A portal takes them to a world called Rawn, where the natives do not like humans-especially those with magical powers. Up against nasty goblins, giant trolls, lake monsters, and a shapeshifting wizard named Shanara, the trio struggles desperately to avoid danger while learning more about the Diadem's rulers. Honing their magic skills, making friends, and sticking together are their only chance for survival. I loved all the creatures in this one! It had a classic, epic fantasy feel in a fast, compact adventure. Rocs, Wyrms, sea monsters, goblins, trolls, centaurs and a lazy troll! I loved how we get to really see the types of people the three are. For wizards, they are apparently quite kind and honorable which apparently isn't normal. The Shadows continue to concern me and the end has a nice twist that I really liked.

I really liked this book. I like how Helaine is able to defend herself against the sea monster, before Score and Pixel come to her rescue. I like how the centaurs rescue them. I hate how Shanara messes with them and how she send trolls and other creatures after them. I like how Helaine, Score, and Pixel are able to defeat whatever comes their way. I like how they become friends of the goblins. I like how they come to know Shanara and then they become friends with her.

Book of Signs is the second book in the *Diadem: Worlds of Magic* series. The pacing in this book is still pretty rough, and there are cuts away to the villain's perspective in order to introduce said villain to the readers. This disrupts the continuity and flow of the story.

I just finished reading "Diadem The Book Of Signs", This is a book that takes place on Rawn. On Rawn there is mountains filled with trolls and forests filled with ogres. In the story Score, Helanie, and Pixel just made it in Rawn after defeating Aranak. In the bag the bestials gave to them, lay jewels which give them powers. They realize they have to beat a wizard named Shanara, an evil wizard. They go through dark magic and evil creatures, until the trolls help them find Shanara. The book has a omniscient narrator, so the reader tells the characters mind or thoughts.

I really enjoyed the book because there was a lot of action and adventure so it made the book interesting. I think the book was really short because there was a part in the book when they fought trolls and the scene went really fast. What I do like the book was that they figured a way to fight the trolls without killing them, that shows that they didn't want to kill them. In the book Score, Pixel, and Helanie save the trolls so they get jewels from them and trust. I thought that was really cool how they did that, that shows courage. They also make friends with centaurs, they helped them beat the sea monster. They also help them find Sanara in the

book.

Diadem #2: Book of Signs, by John Peel

"Book of Signs" continues the adventures of Score, Helaine, and Pixel, who were first introduced in "Diadem #1: Book of Names." Having defeated their first enemy, the trio has traveled to another world in the Diadem, the world of Rawn.

On Rawn, they encounter some of the typical races who inhabit fantasy lands: goblins, trolls, and centaurs. The three are still learning to work together and how to use their magic powers, including the use of gemstones to augment their abilities. They learn the power of teamwork as they journey through Rawn, intent on finding the sorceress of the world.

The story is a little simplistic at times, but granted, this series is aimed at younger readers in the 9-12 range. I think what's great about the Diadem series is that it promotes working together, rationality, intelligence, and tolerance as Score, Helaine, and Pixel befriend the goblins, which benefits them much more than if they had tried to kill the goblins.

If you're an adult or teenager checking out the Diadem series, I recommend you read the first three books all together, as they are a larger story and each ends in a cliffhanger.

4/5.

Matt Mazenauer says

A little slower than the first book, with blatant foreshadowing, no real villain, lots of wandering... but still the rules of magic are interesting. ONE major fault: The book isn't intended for two year olds, yet the puzzles seem to be. It's agonizing watching the characters struggle and muse for 2 pages to read something that is printed backwards. "Oh, wait guys! Get me a mirror, I think I have it!"
