Vanishing Time Katharine Britton

Cama Truesdale's ex-husband and young son leave Boston for a "boys only" fishing trip in South Carolina's Low Country. In the early morning hours, Cama is jolted awake by a phone call. There's been a fire on board the boat. Her ex-husband is dead. Her son is missing and presumed dead.

As she sets off for South Carolina, Cama's belief that her son Tate is alive is unwavering. But her frantic search soon stirs up painful memories that send her reeling back to her childhood and the mysterious car crash that killed her Gullah mother and white father. As the clock ticks down, exhausted, haunted by dreams, and stymied by the police and local community, she enters a world in which she must rely on instinct over fact, and where no one and nothing is what it seems—not even the boundary between the living and the dead.

Vanishing Time is a tale about how grief can shape reality and the power of a mother's love.

I won Vanishing Time through a Goodreads Giveaway and the following is my review of this book. Against her mother's intuition, Cama Truesdale decides to allow her eight year old son, Tate, to go fishing with her ex-husband, Jake. They'll be traveling from Boston to Pawleys Island to go out on a boat for several days. What happens next is every mother's nightmare: there was a boating accident and they are both missing. Cama is from that area of SC, having grown up partway in the Black Gullah community where her Nana lived. She has certain characteristics inherent to the Gullah Voodoo culture that allow her to SEE what others do not. She KNOWS that Tate is not gone, but how will she ever get anyone to believe her? Read this novel by Katharine Britton and find out!

I returned from an extended vacation and found this wonderful book waiting for me! I received this through the Goodreads Giveaway program and am so grateful for winning! This is the first book I've read by Katharine Britton and I definitely plan on reading her other publications.

As you can see, I read it quickly. I had to force myself to put it down in order to take care of necessary tasks! The storyline, the emotional pull between the characters and the sheer beauty of the writing made for a wonderful story. Although it was painful to read, at times, it was well worth the need to reach the concluding sentence.

This is truly a must-read for lovers of literature set in the South. Especially if you love a story that transcends time.

This is a very well written story about the very strong bond between a mother and a child. Cama leaves no stone unturned to get the answers she needs so badly. All of the characters grabbed me and I loved trying to decide who was real and who was in Cama's mind. Added to that is the intriguing mystery around the events that happened, both past and present events. The uncertainty (at least in my mind) of who the "bad guy" really was kept me reading long after I should have been doing something else. I will definitely read other books by this author.

I received a free copy of this book from the author in exchange for an honest review and I am very grateful to her.

Story of a woman searching for a vanished son. I liked the writing and the individual scenes, but I found Cara too alien to really identify; she's a devoted mom to her young son, the kind of woman who sniffs her kid's laundry when he goes off for a trip with his philandering dad. She's confused by visions and ghosts when lurching around South Carolina, so she decides to muddy the waters by drinking bourbon before

driving off to an assignation with an old spirit woman. The people around her, while sympathetic, clearly think she's loony. There's a romance set up with the controlling man who lies to her to protect her from her feelings, but no one else seems worried about that so maybe he is perfect for her. Also, Cama behaves horribly to her best friend, which bothered me.

Irene anderson says

"Tate's pyjamas on the floor at her feet looked as if a child had melted out of them."

I can't remember ever reading a line in a book as poignant as this one.

Cama is in her son Tate's room. Tate has gone on a fishing trip to the Low Country South Carolina with his father and Cama's estranged husband Jake.

It is not too long before she gets the call that all parents dread.

There has been an accident, Jake is dead and Tate is missing. So begins Cama's frantic search for her son. She must also face her past in The Low Country where she was raised and the tragic accident that took the life of her parents.

In her desperate search for Tate she must come to terms with the fact that he has not survived.

With the help of many local characters helping her, a most exciting novel evolves.

My only regret in reading this novel was that I did not have the luxury of reading it in one sitting. It never left my mind during my time reading it.

I am also very happy to have discovered Katharine Britton whose other novels I am looking forward to reading.

I received a copy of this book in exchange for a review.

I think one of the biggest compliments you can give a book is "I couldn't put it down". I read this in a day, because I didn't want to put it down. I just loved the main character, Cama and how she demonstrated the power of a mother's love for her child. I also enjoyed the beliefs in spirits, the culture of the south and the overall suspense. It is a book to definitely put on your "to read" list.

South Carolina's Low Country made a beautiful setting for this suspenseful novel. Cama's search for her missing son kept me turning the pages. I'll definitely look for more books from this author. Thanks to the author for a review copy. This was my unsolicited review.

Janice Kelley says

I found this mystery to be both riveting and heartbreaking at times. "Vanishing Time" calls to mind all the passion with which 911-family members, photos in hand, held onto a thread of hope while searching for

loved ones. Plus Britton's story offers a beautifully written glimpse of one of America's diverse, yet vanishing subcultures dense with intriguing superstitions and the supernatural. She writes of the truth of the "divinity of motherhood": divine hope, divine faith, and divine agony.
