## From Reader Review Aladore for online ebook

### **Tomek Piorkowski says**

Numerous references to 'The Rhymer' suggest that this novel was meant to be a sequel to the Ballad of Thomas the Rhymer. This book started off well, with a ruler giving up his kingdom to follow a mysterious boy into the unknown. I enjoyed the way the main character delighted in having thrown off politics and power for the sake of freedom. The story then goes on to how this ruler was teleported to the land of Faeries, and at that point the story becomes boring and stale - the main character has numerous meaningless adventures that seem to have no point and no antagonism to them, with a very artificial and stilted language. Unless you have a profound intense interest in Pre-Tolkein fantasy (one can even say Pre-Dunsany fantasy), it will be hard going to complete this book. A disappointing 19th century fantasy epic.

---

### **Iyan De Jesus says**

It kinda felt like I was trespassing into someone else's long and vivid dream. Most details were forgotten as soon as I flipped the page and only the idea remains, yet even that is also vague and somewhat intangible - almost like a murmur.

Just like most dreams, this story was probably written to be experienced and not much to be understood.

---

### **Janelle says**

Dnf. Didn't like it enough to persist
