UGH curse you Rachel Caine for not getting Claire and Myrnin to hook up!! aadfhaslkdfhaslkdfjhf!!!

Hmmm okay so now that that's out of the way what can I say bout Bit Club, it was not as great as the others but I still read it in a day and will no doubt be reading the next one. [I only wish it had more crazy Myrnin *enter dreamy sigh*]

Okay so it was weird seeing in Shane's POV but I quickly got used to that, to be honest I'm really pissed of at Shane. He's annoying me so much. He needs to get over Michael being a vampire like...NOW because it's annoying, just build a bridge and get over it.

I felt kind of bad for not really being mad that Shane was not present in the book, to be honest I thought Claire was stronger without him. I was also happy for Claire to have more scene's with Myrnin ^_^ Claire neeeeeedddssss to get with Myrnin now or I might die...just a kiss or **something!** If she doesn't want him I will gladly take Myrnin, bunny slippers and all.

[image error]

Alright so lets get this straight, Shane go away, Claire fall for Myrnin because I'm really starting to think he likes you and lets be honest a lot of people only read this book for awesome scenes with Myrnin <3 .Eve you and Michael are perfect (view spoiler)

Can't wait for the next one! Shane go die in a hole (: Myrnin...keep being you <3

I wonder if this would work?

Dear Rachel Caine,

I really loved Bite Club but I notice an error (or rather a few) in it. I don't know if you did it or some out of their mind editor but there was only one nekkid Shane scene and by that I mean Shane getting nekkid scene. How could that happen? Are you trying to drive us crazy? Now I know how much you love your fans and hate to see them unhappy so I thought of a solution to make it all better. In Last Breath you should include a nekkid Shane scene in each chapter (and yes I mean Shane getting nekkid) and then I think we will be okay and I will let the whole Bite Club thing slide. I am also pretty sure me and my friends would buy ten copies each if you did that.

Yours faithfully

Nic

02.05.2011 PRE-RELEASE SELF-HYPING UP

---> WARNING WARNING WARNING <---

Dear friends,

With the release date of the 10th Morganville installment coming up, I'd like to take this opportunity to apologize officially – in advance – to all of you for my upcoming behavior during the next few days. With a probability bordering on certainty, Bite Club will turn me into a total fangirl. There will be squealing, there will be flailing, there will be lots of Oh-My-Gawds and sexual innuendos concerning the male characters. Consider yourself warned.

Love,
Jess

05.05.2011: REVIEW

Hmm, I will have to think about this. Bite Club definitely felt different from the rest of the series and I'm not quite sure whether or not I'm happy about this change and there wasn't nearly enough Nekkid Shane time but still, it's *Morganville*. I just love those books! Don't think I can be trusted to come up with an objective review but I'll try ;)

Lora says

Actual rating: 4.5 stars

Notice: This review is completely subjective, bias, and is written by a total Morganville fangirl.

There's trouble in paradise - or rather, *Morganville* - which is just about as far from paradise as you can get. Nevertheless, things have been going well for Claire and her housemates. Sure, Frank, her boyfriend Shane's once thought dead father is really alive - and Claire's forced to keep the secret from Shane by none other than Frank himself. But things could be worse, in a town like Morganville. But as Claire knows all too well, things are never easy going in Morganville for very long.

Everything starts getting shaky again when a boy from her science class is found murdered, Shane starts acting strangely violent and aggressive, and a new pay-per-view internet show featuring vampires vs. humans in extreme fighting hits the Web - and Shane is one of the humans.

I'll admit that it was hard reading about Shane getting lost in the fights and in Glory's eyes. That bitch. I apologize for the language, but there really is no other way to describe Glory. My homicidal tendencies always come out when a female character comes into the picture in a series only to screw up everything between one of my favorite couples. And that's exactly what Shane & Claire are - a favorite couple. I've been rooting for their relationship since Shane called Claire a "kid" in chapter 4 in *Glass Houses*. (Yes, I remember that far back.) (Okay, fine - I looked it up. BUT, I still remembered him calling her that. ;)) The thing is, I was really anticipating reading from Shane's POV because I expected a lot of sweet, awww-worthy thoughts about Claire. But Shane's head is in such a bad place through the majority of this installment that it ended up being a lot of resentful, cruel thoughts and there were even some instances where he was verbally mean to Claire.

A lot of it is glamour-induced, but Shane does seem to have some issues with Claire and her relationship with Myrnnin. He isn't buying that it is strictly platonic and therefore he has doubts - and everyone knows that doubt is the #1 relationship killer (that and financial problems - but that's only if you're married). I just hope that his issues don't ruin things for the next two installments.

The thing that really pleases me about this series is the characters; I love 'em. They're characters that I can imagine myself being friends with in real life (Clare). They're ones I can imagine doing unspeakably naughty things to that are too inappropriate to list in this review for fear that a child might happen upon it and get a much too early education in the fine arts of naughtiness (e.g. Shane, Michael, Myrnnin, and, yes, even Oliver. Oh, don't look at me like that - I realize that he was turned in his fifties but I *still* love him). They're ones that make me laugh and cry (yes, I am sappy) at the most unexpected times.

FAVORITE QUOTES:

"We're getting married!"

"Are you in the car that's almost caused three accidents on North Vance?" Hannah asked. "Because I'm following you with my lights flashing, and whoever's driving isn't pulling over."

"Let him go," Claire said. "Trust me. You aren't going to get him to stop."

"Oh, God. It's Myrnnin, isn't it?"

"Tell that police lady to stop chasing me," Myrnnin said, annoyed, from the front seat. "Really, I'm not that bad at this."

(The scene where Myrnnin drives is HILARIOUS.)

"I pulled back my fist for another punch, and he didn't flinch. He didn't look away, either. He just said, "It's not your fault, man. I don't blame you."

So you see, my friend, this series is definitely a favorite of mine. And when it eventually ends, like all good things do, I will be heart broken. But that's all right. Much like watching reruns of your favorite shows after they've left the air (Buffy, Friends, Moonlight, etcetera, etcetera), I'll reread this wonderful series time and

again.

And for those who've been living on another planet, Last Breath comes out later this year in Nov and what is expected to be the last installment (*sobs*) is set to come out in April of next year. It is currently Untitled.

I ♥ Nekkid Shane

Even vampires make mistakes. This is a lesson everyone in Morganville learns hard in this latest installment. Past decisions come back to bite them all in the rear end, as issues that should have been resolved have not been. Someone has started a new extreme fighting ring, pitting humans against vampires in the ultimate bloody showdown. Things hit closer to home than Claire could have ever realized when Shane starts slipping through her fingers and becomes the latest target. She'll have to convince him to get out before it's too late, or not even her status with the founder will be able to save him.

I cannot count the number of times I wanted to reach into this book and strangle Shane. I had always thought he and Claire made a really great couple as they seemed to balance each other out. In Ghost Town due to some crazy circumstances, he forgot who she was, and while that almost broke my heart, it didn't make me want to lose my faith in them. However, In Bite Club, while not all of Shane's actions are under his control, he still makes some really horrible choices that could ruin things permanently. I would find it a whole lot easier to forgive and forget if we weren't shown the scenes from his perspective at times. These sections showed him being aware of his actions and yet continuing to make those horrible choices. It really is going to take a whole lot for me to have faith in him again, yet I still hope he can somehow redeem himself in future books.

I was more than a little annoyed at how slow on the uptake everyone was in this book. I do realize the reader was given more information than the characters were, but it still took much too long for everyone to realize something was seriously wrong with Shane. Then, it took even longer to put everything together and realize that it was so much bigger than just the problems with him. A lot of the events in this book could have been easily prevented if the vampires were even just slightly less arrogant. At this point the only one other than Michael that is worth even remotely trusting at all is Myrnn, and that is saying a whole lot, as you are putting your life in his hands anytime you get near him. You really have to be careful around that fun, but seriously crazy vampire.

I couldn't help but to be a little disappointed with this latest installment in the Morganville Vampires series. Don't get me wrong, the writing was still superb, and the pacing was great. However I was so frustrated at all of the characters that I just couldn't get into it as much as I have in the previous books. With the mess that Shane is in, and the rest of the gang's cluelessness, as well as the vampire's general arrogance and I found myself more frustrated than the enthralled I normally am while reading books in this series. That being said, the book is still pretty good, and fans won't want to miss it as some pretty big revelations and decisions are made that have me very much looking forward to the next installment.

urg! I love these books so much!! They're just so short. At least they come out every six months.

I want more of Shane and Claire! I really actually hate the idea of Myrnin and Claire together and everyone seems to be saying that they're going to end up together. No. Bad.

I really love that these books are nothing like the standard young adult vampire book. And they're so...actiony. Love it.

I also really love Claire, in all the books.

This book seemed to have less Shane and Claire, together, than the other books have. Understandable, however, considering he's like possessed, or whatever.

I just don't ever get tired of these books. Whenever I really love a book, i read it as fast as i porribly can. I know crazy. I finished this book in about twelve hours. a lot of times when a book doesnt come out for a few months i dont really like it when it finally comes out, but that doesn't really happen with these books.

ah-maz-ing.

In this tenth installment of the Morganville Vampire series, Shane gets himself into a heap of trouble. He joins the new gym in town and gets involved in a human/vampire fight club. Shane is glamored into joining the fight club, but his vampire killing impulses make him an easy recruit. He alienates himself from his friends as he gets sucked into fighting these high stakes matches. The baddies behind these Immortal Battles need to be taken down in order to save the town and Shane's life.

The Morganville vampire series always delivers a new fun adventure in a town where humans and vampires coexist. There is always a new villain to kill or problem to solve for Claire Danvers and her friends. We are near the end of the series, with only two more books planned. While I enjoyed the perfectly titled Bite Club, it was not my favorite of the series, and I did not like it as well as the last book, Ghost Town. The tone is a bit darker this time around and did not have the familiar blend of humor, fun and action as in previous books.

Shane's journey to the dark side and separation from the group dragged down the first half of the book for me. Shane does get a chance to share his POV in this book, and it is obvious he is suffering a lot as he battles his internal demons. It's interesting to get Shane's POV, but in a way I think the book would have worked just as well without it.

On the bright side, Myrnin, the eccentric vampire, really shines in this book. He plays a bigger role and is protective of Claire as she tries to solve the latest crisis in Morganville. The characters really make this series, and I'm still enjoying following Claire and her friends Michael, Eve and Shane on their crazy adventures. Along with Myrnin, Amelie, Oliver, the dreaded Monica Morrell, and other familiar characters make an appearance in the book.

Bite Club delivers a different side of Shane along with some insight into other favorite characters. Fans of the series will want to read Bite Club to get the latest Morganville fix and dose of Myrnin. Even though this wasn't my favorite of the series, there are still many hints and questions in this book that gave me pause to consider where the series may be headed. I'm in it until the end and anxious to read the next book, Last Breath, due out November 1 2011.

I listened to this book in audio format, and the narrator Cynthia Holloway does a great job as always nailing

the voice of the characters. If you haven't listened to this series in audio format, give it a try sometime.

:Spoilers:

You know, every time I read one of these books, I never know what to say that I haven't said before. I feel like a broken record. Morganville Rocks. Morganville Rules. Rachel Caine is a freaken genius. I love, adore and worship this series etc etc etc...Broken record right?

So, since I've said it before, I guess I'll just say it again.

I love.this.series!!!

Bite Club is another mind boggling installment! I don't know how Caine does it, but her story-lines are so freaken fun and brilliant.

This is book ten and we have two more on the way and I *still* don't want it to ever end.

For this round of recent madness in Morganville, our favorite gang is up against an old enemy while his pawns are plotting and pounding away. They designed a fight club for humans to learn to defend themselves against the evil that lives in town, only evil is in the very ring they train in. Vampire vs Human. The Immortal Battles are viewed by millions of paying customers to watch the ultimate fight. But one of our humans just happens to be our very own Shane Collins. Not good. Not good at all. See, Shane is seeing red and not acting like himself. Fueled by rage and memories Shane's not in his happy place anymore, and it's up to Claire, Michael and Eve with the help of our favorite crazy-man to find a way to save Shane from himself, destroy there enemy and do it before Amelie takes down the house.

Well...one things for sure, you can't ever say that this town is *ever* dull....

I don't know about any of you, but this book felt very different from all the rest of them. Maybe it was the lack of tacos and chili or not enough zombie games being played or the fact that there wasn't nearly enough banter and snark. But this book definally felt very serious. There is always a dark and dangerous feel to every single one of these books, yes, but I guess this felt more...heavy amongst the rest. And I think the reason was Shane.

Not that we need another reason for these books to standout more then they already do, but I really got a huge kick out of Shane's point of view.

Only I think I was expecting it to be in that Shane-funny-fashion instead of the inner-turmoil of a man who's lost control of everything around him and skipped over to the dark side for a spell. Don't get me wrong here, it worked a lot better then I ever thought it would, making a huge impact on an already successful series, so what I'm getting at is, even though I was expecting something different, It was really good to understand Shane on a whole new emotional level. I still missed the funny mind you, but...it worked.

There was lots of angst and relationship drama to get us readers worked up into knots. I was pretty nervous throughout the whole book and wished it had more of those delicious moments, I mean ~~Nekki~~ Shane was only shirtless once in the entire book. Tsk! Caine, your slipping. But I have faith she'll make it up to us in the next book (hint hint nudge nudge).

As for Myrnnin, If I didn't properly adore him before, well, I certainly do now. Not only was he freaken hilarious and had some of thee best one liners and totally took over as comic-relief in Shane's absence, but he also really kicked ass in this book. Without a doubt, he's my all time favorite psychopath!

Bottom line, These books are crazy and such an absolute blast. These characters are seriously like reading about friends and the storyline are fast paced, heart pounding and then neatly cleaned up and settled down and all ready for the next epic disaster. I love how Caine does it and again, I will never get tired of this

escape and always be begging for more.
This book was such a rush! Loved. It!

Another fantastic addition to The Morganville Vampire series. I say that over and over as I have gotten through each book, but they are so fun to read. They are so different from other "vampire" books. They set a new standard in the vampire book world and I can't tell you enough how AWESOME they are.

Once again Caine has made this story come alive with new developing drama, a few new characters and unexpected turns that will make you ask yourself how in the world did I not see that coming! It's brilliant!

This being the 10th book in the series I have to say that I am even more in love with the "Glass House Four" as I call them; Shane, Michael, Eve and of course our awesome protag Claire.

I also liked how Caine added Shanes POV. It was somewhat refreshing to be able to read his thoughts and where his actions came from. He was really facing his own personal demons as well as being charmed by an evil vampire who drove him to be a rather aggressive force, but not for the good.

I'm not going to go into a long drawn out review about this book as I feel that it's a book you need to discover your own personal thoughts on. Let me just say though, that this series is highly recommended and I can't wait for the next installment!!

Anzu The Great Destroyer says

*****SPOILERS AHEAD. YOU HAVE BEEN WARNED.*****

Ok people, rant time.

So I managed to go through 9 books (plus many other short stories) of MV without even getting remotely bored. Do you have any idea how big that is to me? I cannot start a series that has over 10 books. It terrifies me. I know that I will end up being bored, it's just my nature. MV, on the other side, is extremely special. The books are short, to the point and super-fast to read. That's why I love them so much.

And then something had to happen. Why would things be good till the end? Why? They can't. Life's too much of a bitch to allow this to happen. Oh yes.

So, *Bite Club*. Cool name. Says it all. Fight Club in Morganville. Should be awesome.

Yeah. Awesome.

:sigh:

I was expecting Shane to be the center of attention. Why? Because a *Fight Club* theme couldn't fit anyone but him. He's an angry teenager who needs to let out some steam. He has it in him. I just had no idea that things will go so bad.

Bite Club has an alternating POV. Ok, not really one chapter Claire one chapter Shane, but a Shane insight from time to time. I was kind of glad to have this since I :cough: used to :cough: like Shane. MV has a bunch of short stories from his POV. I didn't mind it. And I thought maybe a Shane POV from time to time would be nice for a change. You know, keep it from getting boring and so on.

The only thing that Shane's POV managed to do it get me even angrier and made me hate the dude. Lemme explain why.

So, dearest Shane is super excited to attend the newest gym in Morganville. Of course nothing can go right in this town, so by now you should suspect the new gym to be some kind of evil pit of doom. I know I did. So this gym has a self-defense program. As one would expect, our dearest group of four vampire slaying teenagers can't keep themselves from attending this course. Needless to say that Shane is the happiest between them. As I said, anger issues.

Blah blah blah drama drama drama Shane gets mindcontrolled by a hottie vamp chick.

And she makes him be a total douche to everyone, especially Claire and Michael.

Quotes like

And if Myrnn had taken her somewhere, from my territory...

And

[over the hottie vamp bitch]

I felt hot all over, and, yeah, again, I'm a guy—don't judge. I love Claire, I do, but this was a dream. And besides, Claire had just ditched me to run off on her own when I needed her.

happened.

He was drooling over the vamp chick while remembering Claire and comparing their looks. The vamp chick won of course. He verbally and physically hurt Claire. He beat up Michael. He insulted Eve.

And I can't handle this. I can't go back to seeing Shane the same way I did before *Bite Club*. I just can't. I know that he was being controlled by the evil hottie vamp chick but I can't help but feel that part of his thoughts and feelings were his own. He wanted to do these horrible things. The angry thoughts and doubts

were always there. And this was confirmed when I read Anger Management. He still has those lingering thoughts.

No, Shane. Just no. We are done.

And you know what gets me even angrier? How easy everyone forgave him. I knew the “I’m so sorry I hurt you” and “It’s ok bro, we love you” ending was coming. And it did. Everyone forgave him just like that. Especially Claire. I mean he broke up with her in the most horrible way and once he got all puppy-eyed with her she just jumped his bones without a second thought.

I refuse to acknowledge this relationship.

The only thing that kept me from giving Bite Club the fuck-you-one-star rating was Myrnin, my steampunk vampire hero.

Myrnin’s character keeps on growing on me, and I absolutely love him by now. He is funny, crazy, charming and badass. I just keep on reading these books wishing to get another glimpse of him and his crazy world.

“I so rarely have the chance to field-test anything. Amelie is so conservative about these things.”

“No kidding,” Eve said. “Holla.”

Myrnin’s eyes widened. He looked at Claire, who shrugged. “She agrees,” she said.

Eve and Michael were as awesome as ever. Claire sucked for how weak she was, and is, towards Shane. I feel bad for saying this, but I wish they break up. I really do. I see many girls wishing Claire will hook up with Myrnin but I can’t imagine this. It doesn’t feel natural. I feel like Myrnin’s love for Claire is paternal, nothing more. And duuudes, he’s like ancient and shit. Ew. Cmon. It’s like Ryodan all over again.

But maybe if this hookup happens it won’t be bad.

Oh, who am I kidding? I’d love it. I’m sick in the head. Don’t judge me.

Jamie says

3 1/2 stars for this one. I love this series but this book really showed me some points I liked more than previous books and some I liked less. The drama within the Glass house reaches all new heights in this book. Everyone has secrets from one another and not all of them are good!

In this book a new gym has opened up where a vampire is training humans and vampires alike. One thing I must say is that it must be HUGE. We get all the standard gym setups for weights, cardio, etc. We have boxing areas, ratchet ball, karate mats and even a fencing room and more! I would love to have a gym like how this appears in my city (less the vampires). Shane is one of the first to check it out and gets really into

the fighting there but when one fights under vampires, bad things can follow.

Claire is told some startling information but is heavily threatened to keep quite about it. Frank Collins is still being kept a secret, Shane is drifting away and even Eve and Micheal have a secret! All this adds up to lots of drama and home intrigue as a I wonder how it is all going to come out.

While this book is mostly focused on Claire (as all past books have been), we get something new that I loved. We get a first perspective look into Shane's thoughts! While they are very warped in this book due to other factors I won't give away, it was an interesting new aspect to the series I highly enjoyed and hope to see again in future books of the series.

One thing that is really being to annoy me are the idioms and text speak being used on a regular basis. I loved how the earlier books had a more mature aspect to how they spoke but now its getting annoying with the slang used. I used to love Eve but with how she was talking in this book, she is now the type of person I would avoid hanging out with. She is not 14-16 years old yet acting like one. It is annoying when a character changes like that and this in one change I do not like at all and cost a fair bit of enjoyment for reading this.

With all the tension from the secrets I was expecting some interesting scenarios later in the book but i felt a bit let down in the end. The grand show was lackluster, Claire didn't seem to learn anything and no one asked questions about things that did not add up, they all just went along with whatever was going on! Grr!

So overall, good story with fun potential. Some interesting character comebacks. Drama-filled but the last 20% of the book could have been better. Here's hoping the next book is better and Eve goes back to her old kick-but, goth self!

I just finished Ghost Town, did NOT want it to end. This is by far my favourite series, can't wait for this one! Sooo far away.

Arlene says

After ten Morganville installments, I've yet to be disappointed with any of these books by Rachel Caine. Quite the opposite actually, I get more and more hooked with every book, and I end up kicking myself for burning through them so quickly because the wait is pretty painful, hence the intense fangurling that precedes each release.

There's so much I adore about these books including the friendship between the Glass House residents Claire, Shane, Eve and Michael; the twists and turns each book takes; and the dialog between the main characters that has me laughing, sighing and gasping EVERY.SINGLE.TIME!

In **Bite Club**, Caine gives us a little bonus in the form of Shane's POV and even though I was expecting a little different insight into his brain, it was still heartbreaking to witness him fighting the nightmares and his own hatred of Morganville. In this book, the big ole baddie Bishop rears his ugly mug and spear heads *Immortal Battles* which is an ultimate fighting sport that pits humans against vampires and broadcasts the fights, once again threatening Morganville's secret. Eventually, Shane gets lured into the ring to face off against his best friend Michael and the Glass House comes together to help Shane from self destruction and the town from exposure.

This book was intense, action packed and full of those moments that remind me how much I adore these characters. Overall, it was worth the wait and I want more NOW! Loved it!

Skye says

I've always been a big fan of the Morganville Vampire series because I happen to live in a middle-of-nowhere Texas town. I can relate, I practically live in Morganville, my town even has the "-ville" ending in it.

Basically the scenario in this book is pretty fierce, a fight club between vampires and humans—friends are put against friends. And who do you think gets recruited into this club?

After reading the tenth installment in this series, I feel this book is my least favorite. Not, just because Shane goes psycho and starts abusing everyone he cares for. It just doesn't have that pizzazz the prior books have.

Before we would see glimpses of kick-ass Claire making her way in this weird town, but in this book she was strangely lack luster and a bit short-sighted in regards to her future. I mean what happened to the wicked awesome Claire from Kiss of Death? I felt like Caine tried to showcase more of Eve in this book with her sudden fencing skills, but I'm so used to people always rushing to her aid, that her sudden ability to protect herself seemed odd. I mean she has a mouth on her, but she really couldn't do anything beside bedazzle her weapons. Now she's fighting against the founders of Morganville. Yeah, okay...

Bite Club was definitely about Shane though, and we even get to see some chapters in his point-of-view. I guess this is so we can see how his thoughts and temper quickly transform into something that is not usually himself— so we don't hate him as much and see he is under the influence of someone else. It worked, I mean I don't hate him, but I don't love him either.

Don't get me wrong I still love this series, but this book was just blah. It just felt like a filler book. I assume if you've read this far into the series, you're in it for the long haul. I am. I'm still going to read the next book, and apparently the one after that. It's just that this one didn't shine, but at least this one didn't end on a cliff hanger either.

I'm really just in it for Myrnin.

Still loving the series and characters in Morganville. I didn't give 5 starts because it seems this book was hastily written - there were a number of plot holes and mistakes. However that didn't stop me from finishing the book in a couple days. I did like seeing the world from Shane's POV, but I think Rachel did that so the readers wouldn't hate him. I wouldn't have minded hating him for a couple chapters - I think it would have added more conflict and tension overall. I do hope she continues this and we can see the world through Eve and Michael's POV as well.
