School may be out for summer, but English teacher Emily Taylor's homework is just beginning.

Emily has been looking forward to attending Ellington High School's end-of-the-year carnival fundraiser with her new flame, Tad...that is until she finds the mayor's body behind the English department's Whack-a-Mole booth. Suddenly rumors are flying in their small Missouri town that the mayor's husband was having an affair with the town's newest dentist—and Emily's good friend—Amelia Franklin. With her friend in the role of prime suspect, Emily begins her own investigation into the mayor's death. But with so many of the mayor's recent decisions being wildly unpopular—including one to end the school carnival tradition!—there is no shortage of suspects. Was it the vocal school superintendent, the secretive new junior high math teacher, or an old high school sweetheart of the mayor's husband? I would like to say I knew who had done it, but I was only slightly suspicious. Again I think the characters were adorable, and I really enjoyed the character development, I also enjoyed seeing more of what makes the relationships. For example we got more of how Emily and Gabby's friendship works.

### Danielle says

Cute cozy mystery. My biggest problem with this series is that the "bad guy" is pretty obvious because they have no other reason to be in the story otherwise. I will say that this "bad guy" did fit a little bit more organically in this story than the first one.

Although in many ways it is a typical cozy, it is a good one and that is what most of us who read cozies are

---

looking for. A good cozy. Well written. Intriguing plot twist.

Emily once again finds a body and it's possible connection with a friend leads her to try to find out what really happened. It doesn't take long for the murder to single her out for attention. Her relationship with Tad is growing but she doesn't feel secure with it yet. Gabby not only supports her in her search, she was is Emily when the body turns up and plays a major role throughout. Her broad range of suspects makes sense and her thought process when not blocked by emotion is well thought out.

I received a copy of this book in exchange for an honest review.

#### **Murder at the Carnival**

End-of-school-year carnival time and two teachers find the mayor's body behind one of the games. More excitement by the minute! I enjoyed this book so much that, even with a terrible headache, I couldn't stop reading it.

#### **Summer School**

An interesting read with a cast of intriguing characters. The plot was exciting and the resolution a surprise. Our heroine is feisty and as usual a bit nosy. She manages to get into dangerous situations but not for long.

This storyline was better than the first one and I really like the characters and their through lines. I guessed the denouement early on though. I loved the carnival setting. I hope the author keeps writing this series. As an English/Theatre teacher it appeals. It also inspires me to write!

Another enjoyable visit to Ellington, Missouri and English teacher Emily Taylor. The school year is at an end, the school carnival is in full swing. Someone kills the town's mayor behind the English department's Whac-a-Mole booth. Emily and her best friend Gabby stumble over the body. Emily's boyfriend Tad seems to be spending lots of time with the newly hired math teacher, a tall good looking Blonde who happens to be the mayor's niece. I did have this one figured out shortly before the big reveal at the end. Looking forward to book 3.

This is a fun read for summer! School is out and the summer carnival is in full swing. Things appear to be going well until Emily, the high school English teacher, discovers the mayor's dead body behind the English department's carnival tent. When Emily's best friend ends up the prime suspect, with plenty of suspects will Emily be able to figure out who wanted the mayor permanently out of office?

This is an engaging story that will keep you interested until the end. There are plenty of suspects and red herrings, I was kept guessing until the end. This is the second book in the series but can be read as a stand alone. A great book for summer beach reading.

I received an advanced reader's copy from the publisher in exchange for an honest review.

Great cozy mystery. I felt a little lost at some points because I've never read the first in the series, but it didn't take anything away from the story. I felt the characters were real and definitely had real life reactions for the situations they were put in.

Great Series!

This is a great series; this is the second book in the Schooled in Murder series by Tracy Comstock. Emily is a school teacher at Ellington High School and is excited about the end of the year carnival fundraiser. She is especially excited about spending time with her boyfriend Tad. What she wasn't expecting was to find the body of the town mayor's body behind her department's booth. When the evidence start pointing to her food friend Amelia she is determined to put her sleuthing skills to work and find the real killer. That is if the killer doesn't strike again. I love the characters in this book, once I started reading this book I didn't want to put it down until the end. If you are looking for a great mystery, that will leave you guessing until the end, then you need to read this book. I can't wait until the next book in this series comes out.

A Review copy was provided to me in exchange for a fair and honest review. The free book held no determination on my personal review.
