Suzy Black says

OH I LOVED this book! I even purchased a first edition to add to my library - it was so sweet! My daughter mentioned the book just recently, and even tho it's been almost a year since I read it, my heart jumped at the memory of reading it - made me want to read it again - guess I will.

John says

An attractive little book which tells the the tale of a wolf (man) and a raven (woman) and their relationship. It is set in the natural glory of the north west pacific - native Indian lands and latterly home to the white hunter.

In Indian lore the raven assists the wolf in hunting. In this tale Helen, the raven is partly Indian and partly Scottish, the wolf, Dane, of white European settler stock. The setting for the tale is magnificent and the observation of nature throughout is a joy to read. The story line is good, if predictable. The dialogue however I found wooden and stilted at times and this stopped me reaching for a fourth star. The constant repetition of the main character's name, Dane, I found very irritating and could have been relieved by a few more "he's" sprinkled here and there.

Kimberli Lethbridge says

This has to be one of my VERY favorites! I have read it over and over. It's a small book and full of many emotions. JUST terrific!

LJ says

ALL THE WINTERS THAT HAVE BEEN - VG+
Maxwell, Evan - Standalone

Dane Corvin has returned to the Pacific Northwest to ease his dying uncle's last difficult days. And although he can't quite admit it to himself, he has come for another reason, a reason that has been pursuing him like a ghost for twenty years. For it has been that long since he last saw the young woman he knew as Helen Raven. No woman he has met or loved since then has ever erased her memory.

In spite of their passion, Dane had betrayed her all those years ago. But he is a changed man now, one who knows the value of love and the power of second chances. This time, though, it is Helen who hides a secret-- something that could unite the two of them, or destroy them and the fragile lives they have so painstakingly pieced together from their shared and shattered past.

Similar to "Bridges of Madison County" but without the arrogance. I cried.

E Wilson says

Bland and predictable. I just wanted to take Dane and Helen and knock their heads together. They were both annoying.

Daelith says

Quit at 113 pages.

Ariane says

The story was ok. However, I never felt for any of the characters. What Helen did was unacceptable to me. Worse, in my eyes, she had the audacity to be haughty when she finally spilt the secret to Dane. Although Dane had my sympathy for most of the book, I didn't particularly like him as a character either. He came off as too cavalier for my tastes. Josh seemed ok, but he was barely in the book.

Liz says

A simple short love story told from the perspective a a man -- emphasis on the importance of family. Easy read. Nothing deep.

Darlene says

A youthful romance gone awry leads to regret and loss with the passing decades.

Debra says

When Dane come home after a twenty year absence, he re-discovers his love for Helen, the girl he loved and betrayed all those years ago. And Helen discovers she can no longer keep her twenty-year-old secret from Dane: their son Josh.

Giovanna says

Jo- Just seen the movie - Loved it - and read the book - loved it too.

Susan says

Routine yarn about the reunion of former lovers with Indian and paternity themes.

Julie Mink says

This book was a little gem. I loved it! It is a keeper and I will read it again soon.

Lynn Mcalister says

You will like this is you like Richard Paul Evans, Nicholas Sparks, etc.

Sue says

Read first time in 1996 - still good, 22 years later. Simple love stories can be good reads!

Wenwe says

I loved the storyline and the feeling I got from the characters/place/time. Unfortunately the characters devolved into negative self talk and blaming, which I didn't love and didn't feel that that was in line with the characters I had created in my head. And the wolf/raven imagery was very repetitious.

Nancy says

I read this book for the first time many years ago and loved it. I just reread it again in 2018 and found it just as wonderful. A great story of wonderful multi layered individuals as well as love and Native American traditions.

Barb in Maryland says

Elizabeth Lowell's husband tries his hand at light fiction/romance and guess what--it reads just about like her romances from the same pweriod. Go figure.
