Hannah Coppersmith came to Creede in answer to an ad as a nurse to the local doctor only to find there was no doctor. She'd been tricked and locked up by a man who was taking women to work as calico queens at a saloon. Now freed, she helps as she can those hurt or sick in Creede and the surrounding areas as well as delivering babes as a midwife. Until an angel sends her to a dying Marshal Wheeler, the man she secretly has loved forever.

Marshal Wheeler left New York to escape the loss of his one true love to another man. After working with the famous Marshal Nathan Ryder for several years, he's taken a post in Topaz Colorado with the sole mission of finding out the truth about corrupt sheriff Ketchem and Archie Grady's illegal activities. Shot in the back and left for dead, he's found by Hannah Coppersmith who nurses him back to health. Leading to a must marry situation.

When a new threat from their past could lead to her death, Henry has to decide if he wants this marriage to be real or if catching a killer is more important than Hannah's life. Will Hannah's cantankerous rooster, Bob, allow Henry close enough to prove his love? She's healed his body, could she be key to healing his heart and soul too?

### Renea Westlyn says

#### Such Happiness!

I love the books written by George. They always make me chuckle and smile. They are a true joy to read.

---

### Tamera Westhoff says

#### Sweet Romance

More from the guy's point-of-view. It's very much a "I like what I'm seeing" kind of book, but more puzzle pieces fall into place, so that was cool!

---

### Crystal says

#### Wonderful!

Another wonderful read in the series! I adore Bob the Rooster, he is the perfect companion for Hannah and Henry on their journey to love

---

### Sharon says

Hero: Henry/marshall -- Heroine: Hannah/nurse

Best sub character ever- Bob/guardian rooster

Reading Enjoyment:4.9\* I immensely enjoyed this love story that made me laughed out loud, freak out over a certain situation , and sigh in relief. Another great story in this series that is filled with humor, love and a little drama. This story that grabbed me and would not let go until the end, it progressed steadily, has well developed characters with witty/humorous dialogue and a well developed plot. This story has a very happy and satisfying HEA . I also loved the technically not an Angel's part in this story, she did not "beat around the bush" of what needed to be done.

Reviewed at Historically Romantic

I had such a good time with Hannah the Healer, it's charming with touches of danger, funny with wit and banter, angelic help and one very special rooster that you're bound to fall in love with. Yes, a rather unique rooster named Bob. If nothing else, that little tidbit should help in your decision to try Hannah the Healer for yourself \*grin\*

Hannah has been in love with Henry for years. Yet, back when they both lived on the East coast Henry only had eyes and love for her sister. Ester had used Henry with no intent of marrying beneath her station and broken Henry's heart by marrying a dangerous man. Now they both find themselves in Creede, both adults and very changed lives during the in-between years. With a touch of angelic help, Hannah will save Henry's life... and in the process make one of her dreams come true. Yet, she wants his heart and as long as Ester has control of his heart nothing that happens between them will be real.

Watching Hannah and Henry face a difficult situation was touching and emotional. There are several villains to loathe, a few surprises and a very satisfying happy ever after ending. I always enjoy meeting up with previous characters and couples from previous stories in a series and we run into a lot of old friends. I enjoyed my time in this world once again... and perhaps my favorite character of all was Bob, the guardian/attack rooster. If you enjoy Western Historical Romance then you'd enjoy this story and the entire Cowboys & Angels series.

I read this title through my Kindle Unlimited subscription.

#### **You can be what you want to be.**

Hannah remembered the words of Henry and she became the nurse she wanted to be. Henry had great teaching from Nathan and he stayed an honorable man. When the situation called for extreme measures he

takes it in stride. A great story by one of my favorite authors. Couldn't put it down. I seem to have a hard time putting any of these cowboys and Angel books down.

#### **Hannah and Henry**

Hannah has loved Marshal Henry Wheeler for as long as she can remember. They were neighbors in New York City, but Henry was in love with her sister. However her sister was just using him until she married Augustus Rayner, a mean bully.

After being humiliated, Henry became a Deputy US Marshal and moved west to New Mexico Territory. He was promoted to US Marshal and moved to Topaz, Colorado, which was a few miles from Creede, where Hannah was a nurse.

---

After Hannah found Henry lying face down on the road she discovered that he'd been shot in the back. With divine help she was able to get Henry to her cabin, where she was able to remove the bullet from Henry's back and stitch him up.

A blizzard kept them from leaving the cabin for a week so they knew that to save Hannah's reputation they would have to marry. But was Henry ready to marry the sister of his first love?

With the help of an angel and a feisty rooster the two will get to discover each other. A person from their past also figures into the events that are happening in Creede, Colorado.

I love Bob. Bob made me smile many times and I really needed that.

Hannah is an admirable lady, dedicated to helping. Henry is also dedicated to helping but in a different way.
