### **Army-mom says**

I thought this book was ok. It seemed backward to the way the classes were done and it seemed to repeat itself a great deal. Some of the info. was very narrow minded in the sense of "really this not how things should be done". But it is a text book after all. I think if you read it, you should be careful not to read it unless you are ready for a nap. It is one of those types of books. Good luck with it.
