Aligned: Volume 1

He's an arrogant complication.

I don't care if Landon Davis has sold millions of records. I don't care that his damn crooked grin makes my panties wet.

I can't want him.

I should be mourning, but I can't. I just need him gone. Then I can align the chaos floating in my head.

She has a f*cking boyfriend.

I've seen the picture of them together. But Alex Blakely still wants me. And who am I not to oblige when her body is begging for me?

I need one night to own her body.

I should be focused on getting my career out of the gutter. I'll take one night first. Then I'll be gone.

Aligned: Volume 2

My mind is a mess.

I can't live this way anymore. He thinks I've told him the worst, but I've barely told him anything at all.

I can't love Landon.

He just brings more confusion. I need to leave. Then I can break through the chaos that haunts me.

My mind has never been so clear.

I'm writing new songs faster than ever before. I'm falling for her, even as the secret that I've kept hidden for years threatens to reveal itself.

I can't love Alex.

Everyone will know I'm a monster. I'll stay away. It's the only way.

Aligned: Volume 3

He's alive.

I don't know how, but he's standing here in the doorway. A torn piece of green silk sticking out of his pocket matching the fabric that I carry with me everywhere to remember him.

My heart has been torn in two.

I don't know who I'm supposed to love. A man that has stolen my heart or my husband who I thought was dead.

-- --

He's f*cking alive.

That can't be possible. I found someone I could finally love. Someone I want to spend the rest of my life with.

But I can't love Alex.

Not now. I have to let her go. It's the only way I can save her. I just hope I'm strong enough to save myself.

Aligned: Volume 4

I know who tried to kill me.

The same man that raped me is the same man that tried to kill me. Twice. I have some evidence, but not enough. I want revenge, but every step I take towards getting that revenge I feel myself drifting further from Landon.

I'm going to lose him.

I'm going to lose everything that I care about. All I can focus on is revenge. Maybe then I will be able to put the past behind me. Maybe then I can truly heal. I just hope I don't lose him and myself in the process.

— —

She's pregnant.

Caroline has always held my deepest darkest secrets, but now she thinks she has another one. One that could control me. I can't be a father though.

I'm a monster.

The baby can't be mine. If it is, I already know my future. I'll lose the woman I love. The only woman I've ever wanted.

From Reader Review Aligned: The Complete Series for online ebook

Cheryl Graham-Petit says

Aligned: The Complete Series by Ella Miles is about two damaged souls haunted by their dark pasts. These "hold on to the edge of your seat" stories are filled with tragedy, mystery, heartbreak, drama, suspense, some twists and turns, secrets, revenge, great chemistry, hot sex scenes, and lots of emotion.

I volunteered to review an advance reader copy of this book.

Kristen Lewendon says

Volume 1

There is so much emotion and so many secrets contained within this little novella. Alexa was involved in a car crash that stole everything from her but left her alive. Landon's a playboy musician with dark secrets he's hiding from the world. The connection between them is nearly instant and overwhelming. Neither knows what to do with chemistry they shouldn't act on. I'm very glad I can move on to the next part of the story immediately. I think I might have lost my mind if I had to wait to read more of this story.

Volume 2

The pain and secrets just get deeper and darker. Both Alexa and Landon are a mess. Neither one feels in control of their life anymore. As their feelings for one another get stronger, forces outside their control are working to tear them apart. Can they find their balance point together or will those destructive forces win? With the cliff-hanger this episode ends on, I'm more anxious than ever to read the next installment.

Volume 3

This installment is much longer than the previous ones, and it needs to be because there's so much that happens in this one. I don't even know how to write a review of this that doesn't spoil what few answers we're able to glean or the twists the plot takes once you're inside. Everything we had come to believe in the previous two books is brought into question. Somehow the emotional turmoil and secrets that were already overwhelming get even bigger. Can Alexa figure out who she really is? Will Landon get his forever love? Watch out for the sudden stop at the end of this book. The cliff we're left hanging from is very steep.

Volume 4

I'm sitting here looking at the blinking cursor and realizing I haven't quite recovered from the book yet. I'm wondering how do I put into words what I just went through and make it more meaningful than "it was good"? Definitely not for the faint of heart. This episode, more than any of the others, contains scenes and subject matter that may be difficult to read, with some themes that aren't "nice" at all. I'm so very glad to see all of the questions answered and everyone gets exactly what they deserve, but I'm left a little numb after everything this book put me through.

Fernanda Arias says

Amazing

I loved it! I could not stop reading, I just had to find out what happened next. I loved and hated Alex and Landon throughout the book. But even though they were frustrating at times I never stopped rooting for them

to find a way. Drew and Caroline were great supporting characters who stayed relevant throughout the whole series.

I was not expecting this series to be such a deep and emotional read. If you are trying to decide to read this or not just go for it you won't be disappointed.

Thuy Taylor says

Wow! There are so many twists and turns in this book. I couldn't put it down. Alexa and Landon have so much chemistry from the get go. I felt so much pain for Alexa. She really endured so much prior to the accident. Landon and Alexa really needed each other whether they knew it or not.

Caroline's character(the ex girlfriend), I despised but she somewhat redeemed herself in the end, and when I say somewhat, she is still conniving. I don't think I could get over her manipulations that easy.

Drew(Landon's twin), seems like a pushover. Ethan(Alexa's ex) is a piece of work!!! Like, WOW!!!!

All in all, it kept me super interested. The book(s) went by real fast, no boring stalled moments. I enjoyed reading it very much. Definitely recommended!

I received this complimentary book in exchange for my honest opinion.

My review is 3.8 stars for the entire series.

If part wise:

Aligned #1: 3.6 stars

Aligned #2: 4.0 stars

Aligned #3: 3.9 stars

Aligned #4: 3.8 stars

Aligned #5: 3.7 stars

When I started the book, I was thinking, if I made a mistake to start this series. The characters from the book were not so good, and I was unable to feel the special connection with the characters. But as the story developed more and more, I felt good about the story & the characters and my interest grew page by page.

Talking about the story, first of all, the characters - all the characters had felt pain in their life and searching for a relaxing ground to hold, a hand that can soothe their pain. I liked all the character but at the same time, I hated them at the same time. Throughout the book, there were moments when I was in the midst of liking the characters then suddenly a twist and I started disliking them. I think this is the quality of the author. I felt that I like the character of the story when the author wants me to. For that, I'll give full credits to the author.

Now, story, the story of the series is good, full of life & the special thing 'twists', lots of them. These twists made the story beautiful, interesting and attractive at the same time. I liked how the story developed from Book 1 to Book 5, in every aspect. The twists were cherries on the top of the cake. The pace of the story was also good in the whole series. If you start reading the book, you'll never feel that the book is becoming

boring and you are losing the interest in characters or the story or the plot. You'll feel bound in the story.

The way author put down the story, the way author wrote the complete series is much appreciable. I love the author style of writing the whole series down.

I would like to recommend the series to those readers who want to see everything in a book i.e., pain, love, drama, romance, thrill, twists and much more.

A Review of Aligned Box Set by Ella Miles

Landon and Alex - 4.5 Stars

What a wonderful series this turned out to be. Just when you think you know where the story is going the author throws a couple of twists and turns that you don't expect, enough to keep you on the edge of your seat and reading way past your bedtime. You will need to have a box of tissues ready for parts of the story, but what a series this is.

3.5 Stars

Relentless drama, both MC's extremely emotional, sometimes somewhat unbelievable responses to depicted situations...not a bad story but maybe just so much packed into one series...maybe it would have read differently as standalone books instead of the complete series in one? But then you have the cliffhanger effect...maybe this is just a case of "its me...not you."

I received a free copy of this book however, this is my honest opinion.

What a brilliant set of books!

Alex(a) and Landon's fast-paced, heat-fueled, mystery laced with dark and disparity had me from the very first page it did not want to let go!

Fascinating storyline, with strong, well-developed characters, following along on their journey of backbreaking soul healing with the many dangerous, and some not so dangerous obstacles that stand in their way was amazing!

I almost did not want it to end!

A unique web of feels by Ella Miles I highly suggest checking out for yourself!

Alex has lost her leg in a car accident as well as her husband. Landon is her neighbor and a rock star with a twin brother for his manager. Alex and Landon are attracted to each other but she doesn't want to let anyone inside her heart. This was a good read and series. Keep tissues handy while reading parts of this story.

Not having read other books by the author before, I was impressed with just how well she executed the book. There were a lot of twists and turns in the story that I did not expect and that had me reading nonstop until the very end.

In the story we get to meet Alexa Blakely, a renowned photographer whose career had to be put on pause after she ends up in a car accident. The accident was so severe that the doctors had to amputate one of her legs which changed her life forever. Now she has to use a prosthesis and attend therapy in order to get back to life. But what caused her more pain is the memory loss that she had to endure after the accident and now she has no recollection of the husband she once had. But when she moves back to her apartment in L.A. she stumbles upon Landon Davis, her neighbor who happens to be a famous musician (but she doesn't recognize him right away). It is his friendly attitude and good looks that intrigued her, but she knows that any kind of relationship with him will not end well. Alexa is trying to move on with her life, but having everyone around her remind her of her husband is making things difficult for her. Nevertheless, Landon always finds a way to be there for her and their relationship turns friendly right away. As the two start to spend more time with each other, the more relaxed she becomes around him and the more her feelings start to grow for him. But there are things in her past that could potentially hurt their relationship and she will not stop until she figures out her past before it's too late.

Landon Davis is a famous musician who has no trouble attracting the opposite sex, he has the money and looks to get just about anything he wants. But even with all the power that he has, he still can't get himself out of writer's block and if he doesn't release a single he will find himself in trouble with his label company. When he meets Alexa Blakely outside their building, he is immediately attracted to her. She is feisty and her no nonsense attitude is what makes him want her even more. Landon knows that Alexa has been through so much pain and he wants to be there for her, but he is keeping things from her that could change the course of their relationship if he doesn't tell her. As the two find more things in common with each other, the harder it becomes from him to not fall in deeply in love with her. Now it'll be up to them to decide if they can have a future together after all or not.

I truly enjoyed reading Aligned, it was well written and the pace truly made the story that much more interesting. Both of the characters are flawed and have their moments throughout the series, but they also manage to evolve towards the end. The amount of twist and turns in the story had me hooked and invested in the characters. I wish the author could have elaborated on some of the scenes, but it still worked out in the end. I would highly recommend reading the series and the after story (if you sign up to the author's emailing list)! :)

Rhonda Hicks says

Be prepared when you start this series to become fully vested before you ever finish the first book. Ella Miles will take you on a journey that you will not soon forget with characters that you will either love or love to hate but don't make your mind up too quickly, things change often and people are not always what they seem.

This was one of the best series I've read in awhile and think perhaps Ella Miles has outdone herself with it.

Tina Lee Harris says

4 stars

Let me start by saying that I was unsure what I had stumbled upon; Volume 1 was free on amazon so I figured why not, it sounded intriguing. Well after consuming Volume 1 in one sitting, I had to go ahead and buy the rest of the volumes in this pretty little packaged deal for a great price. Needless to say, I devoured Volumes 2, 3 and 4 all night and early into the morning. I think I had maybe 2 hours of sleep before it was time to get the kids ready for school.

I would recommend this book to my friends and readers. It seemed to have it all. Suspense, drama, love and heartbreak. I liked the characters. I liked the way Author Ella Miles was able to bring them all together. The banner between Alexa and Landon keep me on my toes to see what they would say to each other next. Then throw some past into the mix and life for Alexa and Landon gets very tricky. I continued to turn pages, I had to see what they would do next and if the past would become the future for Alexa and Landon? Leaving them both heartbroken.

Crystal N says

I really liked this series. It moved at a good pace and the characters were interesting, flawed, but believable (for the most part). It kind of reminded me of my very favorite series Jack and Jill by Jewel E. Ann, which if you haven't read it, just do it. Right now. Then get back to this review.

Ok, I think the reason this didn't rate higher with me is it didn't quite evoke the emotions I require for a five star review. Oh yeah, I felt a lot of dread throughout the book, but there were certain things that didn't quuuuuute work for me. Like frankly, I was expecting Landon's big secret to be more of a 'oh wow' twist, and for me, it really wasn't. Also - and I'm surprising myself, I didn't cry much during these books, even though I was invested. So it's more of a 4-4.5 than a straight up holy five stars.

Anyway, I do suggest people read this series, it's gripping, hard to put down and I'll be looking into more of this authors work.

Allison says

As I read this as a set, I would have to say that I would have been frustrated had I read this in parts as it was released. The breaks between parts were placed well to "hook" the reader into the story and crave more. Alexa was likeable, strong willed, no nonsense, with a little bit of crazy mixed it at times. Landon was flawed, but likeable and endearing to the reader. Their relationship progression seemed quite fast, but, otherwise, was well-written. The introduction of the third main character was interesting and added to the suspense of the story. The climax of the book could be considered a bit graphic and hard for some people to enjoy. Overall, this book was a good read that I enjoyed.

Laila Viking says

Very well written stories with a great storylines and plots. It does not disappoint. Follow the characters from the first story to the last and get to know them. Absolute an amazing journey but enjoyable. It contains amazing stories that has a lot of chemistry, secrets, surprises, action, drama and passion in them. They are rollercoasters of emotional ups and downs. You scream, cry and want to shake the characters sometimes to get them in the game.

The stories have some unsuspected twists which only makes them much better.
