## Wilder Girls Rory Power

It's been eighteen months since the Raxter School for Girls was put under quarantine. Since the Tox hit and pulled Hetty's life out from under her.

It started slow. First the teachers died one by one. Then it began to infect the students, turning their bodies strange and foreign. Now, cut off from the rest of the world and left to fend for themselves on their island home, the girls don't dare wander outside the school's fence, where the Tox has made the woods wild and dangerous. They wait for the cure they were promised as the Tox seeps into everything.

But when Byatt goes missing, Hetty will do anything to find her, even if it means breaking quarantine and braving the horrors that lie beyond the fence. And when she does, Hetty learns that there's more to their story, to their life at Raxter, than she could have ever thought true.

### Chloë says

LOOK. AT. THAT. FUCKING. COVER.

2019 is the year of creepy queer novels and I'm so here for it.

### Savannah Brown says

Well, shit. I loved this.

Can Power *write*. Every word felt so *living*, simultaneously effortless and deliberate, deepened further by the spaces she lets the reader fill in for themselves. I bought all of it - from the girls to the complicated relationships between them, to the nature of their quarantine, to the island, to bodies turning against themselves. It's unique and thrilling and gut-wrenching and terrible and strange and I can't stop thinking about it.

WILDER GIRLS is really special. Do not miss it.

### Natasha says

Edit: Am I the only one who sees a book and wants it so bad they have a panic attack? No? Just me?  
This cover looks like something I did in art class

### Christine says

It's been a few days since I finished this book, and I still can't stop thinking about it. It feels, in many ways, like it was written specifically FOR me. It's filled with things I love--woods, boarding schools, monsters, body horror (THE BODY HORROR IS SO EXCELLENT), and, most of all, vicious wonderful complicated teenage girls. also the f/f romance. also the blood. this book pulls NO PUNCHES, and it's awesome.

come for the gorgeous writing and terrifying stakes, stay for characters who will rip your heart out and step on it, possibly literally, while you thank them.

### Laura AP says

the feminist and bloodthirsty annihilation y'all have been dying for

## Joan He says

I've been trying to pick a favorite quote for this one for a while but let's be real: every line in this book is beautiful, but not in the way that you would think. The writing doesn't TRY. It breathes, tugs you along while slowly vining around you, and then BAM! It murders you with something so terribly real, emotional, or just downright horrible, and you can't look away. This is the kind of story, characters, and atmosphere that will seep into your brain and stay with you long after you finish.

But also like to be completely ineloquent here's a list of things I LOVED:

1. girls being girls - fierce, soft, monstrous, sacrificing, and everything in between (and a heart-wrenching f/f relationship I cannot).
2. HETTY MY PRECIOUS please everyone love her and give her a hug
3. GROSS things. lots of blood. lots of creepy AF animals and woods and I was here for it
4. THE ACTION. I can't remember the last time I read such masterfully executed action scenes
5. but also all the quiet moments. This is where the writing shines and you're right there with the girls on the rocks overlooking the sea and there's this incredible sense of place
6. SURVIVAL THINGS. HUNGER. STARK DESPERATION
7. everything, pretty much

read it and love it and come gush with me
