Satan's Sabbath

Don Pendleton

Satan's Sabbath Don Pendleton

THE LAST DAY!

This is it...the end of Mack Bolan's long second-mile into hell..

the day to end all days of the Executioner's one-man war against the Mafia. If you were there in the beginning or at any point along the way then you will certainly want to be present for the climax of the most audacious military campaign ever pursued by an American fighting man.

Can Bolan pull it off? Can he engineer the final victory...the one that can give meaning and substance to two savage miles in hell? Will he win and survive? Or does final victory demand the final sacrifice? When the devil takes the body count, then it's got to be...Satan's Sabbath.

Jake says

I can't believe I hunted down and read this entire series of books, (at least the part written by Don Pendleton.) What fun it was. This last book was a blast, especially in how the last bad guy got it. I might look around to see what some of the other authors did with the series after Don Pendleton let it go. I was under the impression that they are not serial. Although this series was serial, I felt as if most of the stories were independent and each installment had enough back story that they did not need to be read in order.

My favorites in the series were;

#3 Battle Mask
#10 Caribbean Kill
#15 Panic in Philly
#26 Acapulco Rampage
and #29 Command Strike

Davidus1 says

Excellent!

Timothy Boyd says

An excellent men's adventure series from the 60s, 70's and 80's. The first 38 books are outstanding but then the series is taken over by a bunch of new writers writing under the name of the original creator and they take the series into a new direction I did not care for. The first 38 books are very recommended

Kevin says

My brother read and reread this entire series when I was a wee one and I was obsessed with the covers and titles. It's actually pretty awesome for four-subway-trip read.

David says

This book is the last of the Executioner series to be penned by Don Pendleton. It is also the final Chapter in Mack Bolan's war against the Mafia.
For true Don Pendleton/ Mack Bolan fan this, and the preceding 37 books are the essential.

Kaj Samuelsson says

So, now I am done with the Bolan books and the last six were the best in the series.

This last book I have been waiting to read for almost 30 years. Then, 30 years ago I read all the books translated into Swedish, and I only found 19, and this one was not part of them. Anyway, now the Mafiadom is gone, and with quite a bang.

Dave says

Satan's Sabbath was the final Mack Bolan book by Don Pendleton before a legion of writers took over under his name. It also marks a major change in the legend of Bolan because he shifts in a this one from being the one-man lone warrior at war with the Mafia to a new identity as a government agent, John Phoenix who rises from the ashes. Although other authors went on to continue this series for another 400+ books of crazy action and adventure, the original 38 book story would end here.

The story itself continues Bolan's superhuman efforts to wipe out the Mafia and includes battles with rocket launchers in Central Park and Bolan masquerading as a Mafia hood and taking over their enterprises. As always, great fun.

Ronald says

read some time in 1981
