Brent Spurrell says

Read this book a number of years ago and really enjoyed it. I have roughly 10 or so books by former Navy Seal Cmr. Richard (Dick) Marcinko. This particular book gives a look at the real deal people who are in his "fictional books". Love his writing style, it's raw and it's real. Difficult to put down.

Ernest says

Found this used at the grocery for \$3. Pretty good read with views from The Rogue Warrior and other SEAL Team members about how their lives before, during, and after military service. I want to read the other Rogue Warrior books now.

Greg Oaster says

After reading about nine of his books, it was nice to meet some of the team members and read their stories. It's nice to put personalities with characters.

Eric Sandoval says

That's why they're the real deal

Includes his team members writings... Same guys that are in a lot of the RW books. Looks ok, not great.

Diana H. says

A brief look into the lives of some former SEAL team members. Who they were, where they came from, what motivated them, and why they made the decision to serve their country as members of this elite group.
