Olivia and Ivy, the twins, have been invited to a royal vampire wedding. This trip is incredible with a beautiful castle, famous vampires, and the wedding of the century. Transylvania isn't all black-tie bats and wedding bells, as Ivy is supposed to be scoping out the famed vampire school Wallacia Academy. *"This is a funny, super-girly story with a vampire bite to it. Sink your teeth into Olivia and Ivy's tenth fright-time adventure. The twins are back in Transylvania for Prince Alex and Tessa's wedding, and to settle Ivy in to the Wallachia Academy. Plus they've landed the juicy job of reporting on the royals' big day for VAMP magazine. Exciting! But Olivia's pining for Jackson and, to make matters worse, wherever she turns she's confronted with happy couples! She struggles to overcome her feelings until distraction comes in the form of an old feud that threatens to spoil the happy couple's day..." (Amazon.com)*

I skipped the 9th book!!!!!!!! I'm so frustrated! I feel so bad! Ugh!

To explain my disappointment, here's the story: I was downloading the remaining 3 My Sister The Vampire books - that are available - to read. When the 9th book was done I opened it and started reading but I then noticed that I have already read this... It was book 7, Lucky Break. I checked the link from where I downloaded it from and it said something something "07\_Lucky\_Break".

I was like

So after deleting it and downloading it all over again I tried to look for another place to download the book and I found nothing.

Nothing! Seriously nothing! My best bet to find to book now is to buy it from a bookstore and the only bookstore I know that sells this books series takes me 5 hours to go there from my house and 3 hours from school. I guess I have no choice. I love this book series too much to let one book left unread. So I've decided to buy it when I get the chance.

I missed a lot. Sienna Mercer did explain some parts that happened in the 9th book but only a little. The info that shocked me the most was that a certain perfect couple - again, I'm not spoiling anything cause I have an

anti-spoil policy when writing reviews cause I want my readers to read the book themselves - were having troubles in their relationship (just when I thought everything's going well!) and it made me so mad at myself for not waiting to buy the 9th book first before reading the 10th and 11th. I cant help it, I just love reading these books so much - too bad for my straight reading streak though.

I love how Ivy and Olivia are back in Transylvania with a very unique purpose, Prince Alex and Tessa's grand royal wedding! I'm not a fan of weddings but I did love reading the drama, suspense, struggles, and romance in this one. Another "wedding-themed" story I like is the movie; 27 Dresses. And a new romance is revealed throughout the story, a very short yet sweet significant romance.

I love the idea of The Summer Rose thing. It's very creative and captivating! I would love to catch my own rose although I do not have someone right now.

Again, I am so looking forward to - if ever - a director/producer/whatever person to make this book series into a TV show. I'd be it's biggest fan! Seriously gonna be killer.

I also love how Sienna Mercer wrote about the vampire community. It's not like what I read in other books or what I watch in my fave vamp movies or what I know, its different but a good great different cause I definitely see it as a realistic contributing factor to paranormal things in the real world. And, as I said before in my other reviews, the goth/vamp-lingo is seriously drop dead.

I already started reading the 11th, page 94, if I'm not mistaken. I really do hope I get to buy the 9th, it will be the last My Sister The Vampire book I'll read - while waiting for the next book to be published. It's like two years ago when I stopped reading at the fourth book cause the fifth book was still being written. How time flies too fast...

I really like it and feeling little difference from another parts although I don't know why or what is difference :)

I started reading this series when I was back in 6th grade, which meant I wasn't that much of an avid reader, which means that I LOVED it back then. So I realized that there was a 10th book, and I actually got it. I suppose that after reading so many 400+ page novels, I thought this book was so short and childish. Unfortunately. I really liked the first book, though!

It was a major disappointment. I'm not planning to get any more of this series. I'm done. I would recommend it for Elementary school kids, though!

I think this is one of my faves of this series. I always love it when the twins are in Transylvania - it led to so much chaos and strife (but ultimately new discoveries and bonding) the first time around, and this book was

no different. I love the decadent settings, the backstory and seeing how Olivia and Ivy cope with being outsiders and dealing so many new situations. Particularly the ending of this story has enforced in me why I love this series so much: the fact that the protagonists are so incredibly true to themselves. Olivia and Ivy have been role models for me since I was 7 years old, but as I get older (further and further away from the age of these characters) I've found that I only find them more and more inspiring. More pressures and expectations in my life means it seems to be getting harder to "be myself" a lot of the time, but I know I'll always have My Sister the Vampire to help me along the way. This book will always have a special place in my heart.

i don't like how there are 2 different covers, i can't seem to find the good version and it kinda sucks

### **Rose says**

I think that this book is intended for a younger audience but I enjoy reading them for some light reading when I don't have anything else to read. I intend to keep reading the books in the series that keep coming out. Other than that I thought that it was pretty good for 4 stars.

### **Gaby says**

Loved it! This was my favorite series when I was in 4th grade, and I honestly cant imagine anything cooler than having a twin sister who is actually a vampire!

### **Colette says**

Good book for tweens who are too young to read the Twilight books, but are looking to be a part of the vampire craze. I didn't like some of the writing style, but it was okay for the age group. The first book in the series is My Sister the Vampire.

When I was younger, I loved the covers of the series. I had no idea which one was the first book at the library, so I took a random one out and read it. I can't really remember the name of that book, but I remember this one being one of the three MSTV series

childhood memories <3

Twin sisters Ivy and Olivia are in Transylvania to attend the wedding of their friends Tessa and Alex. At first I thought Ivy and Olivia were being really overdramatic, the way Olivia was talking about 'The Free Rose' and Ivy was saying she might never see Olivia and Brendan again but actually now I think it added to the overall effect of the book. All the vampires in Transylvania are extremely dramatic and ridged with their traditions. The feel of this book was definitely over-dramatic. Loved it!

My Sibling the Mythical Being is a book group on Goodreads for fans of Sienna Mercer's two series.
