief story, exclaiming 'yeah!' at the turn of every page. The messages in this book are exactly what I want my two favorite girls reading. And the art is just wonderful. Very reminiscent of classic Disney Golden Book illustrations.

---

## **Kirsti says**

"A princess helps others and keeps them safe . . . A princess must always be brave."

---

## **Baby Bookworm says**

*This review was originally written for The Baby Bookworm. Visit us for new picture books reviews daily!*

Hello, friends! Okay, the Baby Bookworm family is all moved into our new home! There's a lot of unpacking to do, but we're hoping that we won't be missing any more daily reviews for a while. And to come back strong, we're reviewing a recent addition and new favorite to our home library, *Star Wars: I Am A Princess*, written by Courtney Carbone and illustrated by Heather Martinez, a wonderfully girl-power Star Wars spin on the classic princess storybook.

What makes a princess? What should a princess be? Leia is a princess, the daughter of a queen and a Jedi knight, and the adopted daughter of the Organa royal family. She's clever, resourceful, brave and kind. She knows how to take charge, lead others, and protect the innocent. She's an ambassador of peace, but knows when to take action and stand up to bullies. To Leia, being a princess means being a hero. How about you: are you ready to be a hero?

LOVE. THIS. I'm not sure you could pack more things we love into a book. A gorgeously illustrated, unapologetically feminist Star Wars book, a *Little Golden Book* to boot! It even cost us less than five dollars. I loved how the story encourages little ones to be princesses, but redefines the outdated notions of what a princess should be (no waiting around to be rescued by a prince for Leia's princesses). The art is fantastic, capturing beloved Star Wars images and characters in a colorful and approachable way for little readers. The length is perfect, and JJ really likes this one, as do I. A wonderful addition to any little princess or padawan's library, and we couldn't recommend it more. Baby Bookworm approved!

Be sure to check out The Baby Bookworm for more reviews!
