Ex-Con Times Two

Jay S. Wilder , Bella Love-Wins

Ex-Con Times Two Jay S. Wilder , Bella Love-Wins

Full-length, standalone romance with an HEA ending and Zero Cliffhanger

Hunter

We're supposed to keep our noses clean.

But things are about to get filthy with our sweet little virgin.

When you've had a rough life like I have,

Doing hard time is pretty much a guarantee.

I'm an ex-con.

It's one of those dirty little secrets I hate sharing.

I don't expect any breaks or a happy ending, but good fortune comes our way for the first time in, well... ever.

Then I meet Katelynn.

A good girl.

Katelynn is sweet, shy, and way too young. She's **barely legal**, but I can't help wanting to live out every filthy fantasy on her innocent, virgin body.

Correction. We can't.

Because my ex-con best friend, Jake, and I like to share one woman.

Our Kitten.

We find out that someone wants to harm her. Now that we've claimed Katelynn for ourselves, no one gets to touch her.

Not on our watch.

To hell with parole violations. We'll break every rule to keep her alive.

***Authors' Note: Ex-Con Times Two** is a full-length standalone romance with no cliffhangers and a guaranteed happy ever after ending. This is a bad boy MFM ménage romance that is all about the woman. There are no M/M scenes. This story is all about TWO hot bad boy ex-cons who fall for the same woman. For a limited time, Ex-Con Times Two includes **two standalone stories** starting at about the 40% mark.

Daria says

((3.5 stars))

I've read a book that has dual writes before and yet cant tell where one starts or the other ends. Which is a good thing. Ex-Con Times Two, Jay S Wilder and Bella Loves-Wins. Neither author I've read before but my fav genre. So is a happy reader.

I'm not sure if its all that dark and broody, it had some dark spots. You can see where this could be real life. Bad upbringing, in the system, doing time. Ect..

Both males friends and roommates, did time together. Both needs to be on their Ps and Qs cuz their parole officer is just waiting for them to step out of line.

No we met the girl. Pretty quiet you know the kind, this one has what most her age doesn't though. (yeah, yeah read about it *winks*) oh and a bit on the curvy side.

Its not all about stars clashing when they all meet but there is something there, is she way too young for them? Maybe and when the ..it hit the fan. Will the males be able to offer protection and stay out of jail at the same time?

I did enjoy this book, it was some parts that I kind of stumbled through but in the general sense it was a good read. Hot scenes, the right length. And all about the girl lovin. Enjoy.

Brandi Aga says

My ONLY complaint about this book is that it wasn't long enough. Oh my gosh, brooding, alpha, bad boy lovers - this book is for you!

Jake and Hunter are best friends. They served time together and know everything about each other. Being ex-cons is hard in the real world. No one wants to hire them and they get looked at different, like there's something wrong with them. So with the help of family they start their own mechanic business. Not only are they smokin' hot bad boys, they don't mind getting their hands dirty either.

"Kissing one man is hot. Kissing two men back-to-back? Well it's sexy as hell."

Jake and Hunter are *so* close, they even share their women. Not just *any* women though, they have their eyes on Katelynn. Young and inexperienced she doesn't know what she's getting herself into. *But my oh my, if it isn't one of the hottest things I have enjoyed reading lately!*

Katelynn is pretty lucky to have these two bad boys around, considering all the drama and trouble she gets into with her shady boss. The whole situation sets a darker vibe to the story that I really enjoyed. It wasn't all just lust and love. There's something bigger here and Jake and Hunter will do whatever they can to keep her safe. I loved seeing the men's softer side and the ways they expressed it.

"Every time Katelynn's around breathing becomes harder."

Sometimes a steamy fast instalust is called for. When ya know - you just know!

My rating: 5/5 kitten stars

**I received an ARC in exchange for an honest review. Many thanks for allowing me to read this book!*

Velvet Messer says

I've never read a MFM book before and I have admit that I was pleasantly surprised!!! It is well written and extremely hot!!! Katelynn is one lucky girl. I am sooo beyond envious of her. This is like my filthiest dirtiest fantasy come true that I didn't even know I had until I read this book!!! This book is SCORCHING HOT and will leave you panting!!! It didn't bother me a bit that Jake and Hunter were ex-cons simply because they were doing everything in their power to overcome their past and were really fantastic guys!!! Add being panty melting hot and you've got yourselves some swoon worthy men!!! This nook is naughty naughty and make your insides explode!!!

I hate that people aren't willing to take a chance on people that have been in trouble or in prison. I know a lot of those people don't change but some actually do— hence Jack and Hunter— but people just won't be opened minded or I opened hearted and take a chance. If it doesn't work out then you've learned a lesson and if it does then the possibilities are limitless. Thank God for Jake's brothers. They gave them a phenomenal opportunity and it turned out amazingly!!! People still judged without realizing that one day they might be judged. These two men are wonderful and I sure as he'll wouldn't mind having them!!!

Katelynn unknowingly gets herself called up in the middle of her balls and Friends troubles and finds herself in a bad situation. She has no one to turn to but Jake and Hunter step in and do anything to protect her even though they know that there is a risk they might go to prison by doing so. When Caitlin gets kidnapped they realize they would do anything to get her back. And with some smart thinking they end up saving her even though there is a slight chance they could be in violation of their parole. But they take the chance because they love her so much. During her rescue something tragic happens to one of them and I swear my heart almost stopped beating. The ominous feeling is palpable. But the question is which one that carried away in the ambulance??? And the unspoken question is will they make it??? You'll have to read to find out!!!

I really enjoyed this book!!! Like I said I've never read a ménage but before but after this one I think I will check out some more!!! This is my first book by these authors and it will not be my last!!! Ex-cons times two has stayed with me since I have finished reading it!!! There's something about the way Jake and Hunter were portrayed that captivated me!!! And it helps tremendously that there was an actual storyline to this book!!! I hate it when books solely focus on the sex scenes and there's no story. But this one had it all!!! Scorching hot men!!! Smoldering sex scenes!!! Crazy passionate love!!! And a really good plot!!! If you are thinking about reading this book but are unsure take a chance and read it. You WILL NOT BE DISAPPOINTED!!!

Lisa Pate says

The story begins with Hunter getting fired from his job at the dinner for failing to put on his application that

he has a felony record. Angry and dejected he goes to the gas station to get some gas. Coming out he sees Katelyn filling her car up, but just when he gets the nerve up to talk to her she is gone. Once he gets home to the apartment he rents with his best friend Jake who is also an ex-con.

They live in the apartment attached to John and Jared; Jake's older and younger brother. The two brothers come up with a plan to start their own business of detailing and auto repair. They open it up and are starting to make a profit.

Katelyn never forgot about the hunk of a man at the gas station. She even stalked his truck and found out where he lived just so that she could get another look at him. Then one day she drops her car off to have it detailed at this new shop and is so surprised to see that Hunter works there and also meets Jake. Her friend and co-worker Will picks her up and takes her to work.

The next day her boss has her drop off his car to get it detailed but he also had to go to a meeting so Katelyn let her boss borrow her car to use. Later when her boss's car was ready at 6 pm Will drove her there to pick up the car but he was acting weird, saying that he thought that they were being followed. Katelyn thought he was acting strong.

Will dropped her off to get the boss's car and left but before she could leave a black SUV pulled in blocking her in and two men came out and tried to kidnap her. If it weren't for Jake, Hunter, and Jared she didn't know what would have happened for they saved her. She had no idea why anyone would want to kidnap her. She was so shaken and when Jared and Hunter were going to take her to her home she remembered that everyone would be out for the evening so they took her to their apartment and that was the beginning of their relationship. Later they found out that the two men had also gone to her home that she lived with her parents and asked for her. Terrified she spent more time with Jared and Hunter.

Later she found out that her boss and Will were in debt big time to a loan shark, and they were going to use Katelyn to force them to pay up.

How were Jared and Hunter going to protect her without breaking their parole. If they went back to prison it would be for a lengthy period and neither one and any attention of going back but they had to protect her. When the time came how were they going to react and not get into trouble.

This book is an excellent book I could not put it down once I started it.

Dianna says

Loved it

This book about ex-con x2 with its other bonus books was really good.. Was all worth buying and reading. I will be recommending this book to friends I know will love reading it as much as I did.

Mary Mooney says

Ex-Con Times Two was a good short story but it needs several rounds of edits. There were a few paragraphs that were repeated and several words missing through out the story. It was OK to read but would have been

better if it had been edited.

I loved the connection between Hunter, Jake and Katelynn. The story could have been longer in my opinion because it ended at about 31% but it did tell in the synopsis that it would be over about 40%.

Other than needing a good edit, I enjoyed the story.

There were three other stories after the Ex-con story and all were better edited and were good reads. I liked The Billionaire's Empire Complete Series the best, then The Billionaire's Temptation and Seduction Complete Series next and last but not least was Owned by the Baller.

All were good stories and can be read on their own, just find them in the table of content and start reading.

Ex-Con Times Two was a 3 star read for me but the other stories brought it up a star, that is why I gave them a 4 star rating. In my opinion, skip the Ex-Con one until the edits are fixed and read the others, you will enjoy them more.

Shatire says

Meh...

Ex-Con ends at 31% and the rest of the book is 3 bonus stories, 2 by Bella and 1 by Jay.

The story was okay, not good, but I wouldn't say bad either. ETT definitely needs to go back to the editor; the book is comprehensible, but there are several errors (maybe 3-4 every chapter). Flat characters, no development. Slow plot. The story had the potential to be more but feel short IMO.

Karen Durant says

Hunter & Jake were best friends when they were younger, but lost contact after high school, only to meet again in prison. They are now on parole & trying to get straight. They've also always been into sharing everything, even women. Katelyn, 21 yr old virgin takes her car into the shop that's owned and run by Hunter, Jake and Jake's brothers. There's an instant attraction between the 3 of them, but then Katelyn's life's been put in danger by her boss & a co worker. Hunter & Jake will do their utmost best to protect their "kitten"

This book has a bit of everything & is full of twists & turns. Another great book by the duo, Jay S. Wilder & Bella Love-Wins

Shirl says

This was a good book and could have been a great one but too many inconsistencies. On one page it would say one thing and a few pages later it would say something else and it just took away so much from the story. I don't want to give away too much but one example was her Dad made her go to the police and when she got back and told them she went and they was pissed off about it, she said she was sorry and felt bad for suggesting going to the police. Just a small one but the book was full of them and I spent more time going back to see if I misread it.

Morilyn says

Ex-Con Times Two by Jay S. Wilder is, as described, a bad boy MFM romance which sounded fairly straight-forward. Since this is the first I knew by this author, I had very little expectations about the book; I was delighted to find that it delivered in spades! Hunter and Jake have both recently been released on parole from prison and are trying to settle back into the community. They were school friends who had drifted apart after high school and reconnected when they were in prison together. Jake's eldest brother helped with accommodation, so they could get work and get back on their feet. The book opens with Hunter losing his job as a short-order cook in a diner after only a week. He had failed to note his criminal history in his job application and the owner found out. On the way home he sees a gorgeous girl getting fuel and they both smile at each other, but she drives off before Hunter has the courage to speak to her.

Hunter and Jake like to share - everything - but it's been awhile, what with being in prison for several years. Jake's younger brother has an idea about starting a new business, with John, Jake and Hunter and they all get very busy setting up the business and working long hours. Hunter has told Jake about this beautiful woman but hasn't seen her again, until she turns up at their new business and they get to talking.

The story is well paced with several unexpected events and surprising reflections on the difficulties in settling back into life in general while on parole. This added to the romance developing between Katelynn, Hunter and Jake. If you like your bad boys with a little suspense, a dash of spice as well as relationships which grow over a few months, not days, then be sure to read Ex-Con Times Two.

April Symes says

Jake and Hunter, best friends and roommates who are also ex-cons trying to get back into society after being released from a short stay in prison. They learn not a lot of people want to hire criminals/x-cons.

With the help of Jake's brother, they end up starting their own business which is a vehicle detailing business and it really ends up being a great idea and an awesome boom for them both. Their main plan, besides this new business is to just stay out of trouble. But trouble happens to come in the door –her name is Kaitlynn and she had a brief flirtation moment with Hunter about a month back. Now she is in their shop and Hunter sees her and can remember everything their brief encounter and wants to know her outside of the shop.

Hunter meets her for drinks along with Jake which confused Kaitlynn but also makes her super curious to see where this would go.

Kaitlynn is a sweet yet very sexy virgin who is innocent but is coming out of her shell. She wants to find Mister Right to be the one to take care of her virginity and she was thinking Hunter would be the one. Yet with Jake in the mix, she wasn't sure what to think...but she is so open to the possibility.

This is one highly charged, highly sexual romance read that is full of twists and turns. Kaitlynn needs protection from her boss.. The danger is there but so is the sexual chemistry which is very much forefront between Jake, Hunter and Katelyn. This is one story that you do NOT want to miss!! Bella Love-Wins and Jay S. Wilder did an outstanding job with the way that you were able to see each character's pov and also how the story stayed on point.

My rating: 4.7 stars ****

"I voluntarily reviewed an Advance Reader Copy of this book in exchange for an honest review***"

Cassie says

After being released from prison, Hunter and Jake struggle to stay on the straight path and keep a job. Katelynn was the good girl whom is instantly attracted to Hunter. When given the chance to see him again, Katelynn jumps at the chance, but what happens when her attraction is towards both me? Will she give into her feelings? Will they be able to keep her safe when trouble comes looking for her?

Definitely a hot book! Loved the bond between Jake and Hunter and how they pulled Katelynn into it seamlessly. Both mens instant alphaness and protectiveness over her were hot. Loved how they showed that regardless that they are ex-cons, they were smart and people. Great book, can't wait for more!

Karin says

This was a super sexy MFM book.

Hunter and Jake are ex cons/best friends who are trying to find there footing since being released. They like to share everything including there woman and when sweet innocent Katelynn walks into there shop they know they've found the one they've been looking for.

There's a twist or two in this book that deal with Katelynn that have Hunter and Jake risking everything, including there freedom for her. But mostly this plot isn't to strong but, the MFM scenes make up for it, lol. And all the characters are relatable, even Jakes brothers.

I voluntarily reviewed a arc of this book

Darcy says

I thought this one was cute. Pretty straight forward, with a couple of issues for the triad to work out. But once they did, they all were on the same page, happy to be living their life.

Chelsea says

That awkward moment when the cover and blurb is better than the book.
