Once I started reading this, I realized I'd already read it. I enjoyed it, and will be returning it to the teacher from whom I borrowed it.

Ben says

It's like one of the games I played as kid, but written as a story. An awesome tribute to a boy's imagination.

Kristy says

I loved this book so much I read it twice! (I was about 10 years old). Really good, mystery for school age kids. This came out waaay before Harry Potter and used the invisibility clock first!

LBC Bingo: A book from your childhood

Rating courtesy of 8-year-old me. This was one of my very favorite books at that age. I read it over and over. It doesn't really hold up for an adult, but I have very fond memories of it.

David Shamo says

Short read, and very good read. a must read if you have not as of yet.

Micah Eaton says

It's been a year since I've read "The house in the snow" and I can still see everything that happened in that book because of how well it's sensory details are.

I didn't read this book the first time I saw it. I put it down the first few attempts I gave it too. Once I read past page seven, I couldn't put it down. It felt like I knew every kid in the book, and I could really relate to them.

I would give this book to anybody who enjoys good writing and illustration, but mainly to anyone who loves to be captured by a new world that hides inside amazing books.

Currently reading this to the kids... They seem to like it, though I am a bit preoccupied with the way the author throws the word "demons" around. I think this story uses the Invisibility Cloak idea before Harry Potter.

Jake says

I've read this book countless times. Love it.

After receiving a bunch of used books for children/youth, I decided to read them before recommending them to my grandchildren. This one was terrible! I don't know what was worse - the story itself or the way it was written. Plus, it had a ridiculous conclusion!

Quinlee Krukiewicz says

This book is about two boys, one witch was kidnapped and the other is an orphan who meet in the middle of the woods because they are both running away from angry people wanting to kill them. One of them's name is Benjamin and is twelve years old and has ran away from all of his foster families and every time he runs away he is found and returned to a new family. The other young boy named Mackie only eight years old and was kidnapped three years ago and is tortured and taunted they make him dance and clean and basically be a slave for everyone in the house in the snow.

Benjamin runs away from his foster family and then gets cote and is sent to a new foster family and then runs away from that family and is threatened that if he is found him he get in a lot of trouble and also hase to steal food just to servive. Macke and Benjamin sneek in to the house in the snow to see what realy hapens and if what mackie says is true.

In 3rd grade this was my all-time favorite book.

A great mystery about two young boys and their adventure that takes place in "The house and the snow". The only thing I don't like about this book is the reference to beer several times in the book.
