Bloodstone Heart T. Lynne Tolles

A surprise visit from Blake and Devon's uncle, Dominic, demanding both vampires, come home immediately to find what is ailing his son Anton, puts everyone on edge. Can vampires get sick? Devon doesn't appreciate Dominic's demands, but agrees to fly back to Connecticut with Darby, since Blake has a job to finish up in California. Excited to meet more of Devon's family, Darby is confused by Devon's distance and coldness since Dominic's visit. In Connecticut, this only gets worse when a gorgeous Libby, Anton's estranged wife, shows up unexpectedly and seems to have her sights set on Devon. To top it all off, there's seems to be some pent up animosity, Anton and Devon have towards each other. What is this strange power Libby has over the men in this family? And what's wrong with poor Anton? Why does it seem that Anton and Devon hate each other? These are all questions Darby sets out to answer in this third volume of the Blood Series.

This book was okay. I really enjoyed both of the main characters Josh and Lanie. It would have been fun to see where their relationship led, who the man in black was and what he and his vampire friend were searching for, perhaps one day I will finish. I think part of the problem is that I may have overdosed on vampire type young adult books.

The story seemed very shallow and through-out the first 50 pages I kept thinking this book as NOT been proofread yet! The writing was NOT good at all. Way to many ands in sentences that should not have had them. Also repetitive use of words in sentences right next to each other.

Although the book had an intriguing storyline I could not get past it's shallowness and the way it was written. Besides having a cohesive plot it was like the authors sentences were printed exactly they way they rambled out of her brain onto the page.

T. Lynne Tolles does it again with book four. In this delightful tale we get to meet two new wonderful characters, Josh and Melanie. Two very unique characters with some very different abilities. I fell in love with the two new members that added depth and intrigue to this wonderful series. Miss Tolles herself has a wonderful ability in creating characters that have you rooting for them from the moment they appear. I highly recommend this book to fans of vampires, werewolves, witches and other supernatural beings. Sequel, Please for these new characters! :)

This series is great for a "beginner" paranormal freak! Vampires, werewolves and witches are just normal goofy people! Fast reading, even if some of pages get a little thick with words!

I don't think I can finish this book. I read the first, and now that I think about it, don't think I finished it. I downloaded all the books in the series thinking they would be good. I was wrong. But, since I had them all sitting there in my Kindle and I am short on funds to download a book to read I decided to start this one (though I didn't realize it was the 4th book of the series).

The dialogue is just terrible. People don't say the things these characters say. It's not realistic and ends up

being really annoying. I found myself scanning through pages just to get it over with. The story line jumps around from two main characters to all these other characters that were in previous books and possibly to introduce new characters for a future book. Annoying is an understatement.

Not recommended to anyone. Don't waste your time or money on anything by this author.

This looks like it will be a great book to read.

This story was really hard for me to stay engaged in. The Bloodstone Heart starts strong with some interesting characters of Josh and Melanie. But after Josh encounters and kills a vampire and comes in possession of the Bloodstone Heart it all jumbled up for me.

Once they were on the run I was introduced to a slew of new characters with powers and different story lines took me in all directions until the end where we pick back up with Josh and Melanie and the Bloodstone Heart.

Ms. Tolles has many books out that will hold your attention throughout her writing. This story is about Josh, a man that won't go out during the day because he can hear everyone's thoughts and it's just too much. One night while out, he runs into Lanie and finds that it's so quiet when she is around. Until that fateful day he runs into something that wants a late night snack. Being hunted down by a vampire that wants something from him and he is clueless as to what it might be, Lanie takes him to the safety of Blake and Rowan's home in hopes of finding help from the few people she associates with as well. She can touch things and see past events of people's lives. She's now on the run alone and hoping to save Josh by keeping the danger away and have it looking in other places. New friendships and findings will bring Josh and Lanie into a world they never expected.

This book was good, but not my favorite. I enjoyed Josh's story, but there was a lot of other stuff going on at the same time. I felt like all the side story lines distracted from the main plot. I am not a fan of more than a few point of views. Anything over 3 or 4 point of views in a single book is too much.

The main idea of Bloodstone Heart is really interesting. I enjoyed the mystery aspect of the story. Josh is trying to find out who the vampires are that are after him and what they are seeking. It did really keep me guessing, and I appreciated the complexity that went into the plot. I liked all the different abilities and

creatures that were involved in the story too. There were vampires and werewolves and mind readers, just to name a few. All things I really enjoy, I just felt like there were a bit too many of them in one story.

This series changes the main characters in each of the books. I feel like it could be really good if it just cut out some of the secondary storylines in each book. As it is, it tries to shift the focus, while still keeping all of the secondary characters involved in each book. The result is kind of confusing. I think Bloodstone Heart was a little more focused I would have enjoyed it a lot more. I am still going to keep reading the series though because I want to know how it is all going to turn out.

2.5/5 gavels.

I would like to read/review this book.

Bloodstone Heart is the forth book in the Blood series by Tolles and it certainly does not disappoint!

This book introduces us to two new characters. Josh, an young man who is able to hear everyone's thought and does not know how to turn them off. And Lanie, a young woman who can see the history of an object simply by touching it.

Josh and Lanie connect during a chance encounter at a corner store and begin their journey to save themselves from Vampires and loneliness.

A few chapters in, Josh and Lanie connect with the series characters who are still located in California. And after awhile the story collides with the ending of the third book.

I really enjoyed how Tolles made book three and four over lap and then meet up. In book three, it was very easy to wonder why the girls did not go to Connecticut to help Darby and Devon in their time of need. But after reading book four the reader now understands what else was going on in their lives.

Once again, I was very pleased with how the story keeps moving forward and does not drag on. It was another page turner and I am looking forward to book five.

Keep it up Tolles! I recommend this book to anyone over the age of 15 interested in Vampire, Werewolf adventures.

A bit lightweight but enjoyable
