In this book, thoughts of Jack Ma is put into the display. The way he thinks, how is he runs the business and most of all, his vision for the future world.

The book is simple but very effective business philosophy it depicts. Overall, a great read.

---

### **Bagus Anugerah Yoga says**

#### **Marvelous**

Simple, but stunning! A great account of Jack Ma's life philosophy. A worth reading for anyone who wants to get better insights on business philosophy, but do not have much time to read biography-like books.

---

### **Larry Blanco says**

#### **The best true to life book to learn from.**

This book is inspirational it speaks to what life and persistence is about and not the quickest way like our society has made itself, "I want it now never mind working, never mind learn and waiting based on our abilities, the now generations will reap what they sew".

This book spells out the reasons for living and doing business ethically to reach out most of our wanted desires.

---

### **Mike Saunders says**

While the quotes from Jack Ma were interesting to digest, the author does not expand on them well and at times seems to promote himself instead of the work of Jack Ma.

---

The book felt a bit self promotion, using Jack as a sales mechanism. However, it's a quick read with a few worthwhile nuggets.

---

## **Syed Mujtaba says**

### **How to be a perfect entrepreneur**

This is what the book teaches us. Jack ma quoted many times related to approach towards his business and what made him so successful and this simply gives brief description why did he quoted certain lines. 4 stars because this gives only abstract knowledge of entrepreneurship not actionable knowledge. A good book for any struggling business man

---

## **Maria says**

Inspiring. A man with an outstanding vision, great leader, goal and result oriented. The book has some of the best quotes from Jack Ma.

---

## **Nataliya Stelmakh says**

#40\_Books\_A\_Year

Quick & easy read about China's richest man. "Intelligent people need a genius fool to lead them. His way of thinking is different from scientists" "I dont want to be liked. I want to be respected".

---

## **Tony Tomlinson says**

Book could be much shorter in terms of amount of pages, very spaced out, however very easy read, finished in around 25 mins.

I didnt really take much away from this book other than a few quotes made by Jack Ma, im also not that sure why this is even a book, the content doesn't teach you much other than the quotes which most have seen anyway.

Maybe im being harsh I don't know, I liked some of the quotes anyway.
