I read a few of these, but they don't compare to the Nancy Drew Files or the Nancy Drew classics.

Jane says

My first Nancy Drew book and I must say that I'm not all that impressed since the story seemed simplified and just plain silly to me.

I wonder if I had liked the book more if I had started with the Nancy Drew series a bit earlier - both age-wise, for instance, had I been 10 years old, I would've probably liked it better, and also had I started with the 14th book in the series instead of the 104th, the characters would've maybe made more sense to me and maybe I could've gotten the humour behind it all too. The way it was now, the story just felt too simple and simplified for my likes. I didn't understand all that well who all those side characters were and to be honest, I may or may not have mixed a few of them up a couple of times.

But would I recommend the book? Maybe to people who like their mystery stories short and really simple, otherwise stick to the classics such as Agatha Christie.

This ND mystery was different in that it stemmed from an actual modern historic event--the Vietnam War. Contained the usual running Nancy off the road but no head injuries, just smoke inhalation for which Nancy was actually treated at a hospital, and no bickering between Bess and George. A good story.

Masab Ali says
