I devour Blood Match, this series is so addictive.I loved it, it was brilliant from the beginning till the end!

Blood Match started a little bit slow but this shouldn't worry you because once things pick up you'll not want to finish this book!!It was a fantastic read, like the first book and I'm aching to see what will happen in the next book!

If you like paranormal romances, this is a must read!K.A. Linde did an amazing job and I wish that we will have more books like this from her!!

## Jen says

Book two in the "Blood Type" series turned out to be even more exciting than the first! The end of the book was so shocking, I had to immediately begin the third and final conclusion to the series!!! The cliffhanger ending is exactly why I prefer to wait until the trilogies are all complete before jumping into them! I am certainly thanking my lucky stars that I waited for this trilogy to be complete!

I highly recommend this paranormal romance to readers who love this genre! It is unique, exciting, and full of surprises! The relationship between Reyna ( who is human) and Beckham ( who is a vampire) is primal, and they are truly meant for each other. The unfortunate part is that they have so much going against them. I really hope that there will be a positive outcome for these two; but at this point...I have no idea. I am glued to the pages though, and am dying to get through book three to see what is all going to happen!! I can't stress enough how awesome this series is!! Time to get back to the conclusion!!!

### Initial Thoughts

I didn't like this one quite as much as the first book but I did find it quite enjoyable. This is definitely a series that needs to be read in order and it picks up just after the events of the first book. Reyna and Becks were both great in this one and I also really enjoyed the secondary characters. I wish that the third book was available since this book ended with a rather tragic situation.

Full review to be posted soon.

**MY REVIEW** can also be found on my blog:  
**KITTY KATS CRAZY ABOUT BOOKS**

**'BLOOD MATCH'** is the second book in KA. Linde's 'Blood Type' series and is a continuation of Reyna's and Beckham's riveting story..

As we saw in the previous book as a last resort Reyna had decided to work for Visage out of desperation, her brothers were working hard long hours in the warehouse district where they lived, and she couldn't get a job anywhere without a college degree, let alone even afford money to go to college after the depression ripped through the country. Which is how her new job became the live-in blood escort for the intimidating, demanding, and devilishly handsome Beckham Anderson.

Blood Match, picks up right where Blood Type left off, where she'd run off out of Beck's penthouse after he'd bitten her and had run straight into the arms of her kidnappers of Visage. Now held captive and used

solely as a blood bag due to her very rare blood type, for one of the most powerful vampires of his time. Fifty six days she'd been poked with needles, fifty six days she'd had no access to the outside world. She knew nothing of Beckham or her brothers.

The only thing keeping her sane was her reunion she'd play over and over inside her head when she'd see Beckham again.

Reyna has lost that naivety that clung to her like a cloak, now she's become hardened by the harsh reality of living in a vampires world and is nothing like the heroine we saw in the previous book.

This does start off slowly but as you progress further into the book more information comes to light. Like book#1 Reyna still had a penchant for finding herself in trouble. New alliances are formed and old enemies are still trying to strike out. And absolutely nothing could prepare me for how things ended, my love bubble was burst, my mouth was hanging open in shock, the unfairness of it all sank in, surely it couldn't be right, surely that's not how it really ends. And like everyone else before me we're all wanting, needing the next book to get us over this cliffy. I thought Book#1's cliffy was bad but the way this ended was brutal.

**“I care more for him than I ever will for my own life.”**

**Blood Match** is the second book in the Blood Type Series. The series must be read in order. A paranormal romance with passion, action, and complex characters, **Blood Match** offers a breathtaking, heart-stopping, gripping story that you will not be able to put down. Reyna Carpenter has been kidnapped and has been ripped away from Beckham. The battle between right and wrong has heightened and Reyna and Becks are in the fight for their lives. As Reyna longs for Becks to rescue her, Becks is desperate to keep her safe no matter the cost. Reyna finds herself reunited with her family and friends and is immediately thrust into the center of the rebellion. But with every victory, there is a loss. The stakes are high for Reyna and Beckham to simply stay alive!

**"She drank him in like a person lost in the desert, seeing a mirage, and drinking the sand to satisfy an impossible, unquenchable thirst."**

Told in dual POV, **Blood Match** is a fast paced action paranormal romance with a strong alpha hero and a spunky heroine . The plot is quite complex and as the plot continues to develop, there is more intrigue. The tempo of the read is fast paced and as the passion between Becks and Reyna continues to grow, the depth of

their love only grows stronger!

Overall, I highly recommend **Blood Match** to anyone who enjoys a well crafted paranormal romance. Be forewarned, **Blood Match** ends on another cliffy! I am dying for the third book!!!! K.A. Linde is a new author to me and this series has captivated me completely!

Well hell...

What am I supposed to do with my life now? ??

The drama and excitement are certainly amped up in this installment of this captivating series. Reyna finds herself in a most difficult situation, but fights her way through.

Here's what I loved:

The introduction of new characters. Seeing more of the resistance and how they're working to right the wrongs was fantastic. This book has a lot more social commentary than expected. The romance actually feels like a secondary character. It's an engaging read.

Obvi, I love Beckham. The progression of his character and relationship with Reyna were exactly what I wanted. I needed to see his conviction.

Same with Reyna! I needed to see her dedication to her man and the cause. I loved her in this one.

The ending left me sobbing in my Cheerios, but I trust this author to put me back together again.

If paranormal reads are your jam, you have to read this series!

KA Linde is killing me with this series. KILLING ME! The 'Blood Type' series is so addictive and consuming. I can't get enough! I thought the first book ended on a cliffhanger... well, I hadn't seen anything yet! The ending of this one... gah! I die. Thank goodness the wait between these books aren't long!

Reyna Carpenter was not in a good place when we last saw her. Life was not turning out how she planned and she was in real danger. This story took off right where the last left off. My heart was beating so fast and I was so anxious for how things would turn out for Reyna. Just as I thought things were calming down, BAM. Something else happened that shocked me.

Reyna and Becks. I love them together. Seriously, I can't imagine a world where these two don't end up together. They're meant to be. Their connection is more than just sexual, they are a true match in every sense. You can feel it. I don't know where the next book will go, but I have to have faith things will work out.

This has to be one of the best paranormal romance series I've ever read. They've captivated me from the start and always leave me wanting more. Kyla has done an amazing job with the characters, story line, and of course- the angst! I highly recommend these books to anyone who enjoys PNR!!!

## **Lover of Romance says**

\*May Contain Spoilers—Readers be Aware\*

Blood Match is the second book in the trilogy and after the ending of Blood Type, I jumped pretty quickly into this one here. Seriously...if you want to read this trilogy—which anyone that loves a paranormal romance—you want to trust me; but you do want to get all three books in hand you don't want to deal with the cliffhanger and not have the next book to read.

So just to recap what happens at the end of Blood Type (and yes this review contains spoilers so just skip ahead to the bottom of the overview if you don't care for spoilers)

At the end of Blood Type, Reyna has been kidnapped by Harrington when she was betrayed by her friend Elliot. At the start of Blood Match, Reyna has a beautiful dream of being with Beckham, but then she wakes up in her reality where she has been held captive for two months by Harrington. He found out that her blood, is a rare blood type, perfect for him and he feeds off of her once a week and gives her his venom in return. But Reyna never gives up hope that Beckham still loves her and is searching for her. But she is starting to lose hope. She tried to escape once, and was shocked literally because Harrington implanted her arm with a device where they track her movements. We see the torment and the effect of being held against her will in a glass cage and how the love she has for Beckham changes her.

Every breath and every heartbeat and every minute of every day was spent waiting for you.

But when Reyna starts to fight back against Harrington and he shows her into a room, a room where no one can see her, she sees through a window, a ball and she gets an eyeful of Beckham and calls out to him and even though he can't see her, their gazes connect somehow and in that moment, new life breathes into Reyna. She begins planning to escape but right when she thought she might never get a chance, she is surprised when a new nurse busts her out of her jail cell. They flee Visage Headquarter and rescue one other girl and the team that rescues Reyna will be some of her closest allies.

Reyna is then taken to the ELLE headquarters, Elle is the rebel base for those fighting against Harrington and his regime. She is brought to base expecting and hoping to see Beckham but he is not there, however she has

a beautiful reunion with her brothers and she never knew if she would see them again or if Harrington would kill them but thankfully we learn that Elle got to them first. But on her first day back, free, she learns that Beckham is engaged to Penelope, although she doesn't know if its for real or fake.

But then when she least expects it, she wakes up to Beckham sitting on her chair in her room, and she is shocked to see him. But things are tense between Beckham and Reyna, and her emotions get better of her and they both make mistakes, and Beckham leaves which leaves Reyna feeling empty and full of regret.

Reyna then meets the head of ELLE, who is a vampire woman and a strong leader. She is strict at times and very controlling and calculating. And is adamant that Reyna stays contained for her own safety. But Reyna has been in her own kind of hell and prison for months and needs freedom. But when she takes the risk with two friends, she almost risks everything when she runs into an old friend who betrayed her Elliot. Even though both Beckham and Sydney (head of Elle) are furious with her, she stands up to them and she and Beckham finally get a chance to be open and honest with each other and their relationship begins anew.

When we were together, when you bit me, it was the best moment of my life, Becks. I trusted you. I told you I trusted you and then I spit in your face. I was wrong. You showed me the real you.

I found this installment to be just as good as book one (or almost) it definitely is quite different and we see the emotional and mental after effects of imprisonment and torture that Reyna has to overcome. We see the strong connection between Reyna and Beckham especially when we learn that their blood is perfect for each other and they have a rare case of being mates. We see such a strong bond of trust and affection form between them, they both have loved and lost so much, but finding each other again breathes new life into their relationship but unfortunately they will be tested .

Beckham was imprinted on her heart

The ending was spectacular and intense and way more cliffy then book one ended in...and honestly if I didn't trust that book three would end happily, I would have been more than upset but thankfully I knew I had book three to pick up the story with or I would not have been a happy camper at all!!!

Holy Hell!! Kyla - you have definitely outdone yourself with this series!! WOW I am loving that this series is very unique in it's tale and the spin that Kyla is taking on with vampires. It just makes this series so much enjoyable.

Blood Match starts out with a bang (or fang lol) and not once does this story line ease up at all. WOW! I love the pace of this story so much - pulse pumping and so intriguing. I felt my heart racing the entire time I read this book - so engaging and enticing.

Blood Match starts off where Blood Type ends. Reyna finds her in the prison of Visage - she is truly what she signed up for - a blood donor. However, it's not the in way she anticipated, not that she minds in anyway. However, Reyna feels that he life is nothing since she does the same thing day in and day out with no escaping it. Until she is given the chance to see another side of Visage.

Reyna thinks things couldn't be worse than they already are for her but has no idea how truly depraved and conniving Harrington really is. Beckham is trying to keep up pretenses with everything while also trying to win Reyna back into his good graces.

Kyla does not let us down at all with the second book in this series. There is so much still going on within this world and so many questions about things. I love all the new twist and turns she gives us. Kyla leaves us hanging on to each page as we read, desperate to know where things go from here. And that ending - OMG!!! I need book three NOW!!!

It was ok...just really OTT and I got super bored. It was a near DNF but since the book isn't too long I finished it. Honestly, every character in this book is annoying.

The heroine is so good and so perfectly naive....

The hero is a douche who kills his ex-lovers but with the heroine, he doesn't kill her after they sleep together.... he is such a dream!!!

The side characters:- I already forget them....

Holy.

Fucking.

Shit.

That is all.

I'm dead. I'm dead. There's nothing left in this world for me. I've died.

Going to read book 3 now. If I'm able to find my lifeless heart.

I can't right now!!!!!!!!!!!!!!

I am broken!!!!!!!!!!

Amazing!!!!!!

I finally managed to get my feelings on check to write this review. I seriously had to think long and hard to come up with words that would do justice to this book. I am still in shock. I am still broken. Probably will be until I get book 3. FYI, I need book 3 so K.A. Linde, you better hurry up. I am in pins and needles. I came up with all kinds of scenarios to justify the ending of Blood Match but I just cannot. K.A. Linde, you are one cruel lady but still a genius. Your ability to write a refreshing continuation to a highly charged and action packed paranormal romance is astounding. I love paranormal romances but Blood Match definitely cemented why I love them. The sizzling scenes. The escapism. The danger. The unforgettable and luscious characters. Blood Match COMPELLED my mind, REJUVENATED my soul and FED my heart. Blood Match is a

devastatingly beautiful paranormal romance that will leave you tongue tied. I am still trying to pick up the remains of my heart from the floor.

Blood Match is the second book in the Blood Type series and picks off where we left in Blood Type. New alliances are formed. New characters are introduced, Survival is the new game. I am not going to lie but Blood Match killed me. Every page sunk me in so deep. Every sentence was deadly to my inhibitions. I was wretched. I was ruined. I was turned upside down. Wicked. Fiery. Dangerous. Sublime. Exciting. Blood Match was a brilliant and high paced paranormal romance with a blazing plot that captivated me. Blood Match was a story of paranormal love. It was a story of survival. It was a story of a battle between good and evil. Man, I indulged this story. I inhaled this story. I ate up this story. Blood Match caused an inferno in my soul. Blood Match opened a big hole inside me. K.A, Linde, you are incredible. Your writing is unique. Who knew a paranormal romance written by you could touch me like this. K.A. Linde's words just pull you in. She just makes you escape with an epic and different vampire tale. Blood Match was a well written book filled with angst, twisted secrets, intensity and a breathtaking romance that will ache you.

I love Reyna and Beckham. I am so head over in heels in love with them as their relationship develops. I freaking adore their chemistry. It is heavy. It is sexy. It is smoking. It is intense. And boy, did it make me quiver. Reyna and Beckham as always just bring sexiness and life to the story. Reyna is freaking amazing. She is a spitfire. In this book, she goes through a lot that can damage one's soul but she comes back ready to fight and protect. Like always, she is impulsive and gets in trouble. K.A. Linde made me lust for a vampire. Hard. I lust for Beckham. He is strong. He is powerful. He is broody and violent. I just want a piece of Beckham all night long. Is that okay to ask because I am just addicted to him. To his protectiveness and possessiveness over Reyna. To his vampire nature that makes me hot. Beckham definitely makes my ovaries sing to his tune lol.

K.A. Linde, I need book 3 like yesterday. I am coming with all kinds of scenarios and theories. I will not rest until I have book 3 in my kindle.

Blood Match

**5 Soul Mates ... aren't always forever** stars

.. seriously..

I read book 1.. and was like

I seriously cant believe this author went PRN and ACED IT!!! Omg!!

This book takes up at the end of book one Reyna and her new normal. I don't want to mention it in case you haven't read book 1 ( you must read the series in order FYI)

Reyna is subjected to emotional and physical trauma for 18 days and finds Jodie in the mix of the torture.

The two bond together as any two people would given the circumstances. The heartbreaking hope she has in Becks.. the heartbreaking destruction caused by Becks...

The world is collapsing around Reyna...

the book ends.. and I am so devastated heartbroken

This book may have its flaws but the addiction quality I had while reading it was amazing. I cried so hard I opened book 3 immediately and cried through the first few chapters before I realized I was way to emotional and needed a day off ... please author.. don't end this series.
