## Everywhere She Turns Debra Webb

When Dr. CJ Patterson returns to her Southern hometown, she finds herself surrounded by a series of long-buried secrets—and a killer who seems to know her better than she knows herself...

Drugs, prostitution, robbery, homicide—these are four terms that Dr. CJ Patterson learned all too well growing up on the seamy, forgotten streets of inner-city Huntsville, Alabama. Fiercely determined, CJ worked hard to forget where she came from and become an emergency medicine resident at a prestigious Baltimore hospital. But when her younger sister—the only family she ever had—is murdered, CJ is drawn back into the painful past she thought she'd left behind. Her unrelenting investigation uncovers a highly sophisticated web of shocking family secrets, dark obsession, and brutal violence and a killer who will stop at nothing to keep her from learning the truth.....

## Everywhere She Turns Details

## From Reader Review Everywhere She Turns for online ebook

### Bob says

I had mixed feeling about this book. CJ was so inept, it is a wonder she survived. Technically well written, except for the ending, but very wordy. Webb's editor should have worked with her on the last page of the book. Great idea, but the presentation was really lame. I got the feeling the author was simply glad to be done, and did not put the effort into the last paragraph she did in the rest of the text. "Everywhere She Turns" might have been better if it had been about 30% shorter.

### Jill Dunlop says

Dr. CJ Patterson learns that her sister Shelley has been murdered. CJ and Shelley grew up in Huntsville, Alabama on the wrong side of the tracks. CJ was able to make something of herself and become a doctor, but her sister Shelley wasn't so lucky. Shelley was a prostitute and drug addict. CJ goes back home to make sure the police are doing what they can to find Shelley's killer. CJ knows that since Shelley wasn't an important citizen that they would be more likely to ignore her murder than make it a priority. She won't stand for that and gets involved with the investigation.

Debra Webb pens excellent suspense. I was engrossed in the story right from the beginning. The suspense portion of the story is very involved. There are a multitude of suspects and angles that the police are investigating. The reader is privy to some of the suspects point of view, as well as CJ's and the detective Braddock's. CJ and Braddock have a past, which unfolds a little at a time over the first half of the book. The tension between CJ and Braddock was very well done and their first intimate scene together is a scorcher. Whew! I felt that the evolution of their relationship was excellently done and was very believable.

The main thing that bothered me with the book was CJ. For an intelligent woman she sure did make some stupid decisions. She had a tendency to put herself in dangerous situations. I think for those readers who are sensitive to this type of heroine will be annoyed with CJ. I could overlook it because Webb does pen a good story. The mystery/suspense had plenty of twists and turns where eventually everything culminated in a crashing crescendo. If you can overlook the heroine's bad decision making skills, *Everywhere She Turns* is definitely an entertaining read.

### Barbara ★ says

I had a few issues with this book. First of all, there wasn't a likable character in the whole thing which makes it very difficult to care about the story. Secondly, if the King was so ruthless, CJ would never have gotten away with being so inept. She would have been killed immediately and that would have been the end of it. Thirdly, why the hell didn't Braddock (and the entire police force of Huntsville Alabama) take out the King? All in all, the whole story was ridiculous and so unrealistic as to be funny. I literally had to force myself to keep reading. CJ was one of those TSTL heroines that you just want to smack for being so damn stupid and stubborn.

### **Toshia Woodard says**

AMAZING!

---

### **Amy says**

An okay read -- nothing outstanding.

---

### **Michelle says**

This book is more mystery than romance. There is romance in the story in a few ways, but the mystery of the story seriously outweighs the romance which wasn't a bad thing. The book is packed with lots of murder and different twists and turns. The book might feel slow at points, but keep reading it. The end of the book is worth the suspense leading to it. The book is fantastic. I gave the book a 4 because without the ending; the book would not be nearly as good.

I recommend you read this book if you are trying to find something to read that builds up and explodes at the end.

### **Kay-em says**

This is first time to read this author's work and unfortunately also my last. The novel got off on an exciting start but this rapidly diminished for several reasons mostly regarding the heroine's character. She was unbelievably irrational (insisting on chasing after a sadistic killer on her own despite several very stark warnings); her foolish obsession on who the killer was (turned out she was wrong anyway); and her impatience that the police were "not doing enough" - when they were doing the logical thing... I wasn't convinced about the romance - it came across as too shallow. The language was also too extreme for me. The one redeeming factor in the book was the suspense story - its what kept me reading. I figured out who the "bad guy" was early in the story but was curious to see how he would be caught. All in all, I would have given a better rating if the book was purely suspense.
