Probably the saddest one I've read in this series so far...but a sort of sad that makes way for a beginning.

Even though this is a romance novel, and I usually appreciate romances, I am not feeling this one. There were lack of information when necessary, and too much information that came out of no where. I didn't know the protagonist's name until about twenty pages into the book. I think the too much information about colleges and why were unnecessary. However, I think the author had good ideas in her mind that should turn out to be a better book if it could improve. What happened in the book was completely out of my prediction of the ending, which was impressive.

Love Bukowski is back in the United States after a semester in London at the London Academy of Drama and Music.

She had to leave her Brit boyfriend, who, when she gets home to the US, doesn't want to seem to talk to her, until he announces that he's coming for a visit. She had to leave London to be at her Aunt Mable's side because she is fighting breast cancer. She is suffering from major Europe-withdrawals and it turns out that her dad has a new girlfriend -- and he tells her that she picked up some bad habits while in Europe.

As if that isn't bad enough, Love's ex-boyfriend, Jacob, has become super-popular while she was gone!

This book is slow in many parts but you have to feel kind of sorry for Love, who had to leave everything that she loved in London behind. Plus, when she gets back, her Aunt Mable seems to be doing pretty well at first, but then tragedy strikes. It seems like when Love comes back to the US, everything is different then when she left, so it's kind of like culture shock for her, even though the US is her home. This is a cute but sometimes slow read.

My opinion of this book is, it is very good book because this was the first book I read before I read the 1st book in the series. I liked it because I reads the blurb and I wanted to start it, but after a while I started reading from the beginning of the series and it didn't make sense but after a while I got all of the books in the right page. The book is the same like a earlier book in the series because the main character is going away for the summer to her aunt because she has breast cancer. I would recommend this book to people who like the genre drama and people who like this series.

I have fallen in love with this character, Love. She is so hilarious, and her every comment makes me smile. Glad I picked up the series and finally decided to read through it this summer. :)
