Bear Biker Love Harper Ashe

You're Invited to Take a Romantic Ride With Destiny!

An Alpha Bear Who Must Find His Mate...

When his small clan of bear shifters is murdered, Alex Andreas embarks on a quest to find more of his kind. But before the lone Alpha can begin his search by heading to the Colorado Rockies, he must lose the band of Hunters that are pursuing him and find his mate: a curvy, brunette beauty who isn't even aware that a touch of bear blood runs through her veins.

A BBW Who Takes a Chance on Fate...

Nina Parks is having a lousy night. First, her ex-boyfriend's new fiancé ruins Friday night happy hour. Then she finds a crashed motorcycle in her driveway. Not only that: the hunky, leather-wearing rider is injured and refuses to go to the hospital. Nina agrees to help the sexy biker, only to find that his injuries aren't from his crash and now they're both in danger!

Will They Take a Ride with Destiny?

Pulled into Alex's world, where nothing is quite what it seems and she isn't sure who to trust, Nina finds herself torn between the man of her dreams and the life he wants her to leave behind. When the truth is finally revealed, will she follow her heart and join Alex on a romantic ride with destiny?

This paranormal novella is a BBW shifter romance featuring a smoking hot, motorcycle-riding were-bear and the beautiful, curvy brunette who is destined to become his mate. It is a complete story with a fateful beginning, an exciting middle, and a steamy HFN ending. (No cliffhangers!)

Erin Burns says

This story is an exciting introduction into a world with shifters and guardians. I enjoy stories about shifters so I initially was turned off by the guardian angle. But, while the main characters are interesting, the guardian really stole the show. I'll be looking forward to further stories set in this world as I think there's quite a bit the author can do with it.

Ana says

Great Hunky Bear!!!

Harper Ashe gifted this book to me in return for an honest review.

What trials and tribulations Alex must endure... Loss of his entire family and clan now he must seek out his Mate before it's too late.

I was glued to my seat with this book, the anticipation and surprises took my breath away, literally. I felt like I was in the story and just as surprised as Nina was.... What an ending with a conclusion I never expected and a new beginning riding into the sunset

But in all this I was left with the assurance that the Guardians of The Paranormal will be back and I can't wait.

Great story Harper I can't wait for the Guardians next assignment

Sheryl says

Alex is the Alpha of a small werebear pack and when he comes back he finds his village members murdered and his grandfather dying. Now from his grandfathers last words he must find his mate and go to safety and start new. Curvy girl Nina was getting over a broken heart when a wounded man came into her life. Who knew he would have such an effect on her and the world she lived in and turn everything she knew upside down.

This is a WOW book for me. The characters and the story act great together and there are no slow parts in the book at all. Once I started it I had to finish it till the end before I could put it down.

This is a great read for any paranormal romance book lover who like a little bad boy biker thrown into the mix.

Heather Fortman says

What a different and refreshing story about shifters. There were highs and lows to the story, and it would have been nice to have more detail about the antagonist in the story, it left you with an ominous and mysterious feeling as to their identities. While the sad parts had me tearing up, the beginning of the book started with a passion and carried on through to the ending, which was spectacular and left openings for another book.

"I received an ARC from the Author in exchange for my honest review"

Cassandra says

My Thoughts - 3 out of 5 Unicorns - I liked it!!!

The cover is a sweet scene of a couple on a bike and a bear. It is okay.

This is a novella and it is around 90 or so pages. It is a quick read. Parts of it for me were rushed or missing details, and I think this story line could have easily been developed into a full novel. You just don't know enough about the Guardians and the Council, and you really didn't get much of a background on Nina. All this being said it was still a great read. I hope to see this world return so it can be more fully developed in my mind :) I love shifter worlds.

Oh if you don't know the acronym HFN, used in the blurb, it means Happy For Now. I hate not knowing acronyms that are being used, so I always try to share this info.

Nina & Alex are great characters as well as Hannah. There is a good mix of action and drama too. With novellas, it seems to take me more than one in a series to get connected to the characters and world. This is just me though, and there is so much potential for this new shifter world. I'm not sure if this is a series, will it follow Nina & Alex or Hannah & the Council?

This is my first Harper Ashe book, but I know she has a story in a couple of the bundled sets I've bought....though I don't think they are shifter stories. I will definitely read more by Harper especially if this becomes a series because I want to know more :)

I think if you like quick shifter reads, you will enjoy reading this book.

Daria says

I read this in a day! Smiles. Loves shifters and curvy girls! I think my fav character would have to be the guardian.. she just rocks.. smiles, ok I loved the two main characters also.. just loved the sass the guardian showed.

Its always funny when we see something not going like we think we should, you can almost guarantee that the hand of fate has stepped in. It doesn't matter what path you have set yourself, before you know it you headed in a different direction.

Alex is a new alpha after finding his new clan murdered, he is able to talk to his grandfather before he also

dies. The grandfather sets Alex on a chorus to find his mate. Which of course doesn't work at all the way Alex wants.

Nina a human with a dab of shifter blood (that she doesn't know of) she's had a day of it... was passed up for a promotion at work, her boyfriend of two years leaves her. Her life is about to change when she finds Alex crashed on his motorcycle in the front of her garage.

I enjoyed the story, and the characters. A steady pace and had me laughing in a few parts, some heavy flirting.. a yummy hot scene or two. I'd have to say the overall story is what I enjoyed. I think this was the first book of Ms Ashe's that Ice had the pleasure to read. Thank you to her.. and if you love shifters stories then I recommend this book. Enjoy

Shelley says

Entertaining enough. Not the best written Shifter book, but it was part of a boxset and I had to read all of the books to get through the boxset.

Mary says

Fabulous short paranormal romance. Alex is the Alpha and is suddenly without a clan and only has his grandfather's dying words to guide him to his mate. Nina feels the world is conspiring against her as the new girl Hannah seems to end up with everything she wants. Feeling down she goes home early from a night at the bar and finds the mysterious Alex injured in her driveway. From the moment she saw him she was drawn to him. Alex is enchanted with Nina, now he needs to convince her that they belong together. Of course, all of this has to happen before the Hunters find them. Harper Ashe gives you all the intensity, romance and drama packed into a small package for a quick escape.

Received an ARC from the author in exchange for an honest review.

Carly says

Standing before the Council of Paranormal Creatures, the young Guardian is given her first task. Take one scarf, add a sexy alpha were-bear, mix in one spunky brunette and watch the chemical reaction create true love! It sounded like an easy assignment; the Council failed to mention that her charges are headstrong, stubborn, and have a band of hunters hot on their trail.... what's a Guardian to do???

Alex is a half-breed bear with nothing to live for.

Nina thinks she's a human with nothing to lose.

Together they have a passion that burns like fire!

Bear Biker Love is a well written paranormal romance novella with action, adventure, a hunky bear, a curvy girl, and a loveable spirit Guardian whose halo is slightly tarnished.

The perfect pick-me-up romance for a rainy day, this one made me smile!

A copy of Bear Biker Love was provided by the author in exchange for an honest review.

Do Your Reading says

Alphas Prefer Curves: Volume One

Laurie says

3.5 stars. Cute, short, and sweet.

Faith says

Oh Yeah! This was one hot, sweet, and oh so steamy/sexy read for me!

Alex the rugged bear-shifter/biker, and Curvy headstrong Nina, mix in one paranormal Guardian, and the Hunters, and hold on tight.

I loved this from beginning to end, I hope to see more of mates Nina and Alex, as well as the Guardian.

Harper Ashe weaves a tale that had me wishing I had a bit of shifter blood in me!

What a wonderful adventure I went on with these fantastic characters. Thank you Harper, for letting me live in their world for awhile, it was a fun and engaging time!

** I received a copy of the book in exchange for an honest review **

The thoughts, opinions, and feelings I've stated are all mine.

I highly recommend this book, to those that read paranormal, romance, contemporary... Anyone who enjoys a great book and realistic characters you can connect with!

Heli - So Many Books - So Little Time says

2.5 stars

Roxie's Reviews says

"Bears, Motorbikes and BBWs oh my"

I have read a lot of Bear-shifter books, but this one is the best so far. It is touching, sweet, hilarious and hot! I just love a big alpha male and you can not get much bigger than a Bear lol

Harper Ashe has shown me that she is a fantastic writer with a great personality. As we all know a writer's

personality shows through their work . I gave this book 5-stars it deserved it! This book is well worth buying :)

Katrina says

A sweet, charming story, not over-taxing on the brain with appealing characters - an easy, fast read
