This is a great book full of information. DIY Dye is not just a how to color your hair book it informs you throughout the processes. This book also gives you recipes so you can make you own hair chalk, colored hair spray and glitter hair gel. Which I really appreciated because I prefer whenever possible to use as natural a product as possible.

DIY also features step by step instructions with multiple pictures for each process. This book also gives you natural tips to highlight you hair and to keep it health when overly processed. I am really enjoying reading and rereading this book. I strongly recommend reading this book it is so much fun and very informative.

I won this book through goodreads.
