The Dragon's Eyes

Rain Oxford

The Dragon's Eyes Rain Oxford

Three years after saving the Earth and Duran, Dylan faces all new challenges. Kiro has disappeared, the Iadnah are turning against their Guardians, and to top it off, a creature as old as the gods is wreaking havoc on Earth. Other strange occurrences are happening throughout the universe, and Dylan will have to investigate them in order to uncover the truth.

Mordon, having finally freed himself from his father, agrees to help Dylan in his endeavors. The further he gets from his homeland, however, the more he discovers terrifying secrets that had been hidden from him.

Together, Dylan and Mordon must protect more than just Earth. They will have to explore new worlds, garner the trust of the gods, and save their friends as well as a mysterious child. Through it all, they must battle an evil as ancient as the gods.

Karen Beg says

Great series!

This is a great series! I love the characters! They all fit in so well with each other! I find I can't put this book down, and now I want to get right into the next book. I recommend to fantasy lovers!

Sue says

Oxford writes my kind of heroes. They are smart, snarky, funny, and TRULY good people. She populates her stories with great characters and truly treacherous villains. This one could have had a little more menace (Dylan had gotten so powerful nobody poses much of a threat anymore and he is such a good guy even the psycho gods are easily won over) but it ended up being such a feel good read that I'm having trouble finding much to complain about. Don't pick this one up if you're in the mood for a dark turn.....

Todd Menesses says

I have finished narrating this book and it is now available on Audible.com or Amazon.com. Good continuation of the first book with a nice cliffhanger at the end!

Chris says

A convoluted turn off until the end

Maybe I'm opposed to time travel in books or something, because I really disliked that part of it. I didn't enjoy the book until the last 15-20%, thought I was done with the series until then.

Rune Andersen says

I still like this story. What I like is that the author doesn't dwell too long on every incident. If someone is more powerful than that person will succeed. By letting him do so, the story progresses better. What could be different is the use of repetition, that can get a bit annoying at the end.

Will still listen to the others when they are available:)

Devon says

This is really a good read. It answers questions from the first book (The Guardian's Grimoire). Lots of adventure, magic, and monsters. Surprising things going on every time the characters turn around. Definitely

a book you don't want to put down.

The only problem with this book is that it leaves you wanting more! I've heard the third book is due out soon, and that's a good thing!

DWR says

Ultimately, this was just boring

I thought the first book was reasonably good, but slow and contained numerous typos. I only made it through the first half of this second book. I just didn't care anymore. Too many similar protagonist POV's.

Eventually, if I hadn't read the POV header at the beginning of the chapter, I wouldn't have been able to tell them apart. They are all male, super powerful, well meaning, kind to strangers and children. Yawn. Some of their biggest challenges involve diapers. Yawn. They have little warning when danger strikes, yet they are saved by their own unwitting actions or by a little girl in a white dress. Huh? The danger is always short lived, always at the end of a chapter and they are inexplicably fine at the beginning of the next. Yawn. There are cute animals. Yawn. There are many, many typos. I read it through Kindle Unlimited. Glad I didn't pay for it.

Caitlin Popplewell says

I'm so happy to have been able to get a second book from the author of the last book I read and reviewed on here (please, do yourself a fair and go check it out!); Sure, some characters are new and some are gone, time has passed and things have changed, but what a wonderful addition to any of us who are fans. :)

As she did in the last book, Rain Oxford managed to keep interactions between characters of completely different ages and places very believable, and the sense of humor remained for me to gain great amusement from.

And most of all (for me, anyway) - animals! Who doesn't love to have mythical creatures come into the works? Not only to know they are there, but to read about their behaviors, their feelings! I did not see that coming and I was thrilled. :)

John #Audible says

Audible listener here.

This book has performed a 180 vs the first which was awesome; and in my opinion it jumped the shark, it turned into Daddy daycare. Every time a kid gets tossed into the mix with a Sci-fi or Fantasy book it turns into a total mess.

The Narrator Todd Menesses did a awesome job like he always does in the Audible verse.
